Every person experiencing health problems should seek professional medical advice and consult their course of treatment with a doctor. The processes of plasma balancing described herein are a natural process that supports the body but does not replace medical advice or therapies one is already subject to .

*Introduction: Humanity Direct
Connection With the Creator, KSW 460
(1.35.28)*

Mr. Keshe 02:36

Do you need, do you need an intermediary between the Sun and the Earth to tell what the Earth needs to do, and to put the Sun in a position of work with Earth? Does the Sun negotiate, talk to someone to teach Earth how to rotate, how to move, how to become that emotion of being there?

Mr. Keshe 03:20

Or, as now, it has the control and understanding of his physical structure. It communicates with it direct, with the understanding of other fields and the environment. So, the Soul of the Solar System the Sun, we call it the Soul in the body of the man, does not need any intermediaries, as it interacts now, it has his dimension. It has its parameters, and it works. The biggest question now for you as a human race, is this. If you understood this, that the Sun and the Solar System and interplanetary system

in it does not need any intermediary, any negotiators, how do you as human race, allow mullahs and ayatollahs to tell you how to feel between your Soul and the Soul of Physicality and your physical life, when now you understand your responsible for it? This brings an end to abuse of religions, if you understand the principle of the knowledge. Why do we need to interrupt the physicality within the Soul for it to conduct good, where we allow it to abuse when the physicality takes over the Soul, or encages the Soul?

Mr. Keshe 04:56

This brings us a lot of understanding. This brings an end to the religions. This brings an end into the abuse in the name of the Creator, that not even single ray of this lights of the Cosmic lights, Universal lights or rays of the Creator ever reached Ayatollah Khamenei of Iran. How can he claim to be of it? The same with the Vatican. I put my life at risk. But I've been here

for 1000s of years. I just changed the frock. And we'll get you.

Mr. Keshe 05:43

The challenge was that they are the protector of the faith, the protector of the God's will. That God is here.

Answer to it, otherwise you will never end. The God is amalgamation of the Souls of the Humanity. This is a call for all the religions to end. A new challenge will show, will stand.

Mr. Keshe 06:18

My direct call goes to those who are setting Iran to protect the return of Mahdi. He has arrived. Disarm. It's your own Soul, you have to walk away with. Now, when the Creator hasn't got intermediaries, but the people who inform of the knowledge, he does not need intermediaries in the name of the mullahs, ayatollahs, Vatican with the report of abuse, Jerusalem priests and what we call, rabbis with the misleading of the conflict between the two nations and what we call, One

Nation of Palestine. The same goes to the what we call, Buddhist and the rest of it. Religions become one when man understand religions means the conduct of the Soul and not a way to what I call ?? phases of abuse. If you understand this process, if you understand how you can connect and how you are connected by the Earth, and the Sun without intermediaries, then you should understand there is a bigger scale of work. The Universe, the Unicos and other levels in between which man is not aware of, and finally the Totality ?? from this end by knowledge and our job is to come to and go back to.

Mr. Keshe 08:01

To you the cycle of coming and going back to, maybe 50 or 80 years. To us is billions of years. We have plenty of time.

End of Introduction. KSW 474 begins.

Rick Crammond 09:38

Hello, everyone, and welcome to the 474th Knowledge Seekers Workshop, here on Thursday, February 23 2023. This is the broadcast of the Keshe Foundation Spaceship Institute, Education department and part of the public teachings in English. My name is Rick Crammond and I'll be host once again in these weekly Knowledge Seekers Workshops. And once again we have the pleasure of our guest Mr. Mehran Keshe, of the Keshe Foundation who will be presenting today's workshop. Hello Mr Keshe, I think you're, you're ready to go there.

Mr. Keshe 10:24

Yes, ready, willing and able. Good Morning, Good day to you as usual. Whenever and wherever you listen to this series of Knowledge Seekers programs of the Keshe Foundation Spaceship Institute. We welcome you back. We welcome you back to extension of and extending the knowledge and understanding how and

the way we are connected to each other, to the Creator and the rest. The intro, we just heard which is the extract of other part of the teaching, is if understood, will bring a different dimension into the life of Knowledge Seekers and humanity. The whole structure that we have gone through in the past few months and past few years, showing from the seat to the Creation of the Soul of the man and connection of the Soul of the man inside the man to the outside through Cosmic rays. And now understanding that Cosmic rays themselves, have a source, essence, and in a way, we can talk about it and explain it because we have built it. We have access to the technology and even as I said to one of Knowledge Seekers recently in past few hours, Even the systems we have made, which some of you have seen you came to and I heard couple of them came yesterday. And then they went broadcasted in Rick's teaching, yesterday morning live, what they felt in the system. This is all

connections to Cosmic ray. We're not magicians, we are scientists.

We are here to abolish the phantom of everything which cannot be proven and made, that we could understand. We explain it. If it's not understood, it takes time. When you comprehend it, and then can be made, it becomes a technology, we call Keshe Foundation technology. This is why we convert the knowledge of the Universe to a technology the man can understand. And not only man. In the future, when man opens up to the Universal Community, finds out Universe has benefited from the technologies which human beings have developed over centuries and 1000s of years. To you is something simple you do use every day. But that essence of knowledge has been passed on to Universal Community. And they use it when needed in their own way for their own lives. As we use some of their knowledges which has been passed on to us in different ways over time.

Communication has never stopped between the races of the Creator.

Is just man who has chosen to be ignorant and close the door. First to himself by locking his Soul within physicality and then locking this planet as a village to the rest of the Universe. We are, little by little, opening this door, letting the Sun shine in to the Soul of the man and in to the knowledge of humanity. In the last weeks, we spoke about Cosmic rays. I hear loads of people, especially in Romania, are abusing this work to cheat others, especially Barbeau, to stop this, which is not correct.

In this process, you have to understand that Cosmic rays is the essence of the Creation. Cosmic rays are embodiment of the Creation. Cosmic arrays are where we have to understand the connection. Something which I have come to realize many Knowledge Seekers have not grasped, is the conversion process that has baffled

many of you, in the past few months. We have, and we live according to what I said at the last page of the Book number One. The Creator is the Creator of all and man converter of some. This conversion doesn't come by technology, that you convert electricity from one point of another point of the energy of the structure of the line. It happens within the structure of the body of the Man. We receive Cosmic rays, which are abundant in the Universe, is created. Cosmic rays is stacked up, is like block of apartments.

Ground floor cannot exist without the other. And depends who lives in which bracket in which level of it. So, when we talk about Cosmic rays, we're talking about the structure of the Creation of life in the Universe, the building block. How Cosmic rays, one Cosmic rays of a specific strength, build itself and connect itself to another Cosmic ray of different strength, and how these rays, building blocks of the Universe, are connected to each other.

How can you go from the top floor to the bottom floor? Bottom floor doesn't exist. Top floor doesn't exist. As the Universe is created, all the floors exist. It's for us to understand, do we go down the stairs or jump in the lift or from very top, we get the parachute and drop down. This is the parachute of knowledge. You cannot do it.

It taken man many millions of years, billions of years to get to whatever it is today, computer chips and electronics and everything else, where other races can get the parachute and jump down and get to it within understanding of the technology of the Creation. So what is important for us as a step up in the knowledge of Creation, is very simple. What is our job? What has been the job of our physicality in this conversion, and how does it use it? We get the water from the waterfall, and we put a rotating something in it. And we take electricity out of it. We call it the generator, we convert it. And then again, again is water. Is the same water.

So what happens with us, we are in the same position, the Cosmic rays arrive to the body of the man within the structure of the physicality of the body of the Man, which is mainly the bone on the, what we call, the skull.

It converts back into, releases energy. And then in that process, carries on. We don't absorb all the energies, there is nothing in the Universe, any difference between what we produce as power generators in the dams, in converting the energy with the same water flow, as in the brain of the Man. This is what we have not understood. And all we did, we relied on this part to be head and we kill for it. To keep a little bit this part awake. The brain of the man receives most of its information for the essence of this Creation, his Soul, from the Cosmic rays. The body of the man, the amount of the food we consume, we kill for, hardly adds much to it, but it brings it into balance. We can get this from Cosmic rays in a different way without killing. It's just that we have to

open our understanding we have. Open this door of the Soul of the man to be able to absorb bigger spectrum and slower spectrums, stronger spectrums of fields of the Universe. So, in a way we live in a converter generator of Universe.

We call it the brain of the man. But in essence, if you look at it, if you understand it, we very easily we talk about Mr COHN, but look at the characteristics of Mr. COHN. Da rah! We call it carbon 12. So, what happens to the man? How man actually works with this thing. He receives 14. Converts it to 12. Picks the energy up and the balance leaves. The generator, the converter, is the carbon in conjunction with what we call, hydrogen itself, which is the best Essence of the Creation of it. Is the origin of it. In a way, the two connect to each other. And in connecting with each other, create, allow release of the energy of the Cosmic rays from carbon 14 to carbon 12. Which becomes the

energy. Which becomes and then in the process of understanding the same, with the hydrogen and the oxygen coming together, we see the what we call, release, creation whole gravity of the energy.

Mr. Keshe 20:05

So, in fact, if man understand this, and allows his Soul to expand, understand the expansion of, we really do not need much, because in this process, we become the converter of the Totality within the center. And then what happens? This is what we do with you, when you go in the System, and you're proud to go to Rick's program and talk about. We allow the carbon 14 within the center, to go beyond the skull and restriction of the limitation of energy absorbs conversion, and now Voila! you're on the track. That's all it is. This is what the purpose of these teachings has been. For you when we talk that we bring your Soul to expand, is the central energy to come out of the prison lock of the skull of the man which

limits, converts the 14 to 12. Now, when you come on the motorway, you can go anywhere. **It is sacrosanct that man understand this process of conversion of carbon 14 and 12.**

Mr. Keshe 21:39

Carbon 14. We need one carbon 14 to feed the whole of the Universe, if you understand. Because carbon 14 in understanding of the man, is an odor. It's crystal structure. Carbon 14, if you go in its matter state, has the six electrons. But embedded within it, has the extra protons, the extra, what we call, neutrons, whatever you put it. The shape you put it. We call it energy packs. These extra neutrons inside, these extra plasmas, create a condition that the energy expands. It becomes odor.

Mr. Keshe 22:46

If you have a gas, if you have an element in the matter state, is solid you touch it. In the gaseous state, is still you smell it, but no smell is there. But if

you convert the same gas into odor, into crystal structure, into what we call, gas of itself, it becomes odor, which means it has a smell. If you understand this, and you understood, what I explained in the beginning, you will understand the way we smell each other. Oh, the smell of this! You smell the dog, you smell the carpet. Man when understand this, then he can smell galaxies. You can smell a planet. Has a specific carbon strength connection in the dimension of its odor, that we see it as it lights to us, has a smell, but we have chosen only to see the light of it. Our knowledge never expanded. We never understood what carbon 14 is. We never understood why we call it a carbon 14 to the knowledge of the man. Is extension, amalgamation of simple, what we call,

Mr. Keshe 24:16

deuterium. Balance and energy. The reason carbon 14 can travel the span of the Universe, is because is got those additional neutron or what I call

protons, amalgamated to be as neutrons. Extra energy pack in the level and in parallel and in working condition of the hydrogen, which is origin of itself. In a way it gets piggyback on the hydrogen which created itself and it's magnetic field strength.

Mr. Keshe 25:09

We see the carbon 14 behavior in the Universe, but it's actually if we go inside it, we see it has a tracker. Is very much like we call it the time of Hitler, they put a beam and they put the planes to go from Germany to England, down that beam. Carbon 14 is that plane. The beam of the information connection, is done through hydrogen and mainly the structure of deuterium of the hydrogen. In a way if we look at it, deuterium again, is one element twinned. The nucleus and the electron, where the nucleus itself again through interaction of the proton and neutron, is balanced itself again. Deuterium is a stable structure of the life in a bigger

dimension. And then, if you look at the carbon 14, and carbon 12, you see the same characteristics again. Totality, in emission extra. In a way, if we allow carbon 14 to interact, we understand the behavior of carbon 14 in entirety of where it sits, with that extra bit in the middle and we can expand the knowledge to understanding of the Totality of the interaction of the plasma, we can create any Cosmic ray through radiation of interaction of the central structure of the carbon 14. This is how you can produce from gamma rays and X rays and the rest of it, by influencing the central structure of the carbon 14.

Because you have the original structure of the neutrons and protons, which gave the structure of the six electrons as Totality, but in effect, you will have a loose body which can grind. In the world of the physics that mis-functioning of the understanding of it, is not that they're all sitting in one. They double and they double and then

the (doubled) doubles as one, and you have an outsider which grinds on. What would you like? From weapon technology to gamma rays and X rays to see how is your body working. The radiations I can create out of carbon 14, understanding the knowledge of it, is beyond man's understanding. Because I can speed up the transformation even over the speed of the Cosmic rays at the highest level, reaching up. The interaction understanding of the extra bit in carbon 14, is this parachute.

Mr. Keshe 28:42

Or elevator, to take man up to where he wants. This is how and why I explained in the teachings, that I can make any nuclear material which the plutonium, uranium, are absolutely child's play in this field of the understanding. In the space reactors in Tehran when we build it, we did nothing but producing helium and hydrogen. When you go into the structure of the original patent, even in the book, in a hidden way, I speak about scintillation. What is

scintillation? Scintillation is a squeezing the extra part for the elements which already behaves as a gas and odor, to release what I want. If you don't understand this, is very simple. Very, very simple. And that is, how many of you change your internal structure? Your colons, your intestines, your stomach, your heart? That you cannot, is with you from the beginning of the time, the way you developed it. But all of your pass gasses with different smell, from either end of the human body. You never ate the gas. But how come the gas today has a different smell than tomorrow?

Mr. Keshe 30:30

This is how the conversion comes. The body of the man has used to changing the structure to create different smells. So if your body can create different smell, I can create different dimension of nuclear weapon technology the man has not even dreamed of. Using the colons and the stomach of the man with the odor and understanding carbon 14.

Mr. Keshe 31:02

I need one atom to create the right order to with covering the whole of this planet, to change the mentality of the man. Make you all not believe even in yourself. You don't even can accept I exist. Or make you so religious that you all hang himself. You want to be the way that Christ went. Depends how I play with it. Depends how the stomach today changes the field strength and changing a gas to odor.

When you say Darling, you smell so good and the other one you kick the darling to the wall, can you stop making the smells? One is the smell of love and one is a weapon technology to kick. Now, you understand why we go into the dimension of carbon 14. Why we're going to the dimension of understanding the essence of Creation.

Why in every structure we create, we have a hydrogen inside and interaction of the hydrogen, in combination of

itself with itself and surplus energies, every planet creates carbon 14. That its fingerprint. This is what it is. Because this is what we do. This is what the knowledge of the Creation is if you understand it, is, look at the micro and look at the macro. Is your colon and your stomach changing odor? Bigger size is the smell of the galaxies, the Universe and the rest.

The time will come when the human race, returning back to Earth from billions of kilometers away, the children of man say, Oh, we can smell Earth. It's like the way you walk ?? I can smell roses. Where are the roses? The limitation of understanding is the limitation of prejudice of man about the knowledge of the Creation and nothing else.

Mr. Keshe 33:28

Then it comes to the point that, do we need, do we have to, in essence of the Creation, to understand the work of hydrogen? So passively in the world of

physics and knowledge of today, we dismiss it just hydrogen. Give me hydrogen and I create Creation. Give me hydrogen, I can annihilate the whole of the Universe.

Mr. Keshe 33:58

This is what the knowledge is. In the body of the man, we have created two little holes and the skull. And within the skull, we have hidden the gem of the Soul of the man. If you look at it from the top, this is what you are. The two little holes and this is your skull. And there sits the Soul of the man. The body of the man lives two dimension of life. Life of physicality and life of connection of the Soul of the man with the rest of Universe.

Mr. Keshe 35:03

And then in that position, man has created another gem, you call it the nose of the man. Where odors, where the field conversion of the fields of the Universe, in a different way, arrives to man. The same way you have created

your what you call, the mouth of the man. Again through the same process, you feed the Soul again. The whole purpose of breathing, seeing, eating and the body of the man is nothing but to absorb as much possible in different combination energies, which depends on which way we push it. The clever Soul of the man, when it created when understood what it needs, it created the eye of the man, where has no limitation, restriction, and it can go through and more or less direct full carbon 14 interaction. Where the rest have a filter called the bone, the calcium. And this is why in every cell of the man, you cannot have a single cell in the body, which doesn't carry seed of calcium, connecting, jailing the man to the physicality of this planet.

Mr. Keshe 36:35

Now, when we look through the eye of the man, we see the physicality. But two rays at the same time, come out of this hole. One you see the physical life. And one you see the dimension to what

we call, Universe. That's how man is schizophrenic. The Soul through the eye hole, doesn't matter if it's open or closed, sees, gets in touch, sees the mother, talk to the mother who died 20 years ago. We had it yesterday, the lady came in, and I said, You can fly to the Moon. She says, I don't want to go anywhere. I want to see my dead husband. And she was adamant. I said okay, carry on. She wanted to see and then I said, Now, ask your husband to come and see you. He came to see.

Mr. Keshe 37:47

Man with the eye, decides to ignore even what's in front of it. Because we are not ready, with what we've done, not correct, to be, to see in the dimension of the Soul, in the connection through carbon 14 ?? In a, in a way if you look at it, man wears a goggle for night vision and the other eye hasn't got. It sees normal. Have you ever done that? Have you ever wore a night vision half and one physical, just your eye? Is a funny

world. And this is what the man is. The other eye, the other part is the strength of the carbon 14 which we have denied. And we have chosen only during the physical time of us, to report back this to our Soul or through a structure of our brain, the Totality of what we want.

This is why as the humans, we always remember the dream. We see visually because carbon 14 which creates visuality to us, most of it comes through this hole. This is why when you came into the systems, some three 400 of you more or less up to now, I tell you, Did you see or did you feel? If you felt, you have expanded the Soul. If you see, you're seeing through the eye of the Soul through the big hole of the eye cavity. And the beauty of it is, that we have chosen only during the, our awakeness or awareness, to accept only, leave only this ray. Physicality. Even though carbon 14 vision still comes in. We have trained our brain to only believe these guys and recognize it and I accept it. It's very much like

Chinese. When I look at the Chinese broadcasters, especially women, just go on the Chinese channel while they're talking, I look at their broadcasters. Their eye, when you look at them, looking straight at you, is one is here, and another one is there.

Mr. Keshe 40:57

In a way, they receive two information from the same source. But the eye, the brain has decided that we're going to accept only whatever comes to this eye, the other one we ignore. Chinese see two visions in their brain. And they have decided in their structure that which one they're going to accept as a true picture. You don't see a Chinese going to shake your hand and shake your head. He knows which eye recognizes this is the right one, and then next time, I use this one because it's a different angle. We already in a physical dimension, have chosen acceptance of the singularity or collective fields which arrives to us, and our brain recognizes. So now you

can see what our Chinese friends are in dilemma with: none. Because the Soul sees the whole lot, in the dimension of the carbon 14. And this is the brain of the man which has created this mayhem for the man, and created business in the name of religion. Because you fall and see you all have connection to your Creator and the Creation. And Ayatollah says, no, no, no, no, we only accept this one.

Forget about the rest. Because with this, I can fool you. With this no one can fool you. And this is what the teaching is about. To show you, to live with the dimension of information of the Universe, that you cannot be fooled. You know, if you're seeing the information comes, even he says, Oh, I was daydreaming. Yes, because your brain at that point decided to choose this ray and ignores the physicality. That's why you call it daydreaming. I was halfway and then you wake up and you do something else. Because of the dream. You are going and crossing the

road. The Soul sees the accident and tells the physicality, you had enough. I take over.

Pulls you back or makes you run or you get hit in a condition that you should die. But you walk away. It's not coincidental, because the Soul has created itself to protect itself that field of protection. Physicality, he's a plasma, nothing happens. Then plasma retracts to the brain. And you walk off and say, Wow, anybody else would have died? No, you haven't understood the schizophrenic life of the man, the other one took over for that instance. Now we understand. Now we have no choice but to comprehend the process of the creation. We are not here Soul takers. We are here to teach you to understand the operation of your Soul.

When we said in the peace treaty, I commit my Soul and physicality to peace, Brazilians, most of them crossed out, we given our Soul to Christ. Now you know what you denied as

Brazilians, as the Christians and those who accuse Keshe Foundation to be in the process of taking your Soul.

Because they never understood. They're a bunch of pedophiles, child abusers in the name of the people we kicked out of the Keshe Foundation. The whole family has been to prison because they have abused the physicality of a child to be abusers. To abuse the physicality, that the Soul cannot see the reality. And then they cover it in the name of the religion, the churches, the mosques, and everything else. Understand the process of the Creation. Understand who fools you.

Mr. Keshe 45:29

In the name of the God in the churches, you don't need any more when you understand the connection. When you understand, the process of the reality of the life in the Universe.

Mr. Keshe 45:55

Then nobody can fool you. Nobody can tell you something, because you decide,

you go back to the source into your Soul and say, Is this correct? Did Christ do such a thing, and the contact many of you done, you get in touch with the Soul of the Christ. He's there, you see through the, what we call, the information line of the Soul. And he explains to you how he resurrected. You don't need me anymore. You don't need any other scientists to explain to you. Only the abusers say, He wants to take your Soul. Because then their hands opens up. Why did we kick one of the Belgians out of the Keshe Foundation three years ago? Because five years to plan it to get rid of it.

Because we found out they're connected to the most aggressive pedophiles groups, in the Keshe Foundation, in the world. Why did they have all the Keshe Foundation, always attacked and be surrounded by pedophiles? Because one of the heads was sitting next to me all the time. With the history of life pedophilia, from age of 13 in prisons, juvenile custodies and

whole family in prison. Go and check, check what the Ayatollah says and check what people they tell you somebody's ?? they want to divert you because they can abuse you, they can abuse your children.

The whole family, brother and sister, have track records of abusing children, even in their 30s and 40s, raping boys and the rest. They can't stop. They used the Keshe Foundation, and when we put the truth out, what did you do? He is a Soul taker. He is after your Soul. Doesn't tell you I'm a pedophile. I work in and I'm part of the structure. I went to prison for it from age of 13. Now you understand, how they tried to break up when the truth comes up. This is you who have to do the investigation not us.

Mr. Keshe 48:05

This is how religions have been used to divert you to the physicality, that they can abuse your Soul. This is how in the

space, no one can fool you in no name of religion. You look the bandwidth, you look the strength, you smell the odor. Then you find out.

Mr. Keshe 48:33

And then you see where the odor comes from, what strength it carries. Is it the smell which suits me? When you stand in front of another creature in the Universe, you have no eyes. Your eyeballs, the liquid it carries is not operative in different depths of the Universe. You have to rely and your only weapon you have, the only tools you have is this. The dimension of the strength of the Soul of the man, the essence of the carbon 14, and its combination, and its interaction with this line of communication of hydrogen. What smell does it create to the sense of the Soul, not your nose, your nose does not work. Little virus called COVID made half of you not to smell, so you can see what's going to happen to you in space.

How many of you had COVID and lost your sense of smell and taste? That's the taste of what to come in space.

When we talk about the smell in space, is understanding the strengths that arise with you and explains what is to come, what is the field is arriving or you're going to? A smell is not the odor. Is not what you call, is roses. Is the field identification strength, that it becomes the essence of what you call odor. This is what I explained to you. There are so many senses that man have not understood yet.

Mr. Keshe 49:02

This is how life is in space. In a way, if you look at it, man learned two things, Soul

Mr. Keshe 50:50

and the physicality, which has different characteristics of itself. And he has his own interaction of the fields, what we call, the spirit.

Mr. Keshe 51:17

Where the interaction of the two, creates that hydrogen, that existence of confirmation of being there. Where the three are totally separate. Where the physicality stands on its own structure in interaction with the field of this planet, the Soul stands with the energies of the physicality conversion in a GANS state and matter state. And where the Soul stands central feeder control of the connection with the Universe and itself.

Mr. Keshe 52:00

Then, you understand why when you came to the what you call, original, setting of the Keshe Foundation in the, what you call, Linz, we gave you three chairs. We freed you from this, we send you to this. We freed that and we sent you to this. And then when you were freed, you were sent to the system, which has no dimension. Then you were connected to the Universe in different dimensions. When you came back, we took your back through three to one and come out. This is how it is,

this is all. You never understood that time. As I said, I'm no magician. Now you understand, I explained it. Each one was set at a given strength to be able to interact with the energy level of that point where here, you have in your body, your Soul, where you have it there.

Mr. Keshe 53:14

And knowing we freed it, we allowed it to expand and then you went to see the husband who passed away. You went to the Moon and the rest of it, on the line of carbon 14 interaction, according to the fields which this sent out they want to. Now you understand. The world of the science has to be paramount over any hypocrisy, with no assumption. No cheating like, we know who cheated us with $E = MC^2$ with all assumptions. Another Ayatollah in the name of Einstein.

Mr. Keshe 54:05

Now you have the freedom of the knowledge. Now you have the

command of understanding, according to your intelligence. No one in space can fool you. And you don't need to have what I call, the ?? eyes not to know which way it comes.

Mr. Keshe 54:32

When I lived in China, many many times, I told this to Wang Lin once too. I wonder what the Chinese see us as? Not us as foreigners. Themselves, another man, when you have an eye in this position. And what would happen if you bring the two eyes in the position of accepting both?

Mr. Keshe 55:15

This, this position of the eye in the Chinese, is because of the shape of the skull, which has forced the brain in a position that it has to force the eye angle of observation of light. If we manage to expand the skull of the Chinese, you'll see the eyes center goes back to center like most do. And this position of the eye, the color of the eye, allows absorption of the different fields

strengths and brings different intelligence. The blue eyes, the green eyes, the brown eyes, the off center eyes, all this leads to Creation of certain characteristics, certain behavior. Northern Europeans with blue eyes are like this. Africans with their skin and that, are like this, because it's the rays we convert from the Universe in us, which allows us to store that energy to be capacities to certain behavior.

This is why we become race prejudiced and color prejudiced, because we don't understand, that, with that, we absorb different rays of Creator. Different rays brings different character, different behavior. Now we have a problem within the race of the man with the color. Oh my god eyes, shaped white, but Chinese. White but Korean. White but European. Or black this. If you as a race have a problem with the structure of your food, god help you with the Universe and the fields of the created things which you come across. You

will be forever prejudiced even about your own existence.

Because the rays comes through the dimension of the Soul, and how you're going to behave without that. When we say we make one race out of the man, we make one race out of the Creation, not only the man. But at the moment, that's all you understand. The new gimmick of one faith. All the religions meet together. What a hullabaloo. But we still do what we like. We come here to cheat you because now we have problems between ourselves.

You cannot listen in space. You have to understand the structure of how, what you see, what is converted in you from which plasma, from which floor of the rays of the fields of the Universe. When we speak, when we understand this structure, then you understand, that different kinds of lives are created on each floor. Each level. Certain fields from the center which weakens in one dimension and strengthened in the

other, works. One will be looking black and one looking like Chinese.

Mr. Keshe 58:36

If you look at the race of the man, accepting the philosophy and theology of today, that the race of the man is started from Central Africa and expanded out. Wow, you should understand what your Soul has done to humanity. You came out went that way, the ultimate color and race on the right has become Chinese looking. You came up and went the way, you became blond and blue on the other side. But in essence, you all came from the same and from this same of Central Africa, you came from the central Soul of the Creator. How many times in the course of billions of years, this has divided? But in essence comes from the same. Now you understand. In the world, in the teaching of the Keshe Foundation, there is no place for theology as the theology is part of the Creation of the physicality of the science of existence. No one can fool you.

Mr. Keshe 59:43

In the time when man educated enough, when he goes to space, when you see somebody from this race here and this race here and that race there, Oh, I know where you come from, because they field that this place was stronger. So you should look like this and this and that. We'll start recognizing condition of the interaction of the field of the Universe, and the position dimension of the manifestation.

Mr. Keshe 1:00:14

Though we have no choice, no choice, but to become the observers of the Universe and the givers to it by path, by line, by understanding of the Totality. And this will become as part of the work of the Keshe Foundation in time to come. Now, today for the first time, we talk about the odor of the Universe with you and the rest of it. Now, I have to create that odor, for you to smell, to understand. To see, to trust, to go to the next level of understanding.

Mr. Keshe 1:01:09

The whole structure of the teaching, is a teacher of the knowledge of the Creator, not the Keshe Foundation. We are just a name. Appeared in the name of everything which you have seen in your life.

Mr. Keshe 1:01:30

From Jesus, from Moses, to Tesla. Is all the same essence. All to bring man to the point of today, that man can open his eyes to the rest of the Creation and become a passenger of the Universe, to understand how the Universe works. Who carries, who takes the piggyback and who actually is the owner.

Mr. Keshe 1:02:08

Is for you to become the judge of it. Not for us to create another court to judge. As I said, when the man lives by the Ethos of Mitra, there will be no courts because man judges himself.

Mr. Keshe 1:02:35

When you go into the depths of the knowledge of the Creation, you need, you don't need an intermediary, because you can analyze it yourself. You can break it open, you can understand it. Then it gives you a freedom. It gives you no prejudice and not being prejudiced is a freedom which man needs in space to be able to live. You came here years ago to find a UFO. Now you found your Soul. A faster zero time transportation communication. And this is not what you bargained for. Because you were happy with the donkey ?? Your gift is given. Is for you to understand it and in a way, add to it from what you receive, that it becomes a Creator of the next cycle. As I said very recently, we had what we call, corona children. Many people had corona children because they were sitting at home and now had nothing to do and they created ??.

And, as I said to a Knowledge Seeker, now we have the children of Mitra. Many Knowledge Seekers are

conceiving children to create the cycle of Mitra, as the time is for it. But which child will carry that essence, is a gift from the Soul of the parents and not chances of life. We will see this generation coming up and with them they know each other, they recognize each other are created from the Soul and does not matter if the eyes Chinese, black or white. They see through their Soul. They carry no prejudices and they are ready to be the what we call, citizens of the Universe, not citizens of the village of the Earth.

The cycle of life, does not matter where in the Universe, it's the same. Is for the citizens of it, to understand the culture of it and the way it came to be and respect it. Thou shalt not kill. Is not not to kill another man, which was interpreted by now, Thou shalt not kill an animal, Thou shalt not kill another citizen of this planet, thou shall not kill another citizen of the Universe. Because thou knows how to tap into the energy without killing. That's the whole

message, Thou shall not kill, because thou shall have the understanding and the knowledge that does not need to kill. It fulfilled the promises in the true essence of it, and not just by the word and verb of it. Because you know how to tap into the energies of the Universe, you came to the center, you saw and you went and you swam with the fishes and you saw the ex husbands and present husbands and the future husband and everything else. Because you was not you. Is the Soul of you, who showed you the path. This is what is to come. This is what we try to expand into energy. This is how in the coming time, I show you how to convert carbon 14 into carbon 12 and back to 14 and you live. Keshe Foundation today, at this moment, has made access and developed what we call, the machine which can create the Soul of plasma. Soul plasma generator is in our hand. Has been made physical. And it works and it will work exactly in the essence of interaction of the Soul without the matter state coming into it.

Mr. Keshe 1:06:55

Now that our Knowledge Seekers have understood this, you will see even the Enhancement Units will change in next few weeks. Because we have managed to access, to teach our Knowledge Seekers, to create the first Soul plasma Creator. The Soul generator is with us. And it is not that you can do anything with it. The only thing you can benefit by it is to elevate your Soul to be able to interact with other Souls without physicality. Many of you will rise the dead the same as Christ did, because you touch the Soul. Physicality is just a gimmick. And those who built it the first time they have felt it, the strength of it, the emotion of it and the truth about it.

Mr. Keshe 1:07:53

Then there shall be no illness amongst the children of the man. And there'll be no ill intentions amongst the children of the man. And our Knowledge Seekers understanding and accessing this new

technology, already the next generation of the Enhancement Plasma units, has gone into operation to be built. It's a leap of centuries, 1000s years of research from now. Man will not have achieved this, even coming another hundreds of years. Is the gift for the sincerity of people who work with us. And you benefit because of their sincerity and the way it has worked. Plasma Soul generators are so powerful, that once man hold them in his hand, will see the Creators dimension of Creation and the power which it carries. Only a fool will memorize and a fool will abuse. This should make you more humble and in a way, obedient to the laws of the Mitra and nothing else.

Mr. Keshe 1:09:13

Is not where we talk. Now, we have developed the technology which creates carbon 14 at the strength of the Soul without the conversion of the physicality of the Man conversion from carbon 12. To the essence of the

Creation of its base, which is the hydrogen. In a way, we have created for the first time, a system which generates nothing but fields at the strength of the Soul of the Creator.

Mr. Keshe 1:09:51

Those who hold it understand its power and majesty. Those who abuse it will see the annihilation of their race. As simple as that.

Mr. Keshe 1:10:04

And once you touch it, it'll stay with you and you become accessible to the fields of the Universe.

Mr. Keshe 1:10:22

In the next few weeks, we show you the system and maybe with it, will bring the change to humanity.

Mr. Keshe 1:10:39

The essence of the Creation. The essence of all these teachings of the Keshe Foundation is, for man to mature that understand the process of the

Creation, that no magician can fool it in space and divert it and detract it from the path to the Creator, that's all. The religions, by their name, they distracted man from the path to his Creator. Now we won't allow it in space that there'll be no religion, except understanding of the man of the knowledge of the Creation.

Mr. Keshe 1:11:21

We go for a break. we come back and we answer your questions. But today's gift to you is to understand the system which creates the Soul of the man, is within the grasp and within the hand of the man. There is ?? existing already on this planet and this is a gift be brought with us for you to mature not to be bamboozled by it and make it another dimension of magician but to understand the science of it that you can use it in every dimension of the Creation. We'll go for a small break and come back and we carry on.

Rick Crammond 1:12:06

Very good. Thank you Mr Keshe.
Okay, this is the 474th Knowledge
Seekers Workshop here on Thursday,
February 23 2023. As Mr. Keshe
mentioned, we'll take a few minutes for
commercial messages and be back
shortly.
