Part I: Teaching

(:24). K- Yes, good morning, good day to you as usual. Wherever, and wherever you listen to this series of Knowledge Seekers, programs from Keshe Foundation Spaceship Institute. We welcome you back, and open heartedly we bring you all the love and care from the universe (U) as we start becoming part of U Community. At least learn how to be. In the session of last Friday, trying to elevate the Soul of the victims of child abuse with the member of KF Knowledge Seekers (KS) who were there,

(:26). we started a tentative touch as was said in the Intro, we start teaching you how to see through the dimension (D) of the Soul, while you live in the D of physicality (P). In a way, we start teaching you to what you are used to as a dream to sleep. It will become reality in the daily life. It's like having 2 different mobile phones in your hand, one for one, and one for the other. And this is important for KS to learn. And important for humanity to learn. That you need .. become aware of the change. You need to come to be aware of what you need to do and you need to understand the Totality. In a way, you got to learn how to understand you have 2 facets, 2 D in the life, the physicality (P) and the Soul, and how to collaborate,

(:28). and how to bring the 2 to be as normal as daily physical life you learned. In a way, what we need to understand is, how we gradually become to see in both dimensions, and trust it, and don't

call it a dream. And learn to coordinate, be it from the Soul side, or the Physicality (P) side. For those of you who were in the session of last Friday, and those of you who have registered for the session for tomorrow, will go through this process. Will come to understand this process. Will see how it will be. (silence) And to understand the change. To become part of a normal life, to live in both dimensions.

(:30). How would we come to live with both, in both dimensions? Come to be part of both, in both dimensions? And once we can do this, once we arrive in the dimension of the Soul, in a given position, then through the same process, we can call the dimension of physicality to manifest itself. And we need to go through this training. We need to go through this dimension. And as we started last Friday, and how we can see behind two curtains. We learned that when we are in the dimension of physicality, the first curtain is the dimension of physicality, the trees, the car, the person we talk to. And when we raise the second curtain, we see, we interact with the Soul of the person, with the soul of the entity. And as we have a common denominator in both structures, we decide what is the best for both Souls to be in a given position or interaction. This process, as you see, is not going to be an easy job. This process of switching between the Souls will be taught to the first 25 people who will join us in the first sessions of the 200.

(:32). And this will be developed into the next sessions of the teaching and understanding. It has

to be taught face to face in the first instances till more and more people learn how you raise the second curtain to see the dimension of the Soul. It is part of understanding the structure and existence. It's not really opening an eyelash and you see the daylight. You could have your eyelashes closed and see in the dimension of the Soul. But the dimension of Physicality to you is closed. When you open the eyelashes, then you see the dimension of Physicality. And this is what we said in all the teachings, you cannot lie. You will not be able to lie in that dimension, because you see both. You are aware of both. And this will become one of the biggest challenges for man. Because physicality cannot do something wrong where it's aware of the Soul is with it. Physicality cannot cheat, physicality cannot bring the dimension of what I call, "what suits me better, forget the others." So in this sense we come to understand and in the training to come, to live in both dimensions.

(:34). Then we'll learn we do not need to sleep to dream. We'll live the dream of reality at the same time. The first times you try this it's not easy. The first time you try to, as I call, raise the "second curtain" which is opens up during your time of sleep and you call it a dream, it's not an easy job. Because it brings a lot of confusion. What am I seeing? In the dimension of physicality I see the door, the car, the man, the dog, the cat. Here I see just light, dark lights, with the stars, with different dimension and shapes and colors of the stars. And those dimensions when interact with the physical

dimension changes into personalities, the mom, the dad, the dog. And then we come to understand we see beyond. You get on the phone in a physical dimension to the man on the other side in India trying to sell you an item, which he knows is wrong. But now you learn to go through the dimension of Physicality and you see his Soul says, no, the Physicality is wrong, what he's saying. Then you know the truth. You don't need to wait to buy the product and then find out, "oh, the guy lied to me." This is part of the process of the elevation of the Soul of the Man (STM).

(:36). Part of the process that how we learn to elevate ourselves. Does not need no Prophet, and no Ayatollah, and no Mullahs and no priest. Then it comes to the point that you reach to understand that you read, you go to the Church and he says, this is what Christ did, blah, blah, blah, blah. You switch in the Church to the dimension of the Soul and put yourself at the level of the Soul of Understanding to the Soul of the Christ. And you ask, "did you do such a thing?" And then you find out what is the truth. And then that's the time that we say, you put the book down and you walk out of the Church. Because you don't need no false intermediaries. This is the beauty of it. It's the same when you stand in front of the lover, and the lover tells you, he or she loves you. But actually, the Soul and the physicality is engaged with another Soul and physicality. Just passing time. Then there is no other way to live, but the ways of Mitra. Because when you talk, you act, and you think, it's all the same. Because you are aware that

the truth is seen by the Souls. But the interesting part for you as Knowledge Seekers, which we started last Friday session, is how do I do this? (:38). How do I reach this point to be able to raise the second curtain? And be able to ?? live in the dimension of physicality? This goes back to what I always said, "Man lives a schizophrenic life. In two characters." One the character of physicality, and the other one, the night shift character, we call it, a dream. How do you do this? How do you develop this seeing, observation, and the trust in both, and live both. As the women always say, we are "multitasking." This time the multitasking is the same for the man and the woman, because the task is to coordinate within the Soul and the Soul of Physicality (STP), which brings the dimension of physical life into it. We ask those who participated last Friday, to carry on with the same process to this Friday, when we meet tomorrow. And we bring that process into Totality. Many of you, if you develop that point, if you develop that strength, you should be able to see the Soul of abusers. Some of it might bring you physical tension, some of it might bring you physical pleasure, that you manage to move someone to do. And then, would that be part of the work he start learning? Then do you need to sleep to see the dimension of the Soul and call it a dream? And the interesting thing is, (:40). would the time comes that, the dream and the reality will coexist and happen at the same time? And that it's the time, if you reach that point, it's the time when you meet your Creator. Because,

it's existence in both dimensions. This means you will see the Soul of Physicality of the Creator and Mitra at the same time. And very few in the Universe have ever managed to reach that level. Very few. It is not an impossible task, but it's understanding the Totality of the work. And does not need no intermediary. We don't tell you to listen to us to do this, and that, and that, and that, that you'll see and you get this, and this and that, and you'll get to your heaven, or you get to "resurrection," and you get to the Creator, and the rest of that, what I call, rubbish, which has been put on the table. You decide. You are the beginning and you are the end. You see both dimensions, you see both physicality's. And the interesting thing will be, a lot of you will not talk about, "oh, I thought about it and it happened." No, I talk about it, I taught about it, and it did happen, because my Soul brought the STP, to get the physicality to what the Soul wants, and in another point, (:42). the STP gets the Soul to do what the STP and the physicality wants. You don't need to write a letter to the lover to say, "I love you." You pass that to the STP and to the STM, and the lover says, "I know you love me and I love you too." The speaking word become less, and understanding the emotion and the fields of the life becomes more. And then you don't say, "oh, I was just thinking about this a few minutes ago and you talked." Because a few minutes ago what you thought, maybe initiated by the partner, and you responded to it, and then you think it was my thought, but both think the same. When you meet your true

lover, true partner, true, what I call, Soul mate, it's the time when you reach that point. The speaking word becomes that rose flower to confirm the confirmation of the Soul's conversation. Then it comes the same in reverse. When you hug each other in the Soul and you find the physicality hugs too. Then, there is no argument, then there is no misunderstanding,

then there is no, "if that, was it, is it, it happened, it's coincidental." You sent a message to the Soul, "I want to hug." and you find your partner hugs you physically, you don't need to ask, "how come?" Because it's become what you become, (:44). and what you, how you want it. And this is part of the progress of the Man in the coming time. Then you decide, I travel in the airplane, or a spaceship, or I travel in the ?? shape of the STM, and all will be the same. We started this process to gradually to introduce you, to watch, to see, to understand, the operation and closeness of the two. And it goes back to last week's teaching, where when you understand this, then you use the emotion to direct. You go in this opening of what I call, the second curtain, to the Soul of the mom, but then you want to bring the dad into it as well, but the emotion of the love in the level of the Soul brings you the threesome. Where one has passed away years ago, and the other one is in another part of the world, and you are on the other side, but the Souls meet and they feel the physical touch. As the STP present, creates that emotion of reality. Same as what you see in the dream, but this process will take time for Man to understand.

How you open that curtain? With the physicality we open our eyelashes, and it opens, we see the dimension of physicality. How do we open the second curtain, that through the same eyes we see both at the same time, and feel the emotion of the two?

(:46). The emotion is the only connection between the STM and the STP, and when they become one, then you see everything at the same time. You see a man standing in front of you and you're aware and see the STM within the man. And then you feel, you see if what is spoken in the dimension of physicality is the same as what the Soul says. And then you understand the level of sincerity. This has happened to me many thousands of times, when I stand in front of the people and I hear a lie, and I see the Soul telling me, "this is a lie." And, you do not need to be present in the dimension of physicality to understand it. Many of these occasions stays with me very fresh, because I could see the Soul and I could see the physicality. And in one occasion, the physicality noticed that I'm aware of the truth and claimed, "I will jump off the balcony," because I cannot hide the truth from you. This is the way the truth is, this is the way you learn, because you look at the person in dimension of physicality, then you open the second eye, you open the same eye in a second energy level. It's not an eyelash, it's like you create a transparent curtain open, that the light can shine, the light of the Soul can shine through. And in the interaction, you see the color of the eye.

(:48). You see the color of the Soul, and then you understand. It's not easy, but you have to learn if you want to live the dimension of Universal life. Because many lives have no dimension of physicality but energies. And then you have to understand what that energy wants from you. And if you understand that, the biggest question will come for the Man, would be a place and a position for a virus, for example. As it's an energy pack with its own intellect, with its own Soul. And you know it's there, it can harm you, or it can come to you. And then it comes to understand, do I need to? To share, or to give, or do I decide that I... that the touch will become my own demise? Then it comes to something very interesting, which I put to you, in one of the teachings in the past, but maybe today you understand. And in some of the teachings I refer to it in a very tentative way. Viruses are energy packs, which attach to Amino Acid (AA). They exist in the dimension of the Universal Community, where the physicality does not exist, as we have no AA. That it can be contaminated in the Universe and we get bacteria's and the rest. Then the question comes for many of you. Why for example, some of you never got the Corona?

(:50). And some of you did, and you battled with it. And some of you, you know, become submitted to it and gave the physicality to it. Did those who did not get the Corona, in the Soul level understood the share of the energy, and in that level never came in touch with. Then are some of you who got the Corona and shared the dimension

of the energy of the virus. Agreed to share but, I stay alive and you take what you like. The question is, ?? a few points will rise for Man, because this is how you will interact in the space. Energy packs which have intelligence, energy packs which are in the dimension of the Soul, and the STP is within them. Do I need to interact with you? And would your interaction with me brings my demise? Or we can come to a point that you can take what you need from me, what I need from you. But at the end, we both separate with our own energies. Many of you who went through the Corona case, and it touched and it killed some of the cells of your body, as you call it, you have shared the Soul of the cell of the Corona with you, and you dispersed it in different shapes from your body. You rejected it in different forms from your body. What happened to that Soul of the Corona? (:52). If you understand this, we even come to understand how viruses on this planet and the universe extend, expand and divide. And how we can even stand the strongest plasmatic fields, could be the Soul of another man, we call it a virus, to interact with. All viruses, what we call, energy packs, are non-dimensional. They are without dimension. And some are still Soul of other creatures travel in the span of Universe, where the dimension of the STP is within them. Would they change and manifest in dimension of physicality within us? What we call today as parasites, in the dimension of physicality. Would we allow to do this? If you go back to the teachings of many years ago, I refer to the time

when the Man will trust his Soul with the captain. And when he arrives at the point of destination, he's released to take the shape of his manifestation. Now you understand what that means. Where you are as a Soul, and the STP, within another energy pack, we call it, the womb of the mother, the womb of the Earth, the womb of the Creation, all within the Soul of another creature, to carry us across, because they carry the higher strength to a deeper strength, higher level in the Universe, and deliver us to that point. We call them captains in the dimension of physicality.

(:54). We call them whatever you like, in the dimension of the Soul. Where these Souls carry and possess much higher strength in what they call, the shield, the cover, the package of their Soul, that they can accommodate both. Their own Soul, the Soul of the others, and when it comes to the point of destination, they can allow to go. What happen if you take the shape of physicality while you are in that cocoon within their trust, within their Soul? You become parasites to their life, to their existence, to their Soul. Man will learn a lot about these things. Man has no choice. And as I said to you, we have started the process of colonization. And as we hear in the past week, the Chinese announced the same in the past week, that they will start the colonization, and mining, and living on the Moon. I do not think the two are coincidental. You understand, we carry the knowledge and we come to understand more. And we talk through the word of the Man. And as I always said, we let the governments speak in what

is agreed with the Keshe Foundation. In their own way, to make it the national pride. In their own way, that it brings advancement to knowledge of the Man. Elevation of the Soul, elevation of understanding, the Totality of the knowledge has to be passed on through the Soul, (:56). and not in the dimension of physicality. When you come to dimension of physicality, you need the schools, translators, educators and the rest. When it comes to the level of the Soul, it's shared in the dimension of the fields of the Universe. And the knowledge is free and open to every Man. "I made Man in the image of Myself." And now I show my image, as a Soul. And it's for Man to decide in what monkey suit he decides to manifest himself. Black, white, blond, dog, cat and the rest. Try to understand, try to comprehend the knowledge of the two coexisting within the same structure of the dimension of physicality. Then, when the time comes, you allow the Soul to take over, and when the time comes, you allow the physicality to take over. And then, there's one interesting point. Would the dimension of the physicality and the STP, when is within the cocoon of the Soul, still have that tangibility of the physicality of the brain of the Man? Or, does that entity changes into the fields, which is connected to the STP, weak enough, with no dimension of connection, in a way, with the STM? (:58). Then, one point which comes for those who understand this process, in a later time, in a deeper way, when we put the STM, which carries the STP within it, which carries the physicality within it,

would they see a brain structure? Or would they see a brain as a structure of fields? The second shall be ?? converted, to be correct. Then this way, no matter state within the physical brain of the Man will ever appear in a dimension of the AA protein of the Man, beyond the dimension of this planet, where the STP can be endangered. In a way, our brain will change into the field, plasmatic dimension, once it goes within the structure of the STM, as is cocooned. Then you understand. Man in every dimension, when it comes to the dimension of physicality, will take the control system center of what we call the brain, in a dimension of physical state, matter of the time, place and position. This way it guarantees its physical manifestation in any dominion and any position in the Universe. This is how you will travel in the dimension of the Soul from New York to Tehran. And Tehran and its atmospheric condition of the Earth will manifest, is the same. The Soul has a picture structure of the origin. You manifest yourself the way you are. Then mother knows, "oh, you just arrived from New York, this is my daughter." Or, you decide to change shape, and knock on the door and say, (1:00). "I have come to see you." And then, the shape and the emotion of the Soul will confirm to the mother, "this is my daughter." It's interesting when the physicality changes, but the Soul sees through. I have tested this a few times and it's amazing what it does, and how it manifests itself. Does not matter what shape and color you manifest yourself in. Now it comes to the point. In

how you as Knowledge Seekers and those who listen to these teachings in the coming time, learn to switch. Learn to raise the second curtain as I call it. Or in a way create and go through the shield magnetic fields of the second curtain. If you go back to the teachings in many simple ways, I have explained to you about when you go to sleep, your blood pressure, your magnetic field of your blood, reduces in the strength, which allows the Soul to expand, and pass through, and become the interaction of the Souls you call it, a dream.

(1:02). Now you understand the worth, the work, and beauty of the STP. Where through the interaction of the Soul with the STP, you open that curtain. The first curtain is your eyelashes in the physical. The second curtain is the field strength of the STP, the Spirit of the Man. And when you become in unison, when you learn this, through the wishes of the Soul and the true understanding of the STP, the second curtain will open. This will take time for Man to learn. One is the dimension of two fields? And one is the wish in the dimension of the field, and matter state motion of the eyelash? Then you understand when the wish is sincere, the second curtain opens automatically, even if the first is still closed in the dimension of physicality. The time of sleep. Mankind needs to understand this, and mankind needs to be aware of the Totality of the existence of both. Then you come to understand, then you become wise, (1:04). then you start the process of living a true life of the Man, a true dimensionless, a true passengers of the Universe, a true way that many,

many of you wish to have, that you don't call it a dream, and the dream becomes a reality of physicality to walk. In a way, you open the eye of physicality, while you understand and control the dimension of the strength of the fields of the STP, which takes that curtain away, and allows the Man to see at the same time. One of these occasions, which I remember clearly, happened a few years ago. In Austria, I stood in front of the person and she lied. She noticed she lied. And the only option she had, was to take the dimension of physicality and claim. Because, you cannot lie through the Soul, when you see through the Soul. This is how I knew, it's been adultery and betrayal. Because the STP spoke different than the STM. And the, what I call, the doer became aware of the wrongdoing, and cannot lie. You see this more and more, you understand this if you practice it more and more. (1:06). And then you come to understand you don't need no Enhancement Unit (EU) and you don't need no Spaceship. You come to understand, I can raise both and see both. And you come to understand that the word, "oh, I was just thinking about this before you say it", is that I send you the message through my Soul and now it confirmed you received the message. It's like confirmation of email has been received. And then you can extend this with your lover, with your partner, with your child, with your friend. And verbal language, it becomes a pleasure of confirmation of the understanding. Verbal language becomes a sweetener in the dimension of physicality. It becomes that message in a bottle, which has been

read and responded to. But this time the message you send in the bottle of the Soul was received by the soul in the rescue with all the comfort.

Mankind has a lot to learn. Mankind has to become aware of its existence in both dimensions. And not to be afraid of it, and not to shy away from it, and not to use it as a tool to feel supreme and call himself a prophet.

(1:08). Why we brought these teachings and this subject up is very easy. As you are learning to become the passengers of the Universe. As now you are learning as we start teaching you last Thursday, last Friday, about opening the second eye, in a way opening the Soul. When you come across and when you take your position in dimension that your Soul is aware of the other Soul existence, but they don't have the knowledge that you carry, you don't call yourself prophet, and you don't claim anymore and you don't dictate by it. The way the South Americans were waiting for the Messiah with a blonde, blue eye, when the man appeared, mistakenly they gave everything up and they become to be the slave to it. You become equal, and in that point you learn to be correct. In that point you we give the knowledge of the Universe you have to them unconditionally. Then no one can claim to be the guardian of the God with the rules to kill for it. To keep themselves supreme. When we stand in front of the world leaders, from religious to power, they have no dimension and dominium, as we see through their Soul. How can an Ayatollah tells me he is the Messenger, where we see through the Soul. If the

hand of the man has committed to one killing, he has lost that position. Even his own Soul, even his own suicide and commitment to it. This is why suicide is forbidden, as it does not allow the elevation of the Soul.

(1:10). Then, you understand why it's been said, that no Man will take the crown of leadership, as in leadership you have to decide on the lives of the Man. Then we understand, how the process has to be. Then you understand that there is no king and no leaders as we are all equal, as we king, and control and lead our own Soul to its, what I call, the final destination. And if we reach that purity we manage to see the Soul of our Creator, and the physicality of the Mitra ?? is a Universe. "I made Man in the image of Myself." If your Soul is in the center and the interaction with dimension of the fields, manifests itself as a STP, and then the physicality of you, then you understand the Soul of the Creator is within, and the interaction of the fields of itself, leads to the manifestation of what we call, the STP, which is the essence of emotion, and the physicality which is Mitra. As it said in Arabic, << Arabic Language >>. This is the beginning and the end. As by dimension of the physicality, we bring the essence of the confirmation of the Soul to be within, as there is no physicality if the Soul was not there to radiate, and create the emotion. Then, in so many ways, (1:12). we understand why we manifest ourselves in different color, races, and size and shapes. And it comes from the love of the Creator, and from his giving. Then you understand, when we meet with

the world leaders, when we meet with the religious leaders they'll take their turbans off and they confirm themselves to be a man and not anything. We shall see in the coming time the defrocking of all the religious leaders as we meet them one by one, and the world leaders to confirm their power to be none compared to what is of the Creator. Then there shall be no leaders and no kings, as every king is the king of the STM. Now try to understand and try to practice, because it's not us anymore, it's you and us as you and your own Soul and the STP in the dimension of the physicality of the man. As we are no prophets, we are just teachers. We teach you the way, it's for you to bring the prophet to the existence of your Soul and its expansion and its elevation. How you will achieve this, is something for you. How you will extend to understand this, (1:14). Is again is in the dimension of the life of you, and not us. We just show the path. It's for you to find the way to stay on the path, the correct way. There are no punishment, there are no heavens and there are no hell. It's just how closer with your actions you get to be closer to the Soul of the Creator. Then try, close your physical eye. And then try to bring the emotion within you, that interacts with your Spirit, or what you call, the STP. That through, you see the light of the Soul. Then, you will see darkness. Because you have to go through the passage of the extension of the Soul of yourself. That's normal. If you stay on course, you will see the first lights, the first shining Souls. And then you open up to a new dimension. And

then you'll hear every knowledge in the Universe, and every voice in the Universe. And then, as you connect in the dimension of the fields of the Universe, you can choose. The mother, the friend, the lover, or whatever, even the Soul of the person in front of you, lying to you.

(1:16). The process is very easy. Man has the tool to allow the opening of the second curtain. You call it, a heartbeat. You call it, the clarity of the feeling and emotion. And it comes at the point of servitude. I open my Soul to give, to bring. I don't open my Soul to take and to steal. And it's very much like you see if the light is white coming to you, or you see the light ...

<< Mr. Keshe connection dropped here because he had to answer a call >>

(1:18). I'm sorry I'm back, I had to accept a very important call for the Foundation. Now you understand the process, and now you understand how you have to do it.

(1:20). You have many, many ways to raise, or to open, or make it transparent, it doesn't matter what word you put to it, to see through the Soul. In the physical dimension, you have the "eye holes" and the body has got used to it. It's a less resistance point of field transformation. When you are in another dimension, when you're in another position, you might not have eyelashes. You might not have the position of the skull to block. According to the time and position and the place, it will be different. But once you learn the process,

it does not matter where you are and how and what shape you take, you can even be a stone and still see through the eye of the Soul of the stone. Does not matter how that stone is and how big it is. It could be as big as a planet and a star itself. The STP, the STM, the Soul of understanding the Totality, is the responsibility of every Man on his own. And does not need no prophet, and no Mullahs, and no Priest, and no Rabbi, to tell you the lie to suit them to see through the eyes, that they can steal from your Soul.

(1:22). The way you have to learn is the way to understand the work of your physical life. To understand why you don't dream all the time, and why you dream sometimes, and why you dream of certain people, certain times, and not the times you want. And how sometimes you always are in touch, but you wait for a physical confirmation. One of our Knowledge Seekers who we know very well, sent me a picture with a feather on a book, very recently. And says, this is, I know how she communicates with me every time I ask something. Something appears that it confirms for me that she's listening to me and she understands. And my answer has been, it's you who have denied yourself to see it. So she sent it to you in the dimension of physicality. Understand the physiology of the Man. Do you need to be asleep to let your Soul go? Or how come in the dimension of the time of what you call, sleep, the dream comes. Sometimes we do it during the daytime and they call it, "oh, he's a daydreaming." Should we change this? It's the Soul working,

(1:24). and not a daydreaming. It's not a dream, it's the reality of the time and the space, where the physical condition of the body of the Man in the magnetic field strength of the given time and position allows the opening of the second curtain. We call it, the second vision, but in fact it's the interaction of the STM with the dimension of the other Souls. We have created many names for the same action, as the Man has done for gravity, salinity, pH, and the rest of it. If you understand this, and we are to understand the process of how we can coexist and create the motion and the removal, or a movement of the eyelashes, at the same time as the time of the Soul interaction, then we understand, we live both. In the world of science, we do this when we are born. We do this till one or two years old. But the scientists have not understood, and they connect it to different chemicals in the brain of the child. If you speak or if you have observed a child,

(1:26). you see the child does not flicker their eyes so much. They don't speak, but when you speak to someone who is doing something wrong or the brain, the physical dimension is processing things, they tend to flick their eyelashes. Children, babies, infants don't do that much. And they call it. it's dopamine in the brain which causes it, because they don't understand that the child and the infants, not having the language of the Man, communicates through the Soul. And for that purpose, his eyes stay open, and the Soul transparency teaches it. In many teachings I referred to how infants speak to each other, how

they understand who is higher, who is lower, who understands more. One could be Chinese, and one English, and one could be African and one could be South Americans. You put these children of the same age, of 8 months, 10 months, 6 months, in one room, 2 days in one room, and you see, they interact, they communicate, they know, because they do that through the Soul. And the doctor says, "children don't flick their eyes so much, infants, because dopamine, something else, has not been created in the brain fully." Is that actually what is blocking the Man to see, to allow the STM to extend beyond the physicality?

(1:28). Have we known the cause of our imprisonment of our Soul with the chemicals created by the dimension of physicality, and we never understood how it works? Does that level changes when we sleep? Or does that level changes when we have fears? Or when we are in love to see. We sit in the office in the back of the chair and our heart and our love fields smells the lover across the world. Then we know the way, how to pass, to go through the second curtain, what I call, through the dimension of the STP, that the STM is ???. When the two levels are equal, there is no interaction, and one can pass through the other. When the STP does not lie to the STM, there is no interaction, there is openness. Think good. The first rule of Mitra. Because when you think good, then you can talk good, and you can act good (in Persian language). Perfection. Then you see, the Universe is open to the Man, and Man has been the Man of the Universe, from the second

of establishment and the existence of his Soul. Man has denied that with the eyelashes of the physicality. You've been the passengers of the Universe from the time of inception.

(1:30). But you chose the dimension of physicality, and the eyelashes, and the nations, and the planet, to be your prison, to be the prisoner of your physicality. In Arabic, they have a beautiful say.

But it needs changing in one sentence. Every time they pray 17 times a day. And he said,

<< Arabic Language >>. I swear by Almighty, that Muhammad is a Messenger of God. Change the Muhammad to your Soul. Then you are the Messenger of your own Soul, and no one else. And the structure of the ?? Assam is complete. It's the hundredth word, which is what ?? ?? was promised, one day will be understood. This is the attribute of existence. And then you understand the completion of the cycle of Man,

(1:32). as he has been part of Universal Community, but he denied it ?? with his physicality. In a way, the STM should have taken the Man in a physical dimension and shown him the Universe. In a way, as you punish me and you keep me the same, when I'm free I'm not taking you with me. You can dream of it. With the teachings of today and in the past years, now you bring the two together. And you understand the elevation of the STM by Man himself. As he does not need no ??, no messengers. As one is the messenger of the other, no one lies to the other. As the STP cannot lie to the STM, as both use the same strength of the fields of the Universe within

them. We go for a break, we come back. And during the break time, try to see if you can raise the second (curtain). The barrier you created for yourself, and no one else. And you're the only one who can open that second curtain, which is the clarity between the STM and the STP. Then you will see both dimensions. We go for a break. We come back. and we'll see how we can understand more. Thank you very much Rick, if you can take us to a break.

(1:34). << BREAK >>> 488 KSW June 1 2023

Part II: Q&A

(1:37). K- Yes, yes we are ready to go.

Q: .. My daughter had her wisdom tooth extracted and it is in perfect state. My question is, can I make Gans from this wisdom tooth of my daughter with the purpose of making Gans patches to help other people that have problems in their teeth, such as loss of tooth enamel, bone loss, etc?

K- How do you answer this?

(1:38). No, but yes. In a way you can, but, as we understand. I'll put it this way, I hope your daughter has a nice Soul, and a nice STP, that by the creation of this Gans, the best parts goes to those who receive it. If I can explain it that way. This is part of ... You know, in certain cultures and certain ways of thinking, they don't allow any pieces of your body to be taken by any way, shape or form. As they think, oh, they can do something

with it, and manipulate it or whatever. And, there should be no reason, why not? But, there should be every reason, why? And, this is what we face many, many times, especially in past recent time, with our doctors, which people come to them with very complicated emotional conditions. Where, I was present in one of these conversations and, our doctors in the background, they know what I'm talking about, they were there. Where the brother wants to give life back to another brother who's been in coma for a long time. But he went into coma when he was very, very young, very young age.

(1:40). And now he's in double figure, past long time. And I put to them one moral question. I said, "you want the brother back." The technology of the Keshe Foundation can give that position. But the morality, the moral question for you to ask is, would a child who's been in less than a handful of years when he went to coma, and now is in twenties, thirties, or whatever, would not come to blame himself why. And then later on, coming out of coma, seeing the evolution and where he should have been, maybe, whatever, he'll commit suicide, because he cannot take the change. He cannot cope with what is in front of him. And do we have that right to create that condition? With the new technology, with the new power in the hand of the doctors, with the hand of the Knowledge Seekers, who truly know, and understand how to use the knowledge. The question of morality comes first, which means the position of the Soul. In the matter language we call it, morality. In the dimension of

the Soul we call it, the responsibility of the Soul. We are responsible for that Soul. And, if we bring that position, if you put somebody who went in coma in the age of 20, 30, and you want to bring them out of coma in 40 or 50, they have experience, they know how to handle life. But, how do you give life, which you know you have the knowledge, back to a physical condition, which is in maturity of 20, 30 years old. (1:42). When he went into coma, when he was less than a handful of years, and how will cope with the surrounding, with the life, and the blames, why me, what happened, and I'm not there. He is a man, a mature man, everybody else that he's seen has children, and he's there with the mentality of five years old. Not being able to cope, will bring them to different problems. Now we have the knowledge to bring the physicality back. What is the responsibility of our doctors? What is the morality? What is the science of the new knowledge? Do we elevate them through the Soul, that the Soul brings in that knowledge? Or, we can bring them to understand, the lack of time in between, or lapse of time in between, has no meaning. Because, this has a question mark on this planet, for us, in the physical dimension. But it brings us to another position. When we are young STM, and we land on the planet Zeus, with the maturity of morality of understanding of the knowledge of much higher. Are we that infant? And when we land in another place where we see them like nomads and we know about the jet technology and the computers, do we see

ourselves higher? And how do we interact with the Soul of these creatures? It's not us anymore, it's understanding the responsibility of the STM and the STP of the man. And what physicality will manifest that fits the time, place and position.

(1:44). When you use a tooth of a teenager, should it be kept for the teenager in the future, if she needs. As it carries the characteristics and part of the Soul of that person. It's very interesting, when you speak about the STP, and you speak about the wisdom tooth, and you speak about dimension of physicality. What is the position of your wisdom tooth? Isn't it the closest to your Soul, the wisdom of understanding? Is there a wisdom in what we call it, the wisdom tooth? And, would we carry the characteristics of that wisdom, when we make a Gans and you want to use it on the others? It's a, what I call, with the new knowledge we didn't have this problem till you put the question on the table. But, it's not a problem, is understanding the situation. Understanding that it's not just a tooth anymore, because that tooth, and the word of Bahá'u'lláh, bless his name, is a physical dimension, is a matter state and he has a Soul. And that Soul is created through the interaction of the STP, and the Soul of the person together. We do heart transplantation, we do liver transplant. Now with Gans's, do we do a Soul transplant? Now you understand.

(1:46). This is why in the Keshe Foundation development stage, we have moved away from the Soul, from physical materials, into the dimension of the fields. Then, we are open, we are not

connected. This is what I tell you, you don't even have 5% of the knowledge of the where the Keshe Foundation development is. Because we cannot explain to you, we understand this, we understood this, and we are in the level of interaction of the... This is what I keep on telling you, don't look at the MaGravs, you're just looking after 20% saving, but you miss the 100% which is sitting there for elevation of your Soul. You breathe the air to take the energy from it to elevate your Soul. You eat the food to take energy from it. With them your body of the Man, the physical dimension, muscle, is connected with copper. We made the MaGravs from the copper, which fastens the elevation of the STP, to elevate the STM. And you're still looking for that 20% waste of time energy of physicality. The structure of the copper comes from the Soul of the Earth, Soul of the Universe. And you're still looking for that 20%, 30% energy saving, where you have denied your Soul from the opening to the Universe. You feed yourself with the matter state, (1:48). I gave you the resources, the basis to get that energy for your Soul, and you're still after that winding, left and right. Maybe you understand. You know, you give the most beautiful toy to a child, and it still plays with the box. And the MaGrav systems for you is that box. You haven't understood how to play with the toy. With the new knowledge, as Knowledge Seekers, you have to learn to look at the broader spectrum, the Totality, and not to fit the physicality. And, you do the heart transplant, and people say, people's character changes, because the Soul of the one which

created the other, in the heart which is transplanted, is moved with it, it's not far from reality. Then do you have the right to put that wisdom tooth to the others, and transplant part of the Soul with it? We are allowed, we are freely allowed to do so. But, are those who receiving it, are free there to receive it? And is the Soul of that tooth, whatever, has reached the point of maturity or servitude? Or is it still in the abusive mode? Now you understand. As I said, we go to new phases of teaching. And these are the facts you have to face, from now on.

(1:50). I didn't know, does not count. Because the knowledge is released and you know, it counts. You are responsible for it. Any other question?

Q: .. Good morning Mr. Keshe. You mentioned that Jesus learned about transmutation shortly before the crucifixion. It is reported in the Bible that shortly before, more precisely 40 days before his crucifixion, he was with some apostles on a mountain and the episode of the transfiguration occurred, where Jesus was enveloped in a very strong light and Moses and the Prophet Elijah appeared at his side and they talked in front of the apostles. My question is, would Jesus encounter with the Souls of Moses and the Prophet Elijah have been the moment when transmutation was taught to him? If so, would the apostles have understood anything?

K- They can write whatever they like. It is... many of us, in the dimension of understanding the Totality, only receive the knowledge,

(1:52). at the point of need, and not before. Because then we affect the course of action. Or we premeditate not to be. If this was true, if this was correct, Jesus would not, never allowed himself to get to the cross. He would have mended his ways to be able to teach ?? man. But he had a purpose, there was a purpose for him to be put on the cross, because of whatever. But in a way the knowledge comes at a point of understanding and a need. And we hear a lot, in the past few years especially, I've come to understand more about how different sects of Christianity interpret the same thing to fit them for certain people to be the leaders of that sect. But in fact, the bottom line of it is there is no truth in any of it. It's just how they interpret it to suit them, to call themselves, Catholic Church, Orthodox Church, the Armenians, the Church of, God knows, Russia and the rest of it. If the basis is one, why does it need to be interpreted? But don't forget, Christ said himself, "my work will be carried by 72 ships." Which means he knew that his teachings will find 72 different ways of interpretation.

(1:54). Don't forget, the Bible we read was put together 300 years later. So anybody can put anything to fit anybody to show it does. The only, the only message which is written by the man himself, is Bahá'u'lláh's, bless is name.

Muhammad was written from ?? Hadith 40 years later. Nothing we know about the truth how long later Moses what you call, the Torah was written a thousand years later, 800 years later. And you can imagine how many stories changes to be fit what.

And, this time of teaching, you hear, you're part of that process of the evolution and interaction. You hear the voice, and there's no interpretation to the voice. Now you have to understand, this is what I said. If you read the book 1, 2 and 3, what you read as a second version, second edition, is very far from the first edition which I wrote. This was edited by somebody who was trying to translate the knowledge, the way they understood. We had a big battle with this lady. We don't want you to write what you understand, just translate. If you can get hold of the first edition, which is not, it's got a lot of English mistakes here and there, (1:56). you get the true essence of the knowledge we passed on. Which you don't get so much, in such a strength in the second edition. We don't published the first edition anymore. Very few number of people have the first edition. I think about a thousand were booked, printed. Then you get the true essence of the knowledge. As was with the MaGravs, right turn, left turn, it's not this, that twisted the other way. The lady wanted to change the word to fit English, because the look was written with one ??, or when it was written, because it was to be published past, in ??, and now "it's looked," has become sight. Now you understand the difference. The same is with, we don't understand, it does not exist. So, 40 days after, 40 days before, resurrection, disappearing, and everything else has mutated to, as many versions depends which path of the 72 ships you sit on. The worst one, the worst of the whole lot, is the Catholic Church. Because it's nothing but lies,

it's nothing but what is changed to suit, the way it was built to suit them. If you go back to the Armenians and the original orthodox groups, you find more, less of dilution and change. The worst Bible which is diluted, (1:58). which is changed to fit the Emperor and the servants of the Emperor in the dimension of the Soul, is what we call, the present Bible, which in Catholic Church promotes so much. Any other question?

Q: .. Good morning Mr. Keshe and all seekers of knowledge. When the "second curtain" of reality opens, could you guide us on the emotion of reality?" Thanks for the guidance.

K- No, that's your job. Otherwise, we'll become another Messengers. You have to, to befit the life of Mitra. You have to befit the understanding of the "three rules," as it says in the Bible. The three kings, the gift from the three kings. That's the king which means the "crown of the work of the Creator," nothing else. Not king as a physicality king, king as the rule, king as the principle. If you understand that, you'll find out, you become very wise very rapidly.

(2:00). You will see through many, many things. But don't fool yourself, "Now I see, I know and then I become." The more you see, the more humble you have to become. And the point of arrogance is the point of receiving. And understand one thing, that your job is not talk to elevate anymore. Your job is to give to the Soul to elevate itself, that it talks itself. This is why, if you understand now, why we keep on telling you, "we

elevate the Soul of the world leaders, we elevate the Soul of the children, we elevate the Soul of the religious leaders." Because we let them speak the word, because we elevated the Soul. When you speak by word, you need time to see the president, and you'll never get that time. But you can reach his Soul instantaneously, if you are sincere to raise it, not to take from it, or try to dictate to it. We, as I said, spoke about that you'll see the colonization of the Moon and everything else. And within a week or two now, we see in the Chinese press, that the government has announced what we said very recently. Do we have somebody who leaks the information from inside? Or are we part of the information? Cannot be coincidental. There are too many coincidences in the work of the Keshe Foundation and International work.

(2:02). If you read, as we have received from our, what we call, Chinese community, this is the announcement by the Chinese government in the past few days, as it has been in the Press, which reads very easy. It says, at the press conference of the Xinjiang, 16 man mission held on May 29th, Lin Zheng revealed that recently, the Lunar landing in the ?? of Chinese ?? man Lunar exploration project, has been launched. And the overall goal, is to achieve the first landing on the Moon by Chinese by 2030. Carry out lunar scientific investigation and related technical expertise. Break through the mastery of the key technology, such as Man, Earth, Moon round trip, short-term residence on the lunar surface, and human machines joint exploration. Complete

multiple tasks, such as landing, ??, mining, research and return. And, as I said to our Chinese friends, we'll have the champagne ready for them when they arrive. Don't forget, (2:04). Chinese are working on the land moon base colonization in 2030. NASA is working on 2030 Mars landing, human life. And the head of this section of the, what we call, NASA organization, is a Knowledge Seeker. And he is a listener to these teachings, and most probably he'll say, "Keshe, you are not supposed to tell that." But he is, he's one of, he supported us heavily with it. But, NASA has put a banned communication between us and them, but not the Chinese. And this comes to the back of elevating the knowledge, giving the knowledge. And it's just not coincidental, that as I said, in the ... Now you understand the work of the Foundation. Now you understand the work of your own Soul. There are no coincidences. There are no coincidences. Very soon, in a very, very short time, you will see Iranian nuclear physicists in the Universities of United States teaching directly from Tehran. Because the American nuclear physicists, American Space Technologies, are in the first class, still sitting, waiting for the bell to ring to start learning. Compared to what it is within the Chinese and the Iranian Space and nuclear technology. And then we understand, then we understand we are all equal, because we teach through the Soul.

(2:06). We teach through the understanding of it. And this is important for all of us to understand. Don't look at, "oh, such and such .. Keshe said

such a thing, and now a few weeks later, a few days later, it appears." This is how it works. This is how it's supposed to work. We elevate the Soul of the scientists of the nation, not one scientist anymore. And this is part of the understanding of the man, new dimension of life, which we ignored. And just because some of us have access to it, does not make us special. We are just aware of it. And we thank we are aware of it. We're thankful in the knowledge and the beauty we are given. And this is why we called you to join us in the past few months, in meeting with the world leaders and the rest. Now you understand how it works. Maybe you understand how it works. The elevation doesn't come by you deciding, the elevation comes by you sincerely, letting your wish to be there, to achieve. Any other question?

K- .. Let me explain, this is totally... There is a point has written in the Iranian government, with the Iranian leadership and Iranian administration, in respect to Keshe Foundation, and our work with other nations. Keshe Foundation and its management, and as me as head of the Keshe Foundation,

(2:08). we stay loyal to the Iranian nation. And we serve the other nations equal. We'll never betray Iran. This is the problem you have in your leadership, and in the work of the Ayatollah Khomeini of Iran, in respect to the part, Keshe Foundation, and Mehran Tavakoli Keshe. It's your problem, and not ours. We make this clear, in respect to the meetings to take place in the coming days, that we stay correct and we'll never sell out

Iran. As we know we shall not sell any other nation, unless we behave and work the same, on equal basis, irrespective of nation, color or race. My word goes directly to Ayatollah Khomeini of Iran, in the process of past 48 hours and the meeting to you. Iran stays the same. In respect to the Keshe Foundation and our work, does not matter what arrangement and agreements we sign with the other nations, to see the development of the technology. My call goes to the Ayatollah Khomeini of Iran and his messengers, and the work of Iranian administration. We stay solid in supporting Iran in the Space and Defense, and we'll not break rank. Thank you very much. Any other question?

(2:10). Q: .. In terms of the traveling, what's the portion of the world population does Keshe Foundation foresee to take the physical transportation, as opposed to the energy transmutation in the future?

K- It'll be a mixture, it's the decision of each man. Physicality has some beauties, traveling with the Soul has beauties. It does not mean that you don't see things when you travel in the dimension of the Soul. You... there is awareness and there is confirmation of existence. It's the beauty of interaction without ?? painted works of physicality. Even though the dimension of Soul has it's own problems, it's not problem free. If you think, "I travel, I interact with dimension of the Soul, that's it." Both have their own beauties and their own, what you call, problems. Or interface, interaction, understanding, whatever you want to

call it. But it'll be choice of the man, and we do both. But the beauty of it is, as the STM opens up, and the knowledge opens up, now that we start teaching to the other races in the Universe, would we be happy to choose to only to travel physically on the dimension of the Earth, or we travel to position and then we change position from the Soul to physical dimension travel, or observation? (2:12). The interesting part will come for many of the travelers of the Universe is, what energies do you absorb to elevate your Soul, in, the span of the Universe? On Earth we eat, we breathe, we give love. How do we do that in space? That's another chapter of teaching. Are we fast travelers in dimension of the Soul? Or do we take position, just because we know we can travel fast? These are a lot of things, which we have to answer. We have no confirmation and no understanding of it. Unless we comprehend the Totality of both dimensions. Any other question?

Q: .. My wife is over 60 years young, with the physical union of our physical Souls, my wife's face is rejuvenated to the age under 20. The skin is smooth and beautiful. Why? What is happening?"

Thank you for the answer.

(2:14). K- First of all, what have you done? Or is it just to the eye of the beholder? This... the physicality, the dimension of physicality, is irrelevant how you look. I mean, it's nice to have a 60 year old, 20 year old wife, but won't that become a problem for a 60 year old man, to have a 20 year old wife looking but 60. And, as I said, when we expand the dimension of the Soul, the

physical manifestation become irrelevant. Maybe, maybe, when the physicality was age of 20, was when the Soul was at peace and happy and in balance. Maybe that's what's been achieved. You see aging as matter of time, we see aging as a matter of maturity of Soul. But, in so many ways, if you understand this work and I've referred to it before, we've seen that years ago in the clinical trials, when we did, how women of 70, 80 went back to having the reverse of the menopause. Because it wasn't just a physical outside, inside the body goes for assurance of that I can reproduce and give life. Because my life is extended. People like... there is a... I think it's a chart somewhere, if you can get hold of it on the Internet, you can find it.

(2:16). Nowadays they define, if you are born in what decades and how long you live. Children born in early 2000, expected to live between 150 to 200 years. That's average, not everybody lives that life. Children born in twenty twenties, expected to live in 200 to 500 years physical life. People born in sixties and seventies, seen average of about 80, 90 years, 100 years. But with the new addition of the energy releases and the new knowledge of you can absorb energy, would that figures of 50, 100 or 500 years matter anymore? It's a rotation of Sun and rotation of Earth around the Sun. Where in the dimension of the Soul you're connected to rotation of the Universe, dimension of interaction of the fields of the Universe. Would some of you live a million years in the physical time of the Earth? Would some of you born now,

understanding the transformation and transposition in the dimension of the energies of the Universe, will live beyond when the Solar System is already demised, through its physical dimension interaction. It's quite possible. Not just because the mother dies, the child has died too. We cannot. And these are part of the realities which we'll face, we have to face.

(2:18). And with a new knowledge, is open to us. Do you still want to live 60 years, work hard, and then at 60, 65, said you're on a pension, and you got to live on few bits, just enough to a meager life, till that point of separation of life comes, you call it death, from the ?? you became a pensioner. Or, you tap into the elevation of the Soul of the Universe, and age of 65 on Earth getting a pension is a joke. Because, whatever you need, you receive through your Soul. And, you might live 500 years. You can imagine the French government will pull his hair out, because they increased the pension by 2 years, and we saw all the riots in France. Now, try to increase the pension to 500 years, and then you see what happens. There'll be no French government left, let alone the citizens. So, it comes to the maturity of time. We see a lot of changes, we see a lot of things with the new knowledge will change. Be it physical, be it dimension of the Soul, be it traveling. And as Knowledge Seekers, you are already wise to it. You know what is to come, because you are the doer, it's not us. It doesn't say, "watch the space on Keshe Foundation teaching." We watch how you manage to get to the space, in your time, that you can teach us. That's why it's

called, Knowledge Seekers. And if you have found a way to change your wife from 60 to 20, (2:20). I'm sure there are plenty of ?? like Azar and the rest, who would like to know the recipe. They still like to stay as members of Universal Council, because the age does not count in the dimension of physicality. Any other question? I'll tell you something interesting as part of the history of the Keshe Foundation, regarding this age business. As you know, once you become 60, before 61, you... if you are a member of the Universal Council, you have to resign to give a space for a new cycle to start, a new life, a new, what we call, process of elevation of the Soul with a younger Soul. And, when we brought this in, one of the members of the Universal Council, who thought it's the right to be there forever, raised a huge objection, "you wanted to get rid of me. That's why you brought this in." Not understanding the work of the elevation of the Soul. And then becoming the dictator, because I've been there first. I've been there because I have to. And as you know, she's not with us anymore. And this become, God given right, because I was there and I'm 60 and 200, I still stay member of the Universal Council. In the future I explain why we put this in, and you understand the reason. Even though your Soul can travel the span of the Universe for thousands of years. If you are a Universal member, on this planet, (2:22). 60 is your limit, in the physical dimension of the STM. And then you understand why, in the teachings to come. So, you can look, 20, but by

birth, on the physical dimension, 60, is fantastic. I'm sure, they would like to know the cream mixture. Any other question?

Q: .. Mr. Keshe, the purpose that Jesus went willingly to the cross, would this be to demonstrate the different levels of awareness, and to demonstrate the renunciation of the physical body?

K- It was done in two ways, but it was interpreted in a way that people would like to change it, that it suits them. He knew his wrong. He knew of his shortcoming. It wasn't hidden. Just go through the real life of Jesus, through the original Jewish historical, historical books and literature. Not what you read in the Catholics and Christians. History cannot be changed, because it's history, it's myth. And historians, Jewish historians have written about the life,

(2:24). lifestyle of Christ, there and then. It's not written 200 years later, or 300 years later, with whatever they wanted. Jesus lived a very flamboyant, beautiful, young man, and he knew what is going to come. He knew, he was told by 2 or 3 of his women companions, what their husbands were planning for him. He could have escaped. He could have left and gone somewhere else. He decided to stay because he... There's few reasons for it. One is that he thought he's untouchable. It would not happen, because the women loved him too much, they do something, but actually the pride of the man took over everything else. But on the other hand, he knew, and he knew what is, what will be the outcome. They gave him the option to leave Palestine. And

he took that option when he resurrected. And he went all the way to Spain. So, it wasn't unknown to him, and he knew he'll be put on the cross. It wasn't something decided overnight. He was aware through the lovers of what their husbands were negotiating with the Romans. Go through the true history of Jesus and his time in Jerusalem and in Palestine.

(2:26). And then you understand. Then there is no prejudice. Then it's not just because you read what's in the Bible. You read what is written as a history at that time. Because it's not tampered with. It's written by the Jewish historians. And he chose, I mean, he didn't have a choice. He never thought they'd put him on the cross, because, he wasn't the only one. They say, if you would have gone from Rome to Jerusalem, in those days, on the road where the Romans used to come and go, there was a lot of these crosses with bodies hanging off it. That was a way to do things, by the Romans. So, it wasn't the first time ever they made a cross just for him. It was like a lampposts of those days. Telling people, "don't do anything against Rome." So, he knew what is going to be. He knew they're going to put him exactly where they put the others who went against anybody who paid. If you paid any of the Roman generals or Roman military leaders, they would have put your mother on the cross, forget about Christ. You wanted to get rid of your mother-in-law, you pay the Romans for whatever, they put her on the cross and they accused of her of anything she was, or she wasn't. So, cross wasn't something just for

Jesus, it was a normal way of punishment by the Romans. And it's well known, if you read the Jewish historical papers, books, it was done years before Christ, and it was done years after Christ. And many of the crosses, when the body fell off, whatever, were used for the next victim. (2:28). So, it's made very elaborate. But in fact it was a normal way. And usually the people who, they carry their own cross where they put it on. So, what we hear, made so much glorious or whatever. It was a normal "bread and butter" of the time for the Romans. As they always say, "potholes and crosses" came together because they used the pothole to eat till the body fell. If you know what a pothole is, the Romans used chariots, and chariots made holes on the road. And so they put, where there was a big hole, they put a piece of steel to cover the hole that the chariots can go fast. And as they went, they made the shape of the hole (which was also the shape of a pot to cook with). And the Romans and the others pick it up and use it as a pot to cook it. So it became, as we know, the "pothole," because they made the pots for the cooking. So it's potholes and the process came the same together. And Jesus knew his destiny with what he was doing. When you mess around with other women, men's wives, there's consequences. But when you play with too many, there are too many consequences. Read the Jewish historical books, or if you can get hold of, time of Christ. Then you see the two different interpretation, one is the reality of time written, and one is what is polished to become. And then you see he chose, he

knew, and because he knew he had, what you call, like, dimension of what we call, (2:30). transmutation through the Soul. He knew what he can do, and when he received the knowledge, he did what it was to be done. He did what you are doing now, what we call, transportation and transmutation. He transported his own cross, when he came to it, he transmuted off the cross. And then, back into dimension of physicality. And then the same thing as I told you before. When you go to the Moon or when you land from New York in Tehran and you want to look like Iranian, in New York you were blonde blue, and then you look Iranian, nobody knows you're American, this is reality of the science, so now we understand the work of the Soul and the STP, and many of you will do it in the coming time, but no one can take the Soul away from it. And then, you see it. He had that opportunity and he changed his look that the Romans wouldn't recognize him. And he left with his daughter and his wife. But that part cannot be spoken to, but then you read the people who do "the walk" in Northern Spain, South of France. That's the path of Jesus as a man. And he never spoke about his past. What you call transmutation, what you call transmutation. And in a way Jesus is not the only one. Many men can do this and they've done in the time of life.

(2:32). At a point of, when you reduce the energy field of the STP, and the STM is still active through the circulation of the fields of the body of the Man, the transmuted Soul becomes prevalent,

and it takes over the physicality. And you can still be seen as a man, but the Soul is ?? not. We've seen that in the trials, what you call it, in the units (EU) in Austria, in the trials. Many of you went through this process, where Jesus went. And you chose to become a mermaid, if you heard a girl, half man, half fish. Many of you chose other things, many of you chose to see the Soul of the Christ or feel his presence. Now it's the reality, now we understand as a science. Where, then it was a mystery, because teachers like us, as Universal teachers, our job is to teach the truth, the knowledge. Then it's for Man to manipulate it, or creatures of the Universe, to manipulate it, to advance the elevation of their Soul. The whole purpose of the teaching, all these teachings to you and in the dimension of the Soul, to the other races of the Universe, is how you can facilitate faster to reach to the level of meeting, coming in touch with the "Soul of the Creator." Nothing else. There is no other purpose to this, because the love of the Creator, what's like to see, that it comes back to, is loved by. We are in a way, "love teachers," but for the Creator. (2:34). But, for those who doesn't know how to, is the way is, we know the recipe. And it doesn't come by heaven or hell, it comes by understanding of the interaction of the fields. Go back to the teaching of last week, how I explained to you, you decide the dimension and direction of the travel, the way we do it in the physical life, the way we do it as a physical changing direction in running of the man, and chasing a man himself, he decides

suddenly to turn, through the emotion or through the Soul. In the STP, if you understand the dimension of reaching the level of STP, which brings you to the Creator, and that's our job, nothing else. Then you understand. That's why I say, there are no, no, no, no, no, no whatever you call it, the name of. Whatever suits you, does not count. What is the reality counts. And you put any name, any shape, any position you like. Some of us reaches it, and some of us reaches at a given point, and some of us understand it and use it. And like others, they say, "oh, I've been doing it." So, carry on doing it, it's good, at least you found elevation. So, you have to be mature to understand what the teaching is about. It's not just about MaGrav.

(2:36). We bring you in a way to understand how to elevate your STP, and then through it, understand how it works. That you can reach that point of maturity to reach your Creator. That's all. But, you don't need Messengers and you don't need Prophets. Any other question?

Q: Dean .. Mr. Keshe, you've mentioned many things this morning. Thank you. One of the things I'd like to, for you to enhance, if possible, is, you say that we've only, in the public, we've received 5% of the knowledge, of the Foundation. And so, the real knowledge, is this all being given to others in the background, or is this in general, is this a Universal thing? How do you mean by this?

K- We have a research development side, and we have a public knowledge side. Research and development is hundreds of years ahead of the

public knowledge. And we have shown the power of this to some of the world leaders in the recent past. We are not just sitting there like pretty faces. We teach the Knowledge Seekers who understand, convert it into a language of the Man, science of the Man. And then we deliver it to the world leaders, to bring that change.

(2:38). And the knowledge in the hand of our Knowledge Seekers at the top, is hundreds of years ahead of what you see in public as a Keshe Foundation knowledge. But, the world leaders understand the changes it brings.

Q: Sorry to interrupt you. What was their reaction to this when you've shown them the knowledge?

K- It is not a reaction. They... The world leaders have sided by (with) the Keshe Foundation, without a doubt. It's their job to come out, not for us. But as I said, we, when we were in China before the Corona situation, we had a gentleman, other gentleman in our offices, who came out of nowhere because of the situation we understood, and on a dinner table if I remember correctly, Wang Lin was present in that meeting. He said that when the world leaders meet, Keshe Foundation is discussed. He said, I've been there when it's discussed. We are not the flavor of today. (They) are aware that the knowledge is there, and how we are teaching it. And it's for the benefit of their citizens, and their, what you call it, their structure. You've got to understand, we teach every Thursday. And as you know my teachings by now after nearly 500 sessions, there is no barriers to hold me back. Be it praising governments, world

leaders, or literally, outright explaining and stating where we stand and where we are. As you heard a few minutes ago in that respect, (2:40). the interaction with the Iranian government, his Eminency Ayatollah Khamenei of Iran, in interaction with the Keshe Foundation in the past few days and to come. We never hold back. But, would they know the knowledge is needed to be, because their scientists listen to it, their people listen to it, and they bring the change. And the Keshe Foundation, except one section, I think it's China or part of it, has never been banned, with all the red flags and the "firewalls" they put on. They allow us to teach, it's the same with Iran, it's the same with other countries. Because they know the knowledge is so correct, they know, but, when would the... In a way, if you look at it, they say, "okay, let him teach, let him take all the fire and the blame, and we take the benefits of it when it comes." We were in a meeting, very recently, and officials, government top officials from the government, they brought with them scientists, who they thought, they are the top, not that they know it's the top scientists, the government doesn't bring any scientists off the street, they brought their top scientists to, into a discussion. And, the minute one of the top scientists walked out of the lift (elevator), he said, "hello Mr. Keshe", and I couldn't recognize him, because of whatever, but our Knowledge Seeker recognized us, we met him there, and he was a Knowledge Seeker. And the officials were taken back, that how such a scientist at this level knows

and everything. And they didn't need to go into any more details of, because one of the top scientists they brought is already is a Knowledge Seeker. We didn't have to discuss anything. It was just to listen what they missed.

(2:42). And, it's the same structure, with other world leaders, other conditions. They leave us, as the Keshe Foundation, to teach you lot as Knowledge Seekers, for them to benefit from it, when it comes to it, but let him take the fire. We are aware of this for years. And so, it's not how their reaction is, they already reacted over years, by letting us be able to touch, to teach, and you don't see us being banned. No organization has taught like this, right across the nations, from the Communists, to non-Communists, to Kingship, to Presidency, to Democracy, freely. How many of you are from how many nations on the line today? From 100, 200 different nations and territories, from every corner of this planet, and every Thursday, you know it's there, and you come to it. It's the job of your governments, to come up with what they have done, or what they are doing with the knowledge they receive. We don't look at their reaction. The reaction speaks with what you are here, We channel, we teach from sunrise to sunset, from China to Los Angeles. From Shanghai to Los Angeles, going around the Earth. Some of you are from Shanghai, some of you are from Los Angeles on the line. Some of you from Europe, from Iran, and every other nation in between. And nobody has stopped you listening to the teaching. As I said, we were in a meeting recently, with one of

the most influential man, in one of the biggest countries in the world, he said, the scientist said, (2:44). "we know, and Newton know on this and that, this goes against it." He said, "now we write a new book of science, let them come to us. This is what it is, and we take the knowledge from now on." So, the world leaders have made their decisions where we going ?? We don't look for reaction, the reaction speaks for past 10 years of me being able to teach every Thursday.

Q: Mr. Keshe is it the same when you speak with the religious leaders? Theology? Do you get a different response totally? Or is it the scientists from the Theology? Is it a mix?

K- Ah! We had both, we get all of them. We... I have no limitation, there is no boundaries with it. Some of the Knowledge Seekers are here, when we sat with the Vatican people. And some of the Knowledge Seekers are here, when we talked to the most religious, religious people, who are in high positions today in the Iranian government, as Mullahs and Ayatollahs. I had a reference sent to me by our people in Tehran. This guy who is now the head of this, this, the highest rank in Iran is in the news everywhere. He said, Mr. Keshe, you already spoken to him two or three times. He knows you. And now he's become to this position. He follows us. He knows our position and stand. We talk to the people who are in power, and ?? who come into power. One of our Knowledge Seekers is a very, very close, top advisors to one of the world leaders who's just been re-elected. And he works through us to the world leader.

(2:46). One of the recently re-elected world presidents, his literally closest advisor is a Knowledge Seeker. We meet frequently, regularly with each other. And he takes the knowledge across to the government. Then the ?? patent, it has to work for them. So we don't look, we don't see. We are in the roots of it. We are in... we taught so much freely that we have touched the Soul of many. So, it's not that Knowledge Seekers, but they're regularly, every week, they learn about it, they use it. And that's all it counts to me, that positive change. Doesn't matter how and where.

Q: That seems to be the beauty of what you've been teaching, Mr. Keshe, is that understanding that it's from any Soul, are all equal, and higher, and lower. And that is the real beauty. That when you touch the Soul, it is a different, different field strength totally.

And it makes people humble. And that is the real beauty of it. That really is quite special.

K- The reality is you Knowledge Seekers, who carry it. I come from a very typical, unique family structure. And my mother always told me, no one should know who you are when you walk out of the house. Where your bloodline comes from and who you're connected to is in your head and not on your clothes and in your mouth. And she lived that way, and we all, we live that way.

(2:48). And three, four years ago when I was in Italy, one of my own close members of my family, at a dining table, very close, extremely close to me, she said, "you are not from there, how come we don't know?" I said, "you don't know a lot who

we are." The Keshe Foundation is not me, is all of us. And we all behave the same, we teach freely, we do our best to share the knowledge, and when it becomes, as a guy said on the CNN, I believe it, when it comes to CNN, you all will say, "oh, we are there." But, it needs its time. Even today, we have been working since 4 or 5 o'clock in the morning. We receive so much support and people who are not even Knowledge Seekers, but they want to see this technology, on... to bring the change. And they're working on it, we... we just... not battle, we just work, continuously, 20, 22 hours a day, sometimes, to make sure it happens. In past 3 months, I've lived more out of suitcase, than actually being home. But you all received the teaching without knowing where we are. Sometimes we change the teaching time, because there are important meetings with officials, governments and other things that cannot be changed. So, it's better to change the Knowledge Seeker teaching, than trying to move there at another time. I literally, three, past three months, four months, lived out of the suitcase. And even just landed last night home, just for a few hours. (2:50). And we are again up in the next few days. I have found peace in my private life. And that has allowed me to bring Keshe Foundation, in the past 3, 4 years, to where it is. What I was looking for life, all my life, I have received and I'm thankful for it. And it allows me to serve fully. And there's nobody to destroy it from underneath, continuously. So, it's you as Knowledge Seekers and us to set the course for their next step, that is

bringing such a beauty in world leaders decision, and in economical ?? situation, and everything else. Yesterday I had a call from one of our top man in Keshe Foundation, that they came to him and gave him some information, I said, it's correct, from the government. Because, they know we work correctly with, when we do with governments. You don't think if they accept or they don't. The acceptance of Keshe Foundation, really teaching and me still, openly as a, you have to understand, very, very important position. I think it's more important than anything else, sometimes I look at it. With all the sanctions on Iran, with all the 80 million Iranians suffering for nuclear technology of Iran, me as an Iranian, an Iranian passport holder,

(2:52). still travel the span of the planet, and welcomed by open arms, by all the nations. And we still in 10 years we are teaching, and nobody has stopped us, nobody has walked in, you can't teach, they haven't closed our Zoom session, they haven't closed our other session. So, we are doing something right, but let the guy take the bullet then us, let him teach, and when it works out, we'll take the credit, we don't mind. If this is the way to bring peace and knowledge, let it be. Doesn't matter who brings it and who goes on the cross. We walked away once from the cross, with the new life it won't be the first time. Any other question?

Q: Just very quickly Mr. Keshe, the picture that's on the screen, is the AI doing a good job? Is this

dome, does it sense to you, about anything that real?

K- I don't know where it comes from, these are the new imagination from Rick, and the people he worked with in the background.

R: Yeah, I just wanted a picture of aliens in or an alien background with humans as well meeting. And it's somehow generated this image and I said, "that's close enough, I'll take it." So... It makes it really easy as an artist. You just ask for what you want, and you choose from four images, if you like one of them, you can expand on it a bit, or whatever. And it's not exactly accurate or anything,

(2:54). but it gives an impression, it gives an idea, or it can inspire others to think of it, in other directions, or whatever. So, it is what it is, I'm not sure what to think of it yet.

K- Which is an alien and which one is a human?

R: Well that's the thing, some of these beings at the bottom have like three legs and tails and funny things on their arms and what not. I'm not sure, some of them look like trees and walking trees and that kind of thing. So, I guess all types of beings under the rainbow. If you think we have an identity crisis now, wait till the future.

Q: Did you think Rick that the AI is Earth based? It seems to be like the landscape of the Earth in the background.

K- No, many planets look like this, it's not just Earth. Mars has such a features, Moon has such a features. Wherever the magnetic fields and the, what you call it, the Soul of the Planet, and its STP

and in the dimension it is, moves, you see these structures. It's not unique.

R: Do they have rainbows and other planets?

K- Everything else, yes. I received a very beautiful thing, I think it's from Azar, someone recently.

Emirates airline is trying to promote tourism, and it says, "this is not such and such a country, this is this country, this is not such and such a country, this is this country." And, so we have images of, we have to get the same thing in the same places, not.

(2:56). So, it is, this image can be anywhere in the Universe.

Q: I remember you saying Mr. Keshe about there will come a time, place and position where you will have like centers or places where you will go as a human to learn how to experience another atmosphere, another dimension, another planet, you know, another field strength. .. Is this still relevant?

K- This is very relevant and very soon we invite you to these places. Maybe in next 3 to 5 years. This kind of space environment will be brought into reality and working condition within the next 3 years, 5 years. We have... the reason I tell you this is not something we dream. We have signed into it. We have signed agreements to develop such a center. It's going to cost huge amount of money, but the governments have committed themselves to it. Because we have to do it to be able to colonize. We have to see what it is and what we become of, and how it will effect us, before we commit millions, hundreds of thousands

of people into a new condition, into space. It's not if it's relevant, it's Keshe Foundation and it's management has signed themselves into a structure of such a thing. You will hear about it, it's the job of the government to announce it, but in a near future, this is a reality, (2:58). this is what we will be working on in the coming months and years, to build such a structure, not in a one room, but in a huge space, to see how people interact, how people do. And we learned a lot from the lockdowns of the Corona time. Psychological behavior of lockdowns. Or psychological behavior of a large number of people in a dome. Do we need to create jobs for them? And do we need to keep them busy? Do we allow them to live in different dimensions? The Corona has brought a lot of knowledge to the structures like Keshe Foundation, NASA, and space agencies and working on colonization. How people look, live in an open space, but they're locked down in a space. You can go shopping, but such and such time. To you, it's just something you went through, but people like us, we study this very, very thoroughly. Social behavior in a large structure in space. And we've seen how people behave. For the love of, fear of their own life, and secondly for protecting the others. We stay in, and we work from home. We don't need to go to the offices. And now we see that pattern following after the Corona. Many, many, many offices around the world are empty, because you don't need an office when you can work on your bed, and be more efficient than you going in there,

somebody paying the rent, the lights and everything else, for you to do your work. It's very, very interesting. If you understand the changes which has come in social behavior, to you is something you could just go through.

(3:00). If you go through the airports nowadays, if you go to the airports before Corona, you had so many desks, and so many people sitting in it. So, they had to go, because of the Corona there was no passengers. So, in this meantime, a lot of airports have upgraded to none, what you call it, physical body presence ... Now, before you had to go, wait in line, do the check-in, they give you a ticket, then the lady takes your suitcase, and everything else. If you go, we've been doing it for a few times, in past few months, as I said, through us in Vienna airport. You... there is... all the desks are empty. Maybe one or two people are sitting there. If there is something needed to be done, all the human workers have gone. There's a machine. You put your code in, the barcode. It gives you a ticket for your luggage. You go to where you used to see the lady to put your luggage in. You put your luggage on there. There's a machine that reads it. Take your suitcase, and you go. There is no human interaction. And if you go to a lot of airports nowadays, you have to open your suitcase, take computers out, and all that. And there is so many people standing there. If you go to like Amsterdam airport, now they brought the system. You don't open anything. You just put your luggage and everything on the belt, and it goes through. So all those mayhems

we had, now is solved. And there's less need for human interaction. Where did all these jobs go to? What do these hundreds of people sitting behind the counters, hundreds of people checking your luggage and opening, take your bag out, what happened to them? When you go to Amsterdam airport, you just put your suitcase with 10 telephones and 20 computers in it on the belt, (3:02). and it comes out to their end. If they have a question, they ask. They see everything you have inside. And it's two men. What happened to all tens of people, do this, do that, checking you in? So we see the change of social structure. We see there is no need for offices to work with. So you can actually live on the moon and work for an insurance company on Earth. That's how it's going to be. And with the new present communication system, which we have developed now, is actually used as of this week by our doctors, it's instantaneous through the Soul. So you can actually work with the computers on Earth instantaneously. The new wireless structure of Soul interactions in the physical dimension has gone into trial by our doctors in the past few days. And we'll see how effective it will become, and how it works in the next few weeks. So there is less need and need to be. And what are we going to do with all this unemployment? What happened to all those hundreds of ladies behind the counter checking you in? And there had to be three shifts of them, because the airport is open 24 hours a day. Now, it's two people, check you in, done. I think the next step, it's like when you go now to

the hotels. You had a butler and you had somebody who come and check you in, and, or if you had baggage, or something. If you walk in the, what we call, the hotels nowadays, most of the hotels, they have a, what we call, robot. There's a package for room number so and so, they just put in the robot, the robot goes, delivers and come back. (3:04). You don't need that human butler, that whatever. The tipping time of 10 dollars by the Americans is over.

Q: Mr. Keshe, can I ask you a question quickly about that? So, would it be better that, or how will it be? Will it... the teachings to be present somewhere else, will it be from other Souls that are present in that environment? Or will it be through Souls present here on planet Earth? How will that interaction work? Who would be the best teacher of this?

K- Oh, every one of us. Depends whose Soul you are, as a strength of. You know this is one of the biggest thing nobody can claim. As I said, "there is nobody king, I'm the best teacher." No, we... it depends how we teach and to what level we reach to teach. Some of us are good in making Gans's and we got stuck with it. Some of us now are in a different level. One of our biggest problem now is to put a group together of Knowledge Seekers, who can jump from where they are and they think they are the best in Knowledge Seekers in the Keshe Foundation, to where we really are in research. Some of my present problem is, how do I bring somebody from the first class to the sixth class? And would they understand it? The

development and knowledge gap in Keshe Foundation is so huge, what is in public and what is in research and development and understanding of it, that at the moment is one of my biggest headaches. Very few people understand very few parts. And at the same time, we try to guide, to put the other things together.

(3:06). We try to train the others to come in. We've got no Knowledge Seekers, but working with the Knowledge Seekers who start understanding the structure, in three different countries, four different countries, working at the same time. And trying to bring all this, and bring in Knowledge Seekers who thought, "oh, I'm making Gans's, and I did this and I put some patches there." And when you come to see what reality the knowledge and the development physically is in the Keshe Foundation, what would they think? Would they back off, or would they jump, or they think suddenly they are God? Or would they be holding like the others till we are ready to mass teach? One of the biggest problem to jump to the next level, what we see in next few years, is, as I said to the officials in past few weeks, is to teach the Keshe Foundation technology in mass media on televisions, physically for people to go through it. And then, which of you Knowledge Seekers, who are stuck with Gans's and the others, will jump to energy, will jump to magnetic field transfer? This is one of the biggest problem. Our problem is not technological development, our problem is, how many Knowledge Seekers we can take across this threshold of advancement, which is kept in 3 or 4

groups around the world, and the present Knowledge Seekers who think they know everything and they can teach. There's so many ways, certain things, you can teach how to make Gans's. But what's next? And then when you do that, what is next? How do we interact with the Soul? How do we interact?

(3:08). How do we explain to the top scientists, not the Soul, but this energy envelope. Because to me, this is the only way they understand nowadays, till we come to the... they mature enough to understand the Soul. How do we deal with this energy envelope? That we put you in it. Called your Soul, carrying your STP. And how do we transmute you? How many of you can we transmute at the same time? Do we need that master trustee, that we put all family in one, all the company heads in one, and then we take them to moon in one go, or do we shuttle them one at a time? These are not talk of dreams, this is actually going through the process of different part of the Keshe Foundation, scientists who work on it. How do we mutate energy into matter and matter back into energy? And we get the same thing back, we put an orange, we get an orange, we don't put an orange and we get an apple.

Q: .. Can I just quickly say. So, many of the Knowledge Seekers, you've given the knowledge, a lot of knowledge, a substantial amount of knowledge. And it's been able to decipher the bits you need to put the puzzle together to be able to transmute it to so you can use it, you know to go into the dimension of plasma, real plasma. And I

think many Knowledge Seekers do this when they openly receive the knowledge and they make the Gans's or they make them the matter states. And then when they start delivering it back to people to pass the knowledge on then they are transferring transmuting the knowledge into plasma again. So, they're receiving it on a Soul level.

(3:10). Is this your understanding? Is this what...

K- It is partially, but we've seen teaching Knowledge Seekers in a very special way. And then when they see, they learn, they do, they suddenly break off and they don't... they disconnect from the Keshe Foundation. That it's their knowledge and they start working and doing things. We've seen that with the doctor in Washington. I spent a lot of time teaching him, hoping that he will come to what it is. And once he learned, he thought, "now I don't need the Keshe Foundation, and don't want anybody to know I'm using their technology." You know exactly what I'm talking about. And he's still in doldrums of, what do you call it, rotating reactors and all that rubbish, which now he thinks he is. We taught many people, a number of Knowledge Seekers, to bring them up. We trusted that they will share their knowledge. But now it's become money making, profitable business, that's all I'm caring about. But they pay for it. They pay through their Soul for betraying their own Soul. Don't look at the short term, look at the long term, what is going to come up. We don't stop teaching, doesn't matter who. But then the trust comes. As I always say, we test the heat of the fire with gold. Is it hot enough to

melt the gold, like melting your heart? And we test the man greed with the same gold. If you still carry ?? this gold, it's just there to serve a purpose. Or it takes over your time, and it's, what I call, glare, blinds the man. And we've seen that with many, many Knowledge Seekers. We had a Universal Council member,

(3:12). I remember walking in Italy, with them.

And they were not from a country, they were Universal Councils in the country they adopted.

And he said, "we don't need the Keshe

Foundation, because it brings us a lot of business for us, on our website. We sell all the products, we are connected." And I said, "You got to ?? get out of the Universal Council." So, let it be. The knowledge does not belong to us. We are just teachers. But we have to observe that it does not fall in the same path as before. It is, it has a higher value, it's a time for a change. And that change has to come through understanding that no gold has no value. But the elevation of the Soul has, that's the gold. And then you leave it to the others.

Q: Mr. Keshe, the Knowledge Seekers that receive this knowledge though, that are becoming the teachers and giving this knowledge, they, as you've spoken about Christ, Jesus Christ and other prophets, ... the knowledge as you've done this time, is shared among, equally amongst man, and many around the planet. So, isn't the elevation of all these Souls, as one Soul, ... are, you know, bringing about the change within inside themselves? So, the change is present in this

moment. You've delivered the ... you've delivered it, it's in position.

K- We have not even delivered 1% of the knowledge. But if 1% makes some people think they are God,

(3:14). so you can imagine if we give 1% and they got 1 millionth of that 1% and they think God, imagine what they feel when they get the 1%. And then how would they share it? You understand?

This is the problem. But, that's that fire. Let's see who melts with it.

K- .. Shall we call it a day?

R: Sure, if you wish Mr. Keshe.

K- If we have another question I can hear.

R: Well, we have a hand up with Salomea, but if you feel it's time to end, then we can do that.

We've gone for quite a while here.

K- We haven't heard from her for a long time. Let's see what she has to praise herself for. Come on.

Let's hear, listen to her.

Q: To praise me? Myself? I praise you, Mr. Keshe.

K- Carry on.

Q: It's my free day, you know. I'm busy with my home. And I'm not allowed and I don't have any possibility to be in contact with your Zoom and I'm so sad. But today is the day of the children, of the child. I am the child of the Universe. So, do you remember the letter which I wrote to all Knowledge Seekers from your Zoom, I also sent to my old colleagues, including ministers and director general, and they sent to European Union. (3:16). And next day, I have seen the concept of sustainable peace included in a sustainable

development strategy of this institution, because I sent on 9 May, it was a day of Europe. And this is an example how our wish can become a reality if we elevate our Soul. And I think that elevation of the Soul is the key, as you said, to us to reach and manifest all what we want. And now the question to you. What is the key to elevate the Soul at the level of the Creator from the Keshe Foundation point of view?

K- What you mean?

Q: What I mean?

K- Can I just answer something? There's a very nice questions appeared in questions in the webinar chat. It's from one of our Knowledge Seekers. Says, "and what do I do with the car washing?" Start washing UFOs, it'll be more profitable. There is no need for cars. And if you can find a washing machine or washing system for Souls, you're quite welcome, we'll teach you how to do it. Carry on.

Q: So, we have to wash our Soul, in order to become equal with the Creator, maybe.

K- We don't need wash, it's just becoming humble enough to receive.

Q: Yeah, okay, you said to me, to become humble enough.

(3:18). Thank you very much, this is the one answer I was looking for.

K- Thank you very much. Shall we call it the day Rick? .. It's nearly three and a half hours.

R: Yeah. Ok, well thank you Mr. Keshe for another Knowledge Seekers Workshop here. Is there

anything else you need to announce or we should say before we end here?

K- The Knowledge Seekers tomorrow, who did the session of the elevation of the Soul of the victims of child abuse, we will meet you tomorrow, if you have already registered for it. And hopefully, some of you have managed to raise that curtain, and raise, and understand how to do it. And bring that illusion of separation of the Soul from STP away from it, that we can raise the Soul of, and the, what we call, the abusers. The main target of our work will be the nation leaders, who promote this, live through it. And we'll see how we get through and we achieve this. I have to thank all the Knowledge Seekers in the background, who work and done things over years, that you brought us to this position where we are today. It is not one individual, each one of us, some people have come and gone. And some people are still here after years working. It would not be built to what it is, if it was, because all of us putting a brick in the wall. And how that brick has hold the wall, and sometime, it's been a good way, but even if it's been a bad way, it has turned out to be good for all of us.

(3:20). I thank you for all your work and all your support, being physically, morally, Soul wise. We somehow, we got where we got and we still got a long way to go yet. Thank you very much and see some of you tomorrow and otherwise next week. And we'll come to the point where we hope that we reach through the Soul to all those on this planet and beyond and not through just Internet

and television. Thank you very much Rick for all
your support. 488 KSW June 1, 2023 END
