Part 1

(:13) K- Thank you very much. Good morning, good day to you. As usual, wherever and whenever you listen to this series of Knowledge Seekers from Spaceship Institute. We welcome you back, and as usual, we try to share more knowledge, and understand more, and build on what we discussed, or we understood before.

(:14) In the past few weeks, we tried to bring things into matter, to understand, and to realize the structure of the body of the man, the structure of the Universe (U), the structure of the Creator, cannot be any different from each other. One is in macro, and (other) is in micro, as we always said. But, understanding the proportion, understanding the work, understanding the way, they come together to create such a condition and position. In the cycle of the body of the man, as we said, a few weeks ago, you have the 3 layers, which that layer has a physical manifestation, of the surface skin, and then you have the middle skin, which connects the outside to inside, and then you have the insides, which controls the field inside it. This is how you create the isolation and insulation of the body of the man. There is no lock and keys on each section, but due to interaction with the fields of the environment, this material expands, contracts, destroys itself and rebuilds itself, because it cannot carry on to keep the separation. It's like when you have a water dam and you get a hole in it, you go and

patch it up. And, you have to bring all sorts of materials to patch it up. And then you make provisions for the patchwork. What material you going to use, which depth of the dam it's got a hole in it, and the rest of it. But, in the body of the man, now because too many holes has been made on this dam skin of the man, brain has already restructured itself.

(:16) This is how we're going to handle it. It's going to get weak regularly, so we resurface it every 28 days. We change the cells. This is the optimization, not... this thing, keep everything else outside the surface. And when we see intrusions, like burning the skin, or cut of the skin, then we send the emergencies to cover it. There's structure of the fields, which calls for additional fields to do. This is exactly what happens in the World of the Creation. But we don't see it, because we are too occupied with the present structure of our physical life. And with so many misleading information and knowledge which has been gathered, and then passed on, like a Chinese whisper, the technology (T) and the knowledge of the man about himself, his environment, his Galaxies, and the rest of it, is so muddled up that nobody knows which part is the truth, which is not the truth, and which one actually works. And, most of the time nobody makes a connection. And this is part of the work of the Keshe Foundation. To bring you to see the Totality, what you see in a structure of the body of the man, containment physicality, in the Universe, we see the stars, we see the Galaxies, that's their physicality

(P). But, in a way, they all coordinate into one center. We call it as a kidney, we call it the Milky Way. There is no difference. This Milky Way, like the kidney, has a purpose in that structure of the bigger Universe. It could be a cell in the kidney of the creation of the Universe, or it could be a liver part. We have to understand this.

(:18) And the only difference is, if you put so many millions of the cells, and billions of cells to make the kidney, you see a Galaxy has got billions of stars. There is no difference. And once we start looking at this structure, we understand more about the Creation. The Creation and the Creator, and how they work, and how similar they are, because they're all connected to the same line, through the same line, and because of the same line of the Magnetic (M) fields. So, when we look at the structure of the man, we see the skin. In the Universe, we see the Universe, the outer boundary of the Universe. This is what's... don't forget, we are looking from inside out, we don't know what's happening outside. We are not aware of it. We are like a kidney in the body of the man, we don't understand where the liver is, there is arms and there is other parts. We are only concerned with what we are, part of a kidney, a cell in there, a galaxy is that cell. And then we understand more and more. And then it comes to the point. As I said in the teaching a few weeks ago, and I drew it on the pad, that you could see it clearly. You have the flare outer skin, you had the inner skin, the middle skin and the

inner skin. And then it's the same, you have the physicality of the man, you have the Soul of the Physicality (STP) of the man, and then you have the Soul of the Man (STM). If the 3 layer of the skin are to protect and in a way cover, what's inside the content of the physicality of the man, so, what does that Soul in the center covers? Because, that's the 3 layers of it, the physicality, the middle which is the STP, and the Soul. In the body of the man, the inner layer contains the body of the man, whatever is in it, the lymph, the liver, the kidney and whatever.

(:20) So, what does the Soul cover? What is it protecting? And then it comes to the same point. We see the physicality of the galaxies, we see the stars, planetary systems in it, and then there is a center Soul, a center part, we call it the Black Hole, but it actually is the source of its life. What is that protecting? And what is its connection to the central of STM? Because, that center dictates how much material can be in the center of the STM, from the origin. Then, it comes to other point, is that... This, all these galaxies, whatever come together, make in this Universe, they are, let's say, a part of the organ of the kidney of the Creator, that's the structure. So, what does that do? How is it connected to the Creator? Then you understand, we are all part of the same structure. There has to be a physicality in a dimension we cannot imagine, but we are part of a cell in a kidney of the man cannot imagine it's part of a kidney, and then imagine it's part of being a human. We are in

the same process, we are that cell inside that cell of a kidney. Then you understand. The only parallel is that we understand in micro or macro, one or the other, and understand the relationship, understand the connection. How does the lymph in the body of the man transfers energy into the bone marrow? That lymph, that liquid, transparent material, is like the gap between the Galaxies.

(:22) It carries the energies which feeds the Galaxies, which keeps them in order. But we never had the mentality to understand, we never could extend our... understanding of the process of the Creation. This is what I said before. We consider to our eyes, there is nothing between the Galaxies, it's an empty space. 90% of the Space, they tell us, is empty. Is that lymph, which carries all the nourishment, for the whole Galaxies, for the Universe to operate and operates through and within. What does our Galaxy put into the Lymph system, into the space gap between another Galaxy, what we call the empty space, empty gap. Now we understand, there is no difference. It's just that our limitation of understanding the process of the Creation, has brought us the prejudice of understanding the Totality. Otherwise it's the same. How much energy is within the lymph? How much lymph takes everything and distributes it according to where it's needed? That lymph is the space gap between the Galaxies. But what does it carry? We know the lymph carries all the energies from our body into the right position, transfers everything through our

bone marrow to become our Immune system, and then becomes every cell created. It's a self-regenerating system. We eat, we transfer the energy into the lymph, lymph transfers it through the bone, the bone creates the red blood cells, which red blood cells make tendons, arrange the structure of the skin of the man, and then, the skin of the man separates everything and keeps everything inside. So, the process of the Creation cannot be any different. They tell us, so many percentage, 90%, 80% of our body is liquid, just water.

(:24) That's the lymph of it. Water is not the H₂O, or ?? tangling. It's distributed across the cells, distributed around the lymph, and this is how the structure works. So, isn't that the same, they tell us (90%) of the Universe is Galaxies, and the rest is empty? Now you understand, how much we've been misguided, how much our scientists never understood, and they came up with loads of fallacies. That, to us, now to accept the next step is very hard, but once we understand it, we accept the Knowledge of the Creation, we find out how much we've been cheated, how much we've been lied to, how much our scientists of the past were so misguided in their own knowledge, or never understood, that they misguided us. This is one of the biggest problems for humanity understanding the Totality, and finding comparison to understand, where he missed, what he missed. So, in this process, if you understand how a lymph comes from the... absorbing the energy of the food, whatever

you absorb, or the structure inside you, and takes that information, that material, through to the bone, through the kidney, through to liver, Then you find out, you can do the same for your transmutation. You have to link up to the lymph of the Universe. Then you understand, by dictating the right field strength, you'll be absorbed by the kidney. You're creating the right field strength, you'll be absorbed by the liver. Right field strength, you'll be absorbed by the brain. So, you do that with your Soul, which is your central energy production, not with the food you eat. You work in the collective environment of the fields.

(:26) Now you understand how the transmutation, transportation, physical body, all connected to each other, be it in the body of the man, be it in the structure of the Universe, be it in the structure of the Unicose. And, as you open up your mind, as you understand more, then you understand. The fallacy of the "Big Bang" is nothing but a "hotcake" from brain of a guy who never understood the thing anyway. The biggest 'bang' was on his head. That's all he said. An apple brought Newton to understand gravity, a bang came to the head of a guy who brought more ignorance into the world of science. One enlightens and one puts us in the doldrums of what I call, misguided knowledge. This is why if you understand how ridiculous this structure of the what I call, the Big Bang is, because you Knowledge Seekers (KS) you understand very simply, does a Big Bang happen in the womb of the mother which creates a child? Do we

see Big Bangs all the time around the Universe, when a star is created? No, it's little by little. Energy's absorbed little by little. That cell absorbs very little energy from its environment from the womb of the mother, it becomes a kidney. It absorbs more and more, it becomes part of the bone, and absorbs more and more of the environment and structures of man. Was there a Big Bang? Even our own scientists tell us the sperm has to be pushing itself to get into the egg to fertilize it, to create the first cycle. This is now we understand how these misguided people have created so much that has brought us to believe in misguided knowledge. If a Big Bang ever happened, then there is a Big Bang in the life of every creature of the man, a child of the man in the womb of the mother.

(:28) The womb of the mother is the Universe. Now you understand, how we pick from the knowledge what we like, we understand, but we cannot, we have not been given the intelligence, or guidance to see the comparison. As much a life of a child is a creation of a new Universe, as it is creating of another Universe in the world of the Universe. Then you understand. we come through process of interaction of the fields, we are created out of it, and then from it we create ourselves, which is the creation of the STM, which then becomes part of the structure of the creation of the bigger structure. If one cell missing on the skin, you feel the pain, body has to repair it, it's the same as one piece missing in the Unicose, it has to be built, it has to be there. And in a way, as we restructure our

skin every 28 days, done automatically, it's the same thing happens with the Soul which this greenhouse of the planet Earth creates. These Souls are destined position, the "skin" of the Universe needs to, needs certain things, process, in a given position to be ready, because its cycle is finished. A cat dies, a king dies, a man on the street dies, a tree gets cut down, burned and dies. That Soul is prepared, ready, for that position of the "skin" of the Universe, that energy position, to be replaced. This is the purpose of the Creation. This is the purpose of understanding the Totality. And not, "Oh, we are different because we are human. We are different because we are ignorant." (:30) Our only difference is the ignorance of the Creation, to fit our own little imagination, misguided imagination. Then they say, "What's the purpose of life?" What is the purpose of that single cell on your skin? It's to keep you alive, to keep the cycle of life going. So, now that Soul is that little thing, which needs to be at a given position, because it's needed to replace the new, replace to become the new, replace (repair) the wounds. As I said, in the world of the man, we see, okay, a needle goes through our skin by accident. We feel the pain, we take the needle out. In the World of the Creation of the Earth, we call it a meteorite. In the structure of the Galaxies, we call it, Galaxial ??, which means, particles from the outside the Galaxy come inside. We have the same process on the boundary of the Universe in the Unicose. Energies, fields, material of the bigger dimension (D),

enter the Unicose. Create wounds, create injuries, create dimension of the Creation. They need to be done. Then we say, "The guy accidentally died." Just accident happened. Yes, something hit somewhere. There is a need for an emergency replacement of that seed for it, to cover it. It might take in the time of the man, maybe one billion years to do it, but in the life of the cycle of the Universe, it's microsecond of it. Then you understand, why some of us die accidentally? Why some of us die without any reason? Why... There is a purpose that we live 70, 80 years, because, the skin of the Universe needs to change, Every, let's say, 28 days of the Universal Cycle,

(:32) and now we are prepared, we are ready for that position. 80 years of the man, 70 years life of the man, creates that position, for the Soul to be ready, to be part of the biggest structure. Now you understand, when I tell you, I've said for many years, that, the STM become that star, the STM become that Galaxy, because, that star is in that position in the Universe, to cover the dimension of the physicality of the Universe. Your skin doesn't just appear, somewhere creates a cell ready for it, that under 28 days or whatever, to be there to replace, is your time off, I take over, and what is taken off, adds to the other energies, or fields, or become part of the material of this planet, and used by the others as energy. Then you understand the purpose of life, there is no "Day of Judgment." The judgment is made, if your Soul becomes a Creator of the Galaxy, if your Soul becomes Creator of a star, if

your Soul become Creator of that dust, which is nothing. What's the purpose of 70, 80 years, 50 years on this planet, and become nothing? We are proud that we are a doctor, we are proud that we are a professor, we are proud that we are the head of the street cleaner, we are proud that we are the chief, whatever. In the level of the STM, you're proud to become that star. You're proud to become that Galaxy, and then you understand the purpose of life, the purpose of the Creation. Then you understand there are no coincidences,

(:34) there are no accidents. Accidentally, if it is accidentally, you accidentally cut your arm, the skin, then accidentally there are cells who come there to repair it, accidentally they that make it outer skin, accidentally, they sealed the wound. Those cells came. You just look at the Oh, the blood vessels and God knows, everything else, blood, everything else, and the lymph came, and they sealed it. But every one of those is a cell. It has a Soul. It has a center, which you receive instruction from the brain of the man, where, you've got to be there. There is a cut. You have to seal it. And millions of us go there to seal it. This is why man dies in thousands every day, because there's always need for replacement. This is why I kept on saying, that this planet is not a greenhouse, is a growing house for that purpose, and we are not the only planetary system, with such a structure. The Universe is huge, and it needs, demands, huge replacements, huge re-creation of life.

Then, what is the purpose of me living? To become a Soul, and become a patch coverer of part of the Universe? But, in that patch I create a beautiful life, I create a beautiful life for the others within it. I give, I never expect to receive, because this is a part of the process of the Creation. Now you understand, how the teachings of past few weeks come to show you what you are. And, how you can use this, the way the lymph uses the energy from the stomach, to reach it to the bone, to become a bone marrow, uses energy transfer.

(:36) Direction where it's needed. What field needed from which hole on your bone, to create whatever cell in the body. And it's due for that much to come. So, if you understand, it's pre-set, pre-tuned to given the strength, from the lining of the stomach, to the, what we call, entrance to the size of the hole, which can allow that energy to go through, to become bone marrow in the center of the bone. So, it uses transmutation of the system. Transmutation of energy of the system, because the lymph is always there, it just takes it and delivers it. This is how, when you feel thirsty, suddenly with one sip of water, in your mouth, the rest feels satisfied. You transfer energies of it. Your physicality of it is more or less nothing else, it's just a process to be done. Then you understand how you transfer your Soul. The transmutation, understanding the work of the lymph. You understand the work of the transportation through galaxies, through the spaces which they tell us is empty. As I

said, if there is an emptiness in the body of the man, you find emptiness in the Universe. In the lack of understanding of our scientists, we call him, the space is empty, but, when you look at the inside, the stomach of the body of the man, when you open it, you see lymph, and the cells are floating and they are living .. amongst it, within it. Now you understand how simple the cycle of Creation is. It's just the order of magnitude, the size of the thing, and nothing else. And once we understand this, it becomes easy to transmute, it becomes easy to transport, it becomes easy to do both at the same time. Be energy in one place,

(:38) and by coming through a conversion, become matter in another place. And going back out of another position, through a Nano layer of the head of the bone, become again energy in the dimension of conversion at a point, a place and time. Now you understand, how simple the cycle of Creation is, how we are created, the reason we are created, why we have a Soul, why we structure ourselves that way. And then, once we understand this, everything else about the work of

the Keshe Foundation becomes clear. How energy converts into matter, how energy converts into gas, how energy converts into liquid. These are all different process of the creation manifestation. It is not if we create it the right strength, it'll end up to be the cell of the liver. If you change and create the right strength, it become a gas in your stomach, and if you create it in

the right strength becomes the saliva water in your mouth. But in essence, you didn't drink a water that is for saliva only, you didn't drink a water that is only for a cell in the liver, and you didn't drink a water that it becomes a gas in another part of your body. And then, if you understand this process, by changing the dimension of the position in the body of the man, you see how you can convert the gas into liquid and the matter. Then you understand, only you need to take the energy from the Unicose, from the Universe and convert it by different interaction of the STM into energy, which then can convert itself into different part of the body of the man. Which means you do not need to kill, you need not to destroy, because you haven't learned to tap in a bigger energy. And this is the whole process of the teaching,

(:40) how to tap into universal energy to become part of the Universal Community, then this brings what we call, peace. Peace to the life of the man, peace to humanity. And understanding man does not take a life to be alive. Man needs to be part of the work of the Universe to be alive. As I said once to a child, maybe you understand. If the energy of the Cosmos, Universe, can feed the Galaxy, you don't think it can feed the STM? Then, if that can be done, if you understand how to do it, (do) you need to kill for it, or you, through the same structure, connect to every cell-soul of the body of the man, and you feed it, through his Soul. Then there is no need for killing. There is no need for ending of it. There is no need for,

in a way, the destruction of a Soul. Maybe this is how we understand, maybe we understand more about the process of Creation, and how real Creation works. And how we ?? do to our creation and the Creator. And how we can go forward in the next step of the cycle of life. Maybe now as Knowledge Seekers you understand what has been said for years, you do not need to kill, but you need to learn how to live in the dimension of the Universe, and not in the dimension of physicality of the man.

(:42) Then we understand more and more, we understand what real life is about. And does life mean in a physical dimension? Or does life mean in the dimension of the Universe? Does it mean we actually never die, because we've come that star in that position in the cell of the structure of the physicality of the life of the Universe. Then in this process, if you understand this, you come to a new dimension and new understanding that man in the dimension of the fields of the Universe never dies. It's an everlasting life. It's just understanding where the life is and how the life is and how it was created and it never ends. Those who look for a "Fountain of Youth" and everlasting life, have not understood, they have already came from another life dimension fields, and they will transfer through to another, through the STM, to another dimension. So we never die, we are part of the structure of the Creation and the Creator. And the Creator never dies. If the Creator has a cycle of ending, so shall be all which has been created within

it. It's not just for man. And then we understand, we are part of a much bigger process, that we have not even understood, but gradually we can see the bigger structure. As it's not just a Galaxy in that position. Maybe in the future, when our scientists can look deeper into the Galaxy, into the Universe, into Unicose, say, "Ooh, we are a cell in the kidney of the Creator in that position."

(:44) Then we understand the whole structure of the Creation. We are very good in mapping every cell, how they look, how our DNA looks, and everything else. The future scientists map the DNA of the Creation, and the Creator, and is not very far from the structure of the DNA of the man. "I made man in the image of Myself." And then we understand how to communicate, how to connect our RNA into the Universal fields, and what life means, and how it takes shape. And then, as a human, we find out that we have just started learning about the Creation, about life, and then we understand, all diseases of today will not exist, all diseases of today cannot exist. Because the disease is in the brain of the man, and it's in emotion, and not in the physicality of dimension of existence of the man on this planet. This is why we create psychosomatic condition. As I've told you in the past few weeks, we brought the next dimension to it. What about your environment? And then your psychology, and then what it does to your physicality. This is a new understanding and if we understand this, we move to the next step. We understand more

about ourselves, and we understand more about our connection to our Universe, to our collective structure of the Creation. Then we become part of the Universal Community, because in that patch, in that part of Universe, is not covered. If the energy has not received by that cell of the kidney of the Universe, by STM which is there, it lives as a point of dimension, then, that miss-functioned, and there cannot be no imperfection in the world of the Creator. Now you understand how life is. How everything is connected to each other, but due to the lack of understanding of us, and misguided (by) those who call themselves scientists, we have become narrow minded just to look in our pocket. But we are in fact, we are in a pocket of the bigger structure ourselves. Then this brings an end to all the fallacies of the, the Last Day, the Promised Day, and the rest of it. There is never been, there shall never be the Promised Day. It's one (day) to another and that'll be that day. Today you're a Soul in the body of the man here, and by departure, you become part of the structure of the Soul of the Unicose, to patch that wound, that crack, that meteorite, or universal light, which came to the Universe of man and needs a puncture to be repaired. Then, everything in life, has a time, destination, and a point. This is, then you understand why we chose Universal Councils, why we chose the Earth Councils, why we brought in the structure of the Satellite Souls, and the rest of it. You work on a physical dimension. We bring a new dimension using the physicality of the

man to connect to the dimension of the Universe. In a way, link it up, where the link was missing. I hope I opened your eyes to the dimension of life.

(:48) Life as a holistic. Life of your Soul, which is part of the structure of the Unicose. Not life as part of the physicality, which is part of the structure of this planet. And then we understand what the next step (will) be if we are not prejudiced, if we are not misguided, if we are not narrowminded, just to keep to understand what is here and leave the rest to my Soul when I'm gone. Then you find out you have a lot to learn to get to that point. I hope as usual I opened another door, a crack in the wall, that it brings down all the misguided understanding of the past and you become to enlighten yourself. If you listen, which is beautiful every time I hear it, to the disclaimer of every teaching. Embedded in it, in the word of it, in the ethos of it, it keeps on telling you, this is individual cases, it's your job to investigate independently, to peer review, if what they did suits me, if it's correct to me. It's not just for your illness, it's for the illness of your mind, your understanding of your own World of Creation. And then you understand, even each Intro gives you, what I call independently, you decide, "Does this fit me, do I understand it, where I missed?"

(:50) And, "Does it go according to my intelligence?" This is why we never have a peer review, because in the words of the disclaimer, it's your job to investigate, to your understanding, and if it befits you. We go for a break and we come back and try to answer some of

your questions. Rick, will you take us to a short break?

>> BREAK >> 556 KSW September 19, 2024

Part 2

(:56). K- Yes, thank you very much. Just couple of announcements. Keshe Foundation has launched another cycle of these Twin sets (Twinity Gans), this week. One is for, what's it called, 'Sleep' (Snooze), and one is for those who suffer from, or would like to test themselves with different conditions of ?? Pressure (?? TopAtEase). These two products were launched yesterday and it's part of the Twin systems and most of your products should be with you sometime from next week and everything is just meeting as usual with the Keshe Foundation, the packaging to be done. And you should be, you should be receiving most of your orders for all the Twinity system and some of them are especially made for certain cases.

(:58) So if you look at the condition of like insomnia and the rest of it and some people like migraine have or you know some cycles. We can use these, what you call it, new inventions in the world of science. On the other hand we will go ahead with our process of teachings and the process of delivering the

technology in a new way. And you might hear in a very near future about some developments around the Keshe Foundation which will bring us in more in line with what we actually do, than working and being controlled by structures like Fox. As you all know Fox Magazine or Fox News has put a total ban on Keshe Foundation since 2012 due to the pressures from the Kingdom of Belgium. And as you understand how they work, they list and tell everything their way. But most probably in the near future we'll find a new way, the Keshe Foundation to be brought out internationally. And we'll be seeing it as it develops hopefully, because it's beyond the reach of these people. If there is any question, we'll try to answer and we'll see how we get. R: ... Well, I did see in that, in the store there was, I guess, two new products,

(1:00) but they don't have the pictures up yet, so I guess another day or two before the further information on those. K- Yes. because there are new bottles apparently, which is come in. And you will see it through them. By the way we have... Before I forget, before I forget, those of you who are in the session tomorrow, please make sure by tomorrow morning, your morning, you see, you check your time, your date, which, which starts, have been allocated. Some of you are moved to new positions because new groups have been set up, by the structure because we now have a strong Chinese group, which for the first time they join us, there will have to be some accommodation for them. And some of you might be

moved from one group to another, or your time might have moved by one hour forward or backwards. Because the numbers has increased, so we had to accommodate this structure, for everybody to be able to join in. And if this increases to a limit, we'll... I will allocate two days next month, than one day, because it cannot be done, it has to be a process. We heard from many of you, in the August session, that you felt a lot of changes of physicality, a lot of people felt a lot of things, physically and emotionally. Please write to us and tell us to understand more. As we are talking to more people, from the groups of August, we see huge changes, people went through a physical dimensional change in many, many levels. As we heard from one about the stopping of the bleeding, he was with us last week, and to the others who went through the same process.

(1:02) The Wellness Center of the Keshe Foundation now, is going through that evolution in the science. And as I said, shortly we will close the German center, as it's more or less the systems after two years have become obsolete. And, some of the people who were on the old system, will be moved to the new system, or be re-invited to use the new system. And, we'll see the strength of the change and what it's going to bring. Those of you who are interested to use the Wellness Center, operation in Germany still runs, but the systems have moved and then most probably in the future we move these systems, back to another location, to expand the use and the application of the

technology, in many, many levels. So, those people for example, who get in touch with the Wellness Center, about Parkinson's, cancer or whatever, just as normal, get in touch with the Center, and then normal, they put everything in order for it to be done. If there are any question we try to answer? Q: ... Mr. Keshe, I have three questions if you will allow me.

(1:04) And also I have a thought that I wish to share with you that literally came to me immediately after a session of meditation. It was very interesting, it felt like it was placed within me, similar to when you received the communication through the Soul where you could hear their voices. It was very, very interesting, if you'll allow me. So, my first question is actually a twoparter that we can get through it quickly, I'm sure. And it's in regards to the condition of creating invisibility. If, is all the matter state within the magnetosphere of the central energy invisible. For instance, if you were wearing a backpack full of items etc. Would the totality of the matter state within the magnetosphere created by your Soul also be invisible? K- What? Can you repeat it? Q: When a person becomes invisible, is the totality of the matter-state within the magnetosphere created by the central energy, the STM, is the totality of that matter state invisible? For instance, you're wearing a backpack and you've got like a sleeping bag in there, etc. stuff like that, would the totality within the magnetosphere be invisible? Thank you. K- Yes, because it's a dimension of encapsulation. It

doesn't matter what is in its envelope. The envelope covers the totality.

(1:06) Q: Yeah, okay. Thank you very much. The second part of this question, can you stop a... when invisible, can you stop a person physically hurting another person? Like a stabbing, for instance, that's been making the news a lot lately, by this I mean can you disarm a person from killing another person and still stay invisible? K- You cannot interfere, you cannot... you cannot interfere. In the dimension of your Soul, you have that limitation. Q: Yeah. Yeah. I see. That's fair play. Okay. Thank you. My second question. Sorry. Let me just have a quick drink. Okay. Question two. As a central energy can implement a condition to be in multiple places at the same time, does this include the totality of the Unicose? For instance, the physicality, the body of the man being in three different places at the same time on matter state, blue planet Earth, teaching plasma science. And the central energy, the STM also creating a condition to be in 3 different places within the Unicose external to the magnetosphere of matter state Blue earth planet interactive with Universal Family all 6 places dimensions at the same time?

(1:08) K- This is this is something you got to try. Usually the two position is very easy, to be in multiple position needs a lot of understanding. And in a way it's possible, but in a way, man have not reached that point of maturity. Q: No, but in the future humanity will be able to do that if the ?? Soul comprehends. K- You

have to know the trick. You have to know the way. As in a simple way you can be in every single cell of every created things on the Universe, the way the Creator is. You just got to know how to do it. It's not, no it cannot be done. You can do a lot of things. The Soul of the Creator is within our Soul, and 7 billion of us, 8 billion of us walk this planet, as humans. So how does he do that? Man has to learn first the singularity and then do multiple, then to reach to that point ?? to be everywhere, it's another dimension. Q: Yeah, when you say how does He do that, does that, does He do that with direct relation to... K- You know... it's Q: ... to a Black Hole in the STM. K- No, no, no. It's totally different understanding. This is all far beyond the understanding of the man today. Far, far beyond. But in a simple way...

(1:10) You have one seed of let's say wheat, you cultivate it, it gives you 20 seeds, then you cultivate that 20, it gives you 400 seeds and you understand the rest of it. But the essence of the first seed is still in the last 400, every single one of them. And this is the way the Creation works. But you have to have a fertile land for the seed to grow. And the Soul of the Creator has the dimension that it could do, or create what it is. Is the seed of the Soul of the Creator on the central line of this Universe. Where itself comes from another dimension of the Unicose. It's... you don't need to imagine, if you see the structure you can see the rest. Q: It's interesting what you just said there, because that actually leads on to other questions I have that I'll

ask in future... future weeks. Alright thank you very much. K- Thank you very much. Q: ... Can I just ask my third question, it's a very quick one. When do you think blue planet Earth will be using the Knowledge of Creation as a planetary unified currency universally accepted throughout the Unicoise, rather than the suffering creating country specific, intangible border manifesting, slavery upholding, currencies for money. K- This is the choice of weaknesses of the man, (1:12) if I can put it that way. We are... You're not in Europe. If you are in Europe, if you live in European Union, Germany and France created no border. Interesting enough, Germany, as of this week, has introduced the border. You understand? For 50 years they pushed and they pushed for no borders across Europe. We could get from Spain, Portugal, all the way to Czech Republic and beyond to the Russian border, no checking point. When it did not suit or it does not suit Germany, Germany as of this Monday has introduced border checkpoints. You understand? To cover the problems they have inside, blaming the others for their shortcomings. And we see it. Man changes borders, makes borders, divisions as it suits and as to benefit of. And it was very interesting, this week, suddenly out of nowhere, kilometers and kilometers of traffic on German borderlines appeared. And the other interesting thing was like a Polish president, he says, "We allow 2 million Ukrainian, but not a single Muslim." And we... they've given

instructions to their soldiers to shoot any Muslim trying to cross their border.

(1:14) So, we create these conditions, and to suit. Borders has to be disclaimed by totality of man, not by those who fits them the way it fits them, the way it suits them. And it's interesting how the next step, we... There is something very interesting if you look at the political world of the mapping. We know how America came together pieces by pieces, and then became different States, who bought how much they paid to get it, from Mexicans, and the rest of it. And ... there's a general understanding in a very, very high levels. Those who actually operate this planet, I call them, in understanding of. China was helped, during the Mao Zedong, to come out of this huge land of poverty. Now becoming gigantic industrial force, one of the biggest economies. You have to understand what we call the economy of a Big Mac. How much does a Big Mac cost in Beijing? How much does it cost in New York? The buying power, how much you have to pay to get one. And we see a cancer treatment in China cost 20,000. The same cancer treatment in America cost 2 million. You understand the difference? It's the same thing. A breast cancer in America

is 2 and a half million. I know somebody who just went through it, and unfortunately... They pay 2 and a half million. For cancer operation, Chemotherapy and the rest of it, over 6 months. And, she lost her life, they couldn't get it right.

(1:16) And, the same cancer treatment in China, costs less than 20-30 thousand. And in some countries is free. So, you look at the economy of the America as a false economy. You divide American, what you call it, GDP by a thousand, sometimes by ten thousand, then you see the real and you compare it with the others. So, now what we've seen in the past few years, China has become a huge economical force. And now every effort is made to break it up. European countries are announcing that, they're going to nationalize all the Chinese investments in Western Europe. This is what's on the plan, they're pushing it. We see American putting tariff on Chinese to stop controlling everything else, and the rest of it. One thing, one thing which is off the radar of many people, people don't like America becoming a superpower. The way you've seen, they push their naval forces and their rockets and everything else. And as there is a plan to divide and split China or bring it under control, there is a bigger plan to split United States. This is what you see in your elections, there is actually, there is actually a government set up by the Americans, those who are setting this up, to see the split of United States. This, this, this structure is monitored by one of the biggest national organization in America. They are preparing, they have prepared in past 12 months, the structure, they chosen, they have chosen a President, everything is there. In a time of crisis, which they think it'll come in the next few months if it happens, that they organize the separation of the two states, you're

going back to the blue and the red flag and the rest of it. It's already under preparation.

(1:18) And we know one of the leaders who has been appointed, or is to be appointed for this committee, it's a committee of the separation. So, the way they are trying to split the Chinese, there is a structure, trying to split the United States, not to be such a big power force, that they muscle everything. Once you split America, these naval forces, these things going to be split, and it's going to be divided. It's very much like the richest man on the planet ... Excuse me, can you close your microphone, please? The... the biggest problem is that in... what we say, the richest man on this planet, a few years ago, had a divorce with a wife and he had to split, and he's not that richest man in the world anymore. And this is the same plan going on for United States. What you see in narrow close connection and what you call, election, has a reason. There are those invested in trusting Fox (News) that they want to see this split. They had to, because this country has become uncontrollable, and they built any weapon and everything else behind it. So, as much as they talk about China growing and they're trying to break it down, there are forces which are trying to break United State up, and they're very good at it. They've achieved 80% of the target. If they don't achieve with this election, next two, three elections, they'll get it. They've prepared the ground for it. So, then it comes, do we need borders? Do we need sanctuaries for people? And then, it comes to within

nations, when we can feed everybody else with everything else. And this is part of the structure, which is ongoing, and there cannot be too many big for too many things.

(1:20) So we divide the nations into smaller nations, weaker nations, that we can all live in peace and nobody is above the others, and we carry on the way we've done before. So, when you talk about borders and control of it, and understanding of it, this is a new structure, which has come out of economical pressures. And usually when there is this kind of things, first thing you go to, to not to blame by yourself, it's to blame the minorities. Hitler did it with the Jews, now the same nation is with the Muslims. Nothing changed. Now there's a different flavor on the table. And we'll see this, and then we'll see who's forcing it, who's pushing it, and the rest of it. Any other question? Q: ... Are the magic (magnetic) fields that lead to the creation of a Soul the highest strength in the Universe? And if not, how come the central energy can stay intact anywhere in the Universe? K- There are not fields connected to these field forces, these energy centers are built from that source, that energy. You're looking upside down. It's a structure, everything we are all connected, we can all get connected to a central point.

(1:22) What you call the Creator. It's within every single cell of the human body. It's just ... knowing how to get to it, understanding how to get to it. And it's not the Chinese system that one level cannot talk to the

other, unless you have permission. It's enlightenment and how you can reach it. There is no control built to stop you reaching the Creator, and there are facilities made for everyone to be always in touch with the Creator. It's just you have to understand the path. And the only path to it is detachment, and one day you understand. If you understand the true meaning of detachment, then you truly found your way into the One who's created by detachment. That's the Creator of detachment. Any other question? R: ... Well, that was actually the magic word that Gail had in part of her question, that was trying to be formulated in the Plasma Group, was the word detachment came up. and trying to get more of a handle, more understanding of, of how that is used. And it seems like detachment is the... or at least the, a key, if not the key, no matter on what level one is at.

(1:24) If you want to get to the next level, you have to detach, at least somewhat from the previous level, in order to get to the next level. K- I explained this, I used to teach children about the Knowledge. If you understand the, the concept, you're going up a ladder. If you hold on the 2 pieces of wood, which you're holding with your hand, and hold on your, your put your feet on each, what you call it, level. When you're mountain climbing, you can't go anywhere, you're stuck. You have to detach one hand from one bar to the bar above where your other hand is, to be able to go up, to climb up, and that's detaching yourself, trusting that the rest of what you have created will

hold you on to go up this, what you call it, rock climbing ladder. And as long as you have that trust that you can detach yourself from anything else, because this could be the last time, you're holding to something because if the other hand let go or your feet goes, you're gone. And this is the level of detachment, this is one of the best tests for a man for detachment. I don't know if you've ever done mountain climbing and pulling yourself off a ladder. It brings a lot of senses, you do it automatically,

(1:26) but if you stand still sometimes when a doubt comes into your mind, you go up automatically to the next one. But you have to be detached from it. If you don't let go, or of that hand, you're stuck in the middle of the mountain, climbing what you call it, ladder. And if you don't move your foot from one step lower to one step higher, you never move up, because it's that foot which pushes the weight up, that the thrust when I let go, the foot will come. And it's exactly like man.

Trusting in, I'll be pulled up, I'll push myself up, and being detached. That handle on that bar, you detach yourself from to go to the next rung, is exactly how your Soul is. But that push of the leg is a trust in your knowledge, trust in correctness. Which brings you to grab the next wall, next enlightenment, next step up. And in reality that's a true detachment. You detach yourself with the trust that I'll grab the next bar. And I cannot reach there if at the same time the foot which pushing me, the knowledge which pushes me up to understand enlightenment, will push me up and be

there. And if that leg slips, which is the lack of your understanding, you go down. That's what it is. So detachment has to come with the knowledge. Not just "Oh I give everything and then it comes."

(1:28) I go with knowing the knowledge that the force to push me to the next level is within me to carry me. There is nobody there pushing your leg up to the next step. Then, this is a very easy way to understand, detachment has to come with a knowledge, that there is a force behind it, that it reaches you to the next level. And in a way, if you look at the structure of the Keshe Foundation, it's built on this detachment. It's knowing that you're correct, knowing that you share the knowledge, and knowing you don't need to carry, because you know you have built the structure that it carries you forward to the next step, to bring mankind to the next level of understanding. And in a way, this is how we run the Keshe Foundation. By total detachment. Knowing that the next step comes in on its own. Even we use a foot knowing that it will land in the right place, in the right time. And this is the structure of being detached and trusting in yourself that you have within you to understand what it means the next time, next step, next grasp. Any other question? R: Good, thank you Mr. Keshe, That was good. I think the way you run the workshops is a study in detachment, in a way. How many pages of notes do you have today, to go off of Mr. Keshe?

(1:30) K- I never carry any notes. Those who've been around us for teachings for years, they know. Nothing

is... Our note comes from the note of the Knowledge of the Universe. Q: ... Mr. Keshe I have a few questions, I don't know if I'm allowed to answer them, but I'll ask the first one. So Mr. Keshe, bringing us back down to Earth, so we've had some situations recently where some people have lost their physicality's through a device that's been positioned and many people carry it in their hands. Could this device be changed to a Plasmatic device to aid humanity instead of taking away the physicality? K- This, what you're talking about, we all know what it is. You have to understand, this tribe of... did the same thing, from the beginning of the time of their Prophet. Killing, maiming, destroying, is the pattern of their work. And, this is not the first time, this device is used, this kind of system used. And this technology was initially tested by Lockheed Martin and American Defense, April, May of this year, they just transferred the knowledge to the, to this new group. Yeah, if you go back I've got the link somewhere, show how the American proudly show, that they have managed to do this.

(1:32) And they tested on 20 locations at same time. This is the same technology, and on the back of it, is part of the Keshe Foundation Defense Technology. They have access to it, and so using the peaceful way they use it, the way we see it. And, in a way, every single device, it's not just a device, they have planted anything which is got a battery, Lithium battery, even the cars have exploded in the past 24 hours, using the

same technology. These people will not stop, and this madness will not stop, till somebody stops it in a totally different way. And we have suggested how it's going to be done, we'll see in next 2-3 weeks if we are listened to, and we'll bring an end to the state of Israel, the way they are killing people today. This is a very clear message to Tel Aviv and their leaders. It's not just this time, this technology. We bring an end to the regime, present regime of what you call it, Netanyahu. Not to the end to the State of Israel. And this is coming on a back of, what I call, as a guy said very recently, a madman being given control of a truck. The whole structure can be changed. When you use a plasma battery, plasma energy device, you do not, you cannot create such a condition.

(1:34) When you use a plasma device, the minute you open it, it contains itself. Even if it becomes into shrapnel crossing somebody's body, cannot harm. You go through spaces. And at this moment of time, such a plasma technology has been developed. In a way, some of you, when you receive your gas system, you understand, if the gas system runs out of control in production, it will not explode, once it opens up, it collapses back in, and there is no possibilities of, in a way, damages. And what we've seen in the past 72 hours within Lebanon is actually work of a madman, added to bunch of people who see this the way what they did, what was done by their Prophet. He killed even the people who fed him. He raped every woman in the village when he was brought up before they

killed the woman. So they say an apple doesn't fall far from its tree. And we've seen the guy and his demise. Now we see the demise of this, culture by themselves. But there is a way to do it and that way has already started. It's just that if our way is, listened to and we've been told, yes it will be done.

(1:36) We will see very, very soon a very dramatic conclusion to this situation. In this killing of hundreds in one go and thinking, oh, we are, we are Mossad and the rest. I want to show you something, what it means when a bomb goes off. Maybe, I share with you. Because, I was a recipient of such a bomb, very recently. A bomb, when it goes off in your hand, is not something which you think is something different. It is one of the devices you use yourself daily. They just put a miniature bomb in it. And luckily, I was very lucky to, first of all, not to be in the line of explosion.

Secondly, unfortunately, the hotel room was damaged badly. And let me find it, I'll show you. It's a horrendous feeling when a bomb goes off in your hand. And when you stand there and you look how...

(Let me, I have to go to find it. then you understand this). I've been the recipient of such a bomb two years ago, when the bomb went off in my hand and it was personal.

(1:38) It was targeted to create direct hit. Most of it would go through intestine and what you call it, the rest of it. And when I walked away from it, I realized the gravity of, if I would have been 2 centimeters in another direction, it would have ripped right through

my intestine, the face and everything else. And they have become experts in these miniature, what you call it, bombs, the Israelis. And, I ended up with a black hand, a big hole in the wall, and pieces of what you call, the personal bomb put in by the Israelis to kill, in my hand. We keep these things away from public, but the Israelis know exactly what happened to them afterwards. We showed them, you touch, we touch bigger. (I try to find it, I'm going through my archives, where... I think it could be. Just wait a second). So, when you see these things, it's not the first time. We've seen this on massive scales. In the past two years on another attempt on my life by the Israelis. And, these bombs are very, very small. Very miniature.

(1:40) And it's usually placed in your devices (phones or whatever), which you use every day. They get hold of it. They place 2 to 3 gram of detonation on it. (Okay, I found it, I can show you. Let me... I have to open it). I show you exactly how I use and you can see the date which was used in trying to kill me two years ago. And I know how it feels. And you have to understand, this thing was literally, I just happened to walk on the side when I plugged it in and the device blew up. (Let me go back. I think, if you see what I see. I'll come back on the Zoom). I'm going to share this video, then you see how we live and I know how these people feel like when this happens.

(1:42) This is the cover of a mobile charger. You plug into the wall. You can see 9th of March, 2022 at 11.34.

And you see this is the internal part of the same bomb. And this thing was in my hand. The front of it is usually two plugs which goes in the wall. They came like a bullet inside, they blew the wall up. The back end blows into your stomach. And it kills. And this device was in my hand. I just let it go. My whole hand, as you see the blackness on the white, this is an Apple charger. Look at the 9th of March. If any of you can check, you will see something very historical, which we don't usually disclose. If you go on the date of the 2022 March, you go in the March of 2022, you see, 9th of March.

(1:44) and follow this to the next Saturday. Look at on the 15th of March, go on international news, and see what happened on the 15th of March and what happened on the 16th of March. We try to give you on the 6th, on the 9th on the Saturday. On the 15th of March at 3 o'clock Iranian negotiating team left Vienna, we haven't come back. Saturday the 16th of March, Mossad central, what we call, center, was out of nowhere bombed to smithereens by missiles by Iran. And nobody knew suddenly why our Erbil (Iraq) was hit. We don't plan it, we have people who protect us. Now you understand why Iran walked on the 15th of March out of negotiation. I came back, I flew back to Vienna on the 13th. 15th Iran walked out, 16th Erbil was flattened. We always told Israelis, "You touch one more nuclear scientist, we show you the power." Nothing is coincidental.

(1:46) I know how these bombs feel. I've been a recipient for two times of it. And I know what mayhem it creates. It needs a lot of strength to walk out and just carry on. And you can see by the writing on the top, if you're Turkish it shows you I was in Istanbul. Israelis found opportunity to kill another Iranian nuclear physicist. And they got their message back the following Saturday. It's the same one we told you, we showed on the third of December, 2011. And, few hours later, on the 4th of December, the American drone was captured. Too many coincidences .. R: Mr. Keshe I can show the Wikipedia on that, they have the information, you're talking about 2022 Erbil missile attacks. Do you want me to show that or not? K- No, it's there, people can check. R: Okay. K- It's... We don't ask for it, there are people who protect us for it. We are (a) leading nuclear physics of a planet, not just one nation. And I know how he feels. When the first bomb went off under my car, in Belgium, I saw pieces of bomb going off, but the car was built to stand bombs, at that time we had a lot of protections. And, the car went off, I took hold of it, drove all the way to the Mercedes, suddenly the pieces disappeared, they don't know where it's gone to.

(1:48) Mercedes works with these people. Mercedes is part of the Mafia structure. As we asked for the thing to show, "Sorry, it's gone." We don't know where it's disappeared to. Because they put a bomb, they knew where it works, how it works. And strange enough, the lady, who you all know, claims to be every

time with me, that they says, "Oh, I don't feel good. You can go on your own to Germany." And strange enough, the car was always parked in closed garage, not even in a garden, that nobody could access. The night before, "Park your car outside the house. When you go, you don't wake me up." Because it was arranged already. That's why I suddenly park it outside and that's why suddenly, I can't come. Enemies sits within us. I know how these families feel, because I've been on the receiving end of these bombs. Murder attempts, poisoning and the rest. So, we know what they are doing, we know what they are up to and who's doing it, but, they have to do it to bring their own to an end, otherwise it becomes another Holocaust. They try to kill us, but if they kill themselves, if they dismantle themselves, they've done it themselves. And this is the difference. And if you haven't seen a bomb, this is what these people have gone through, this is an Apple charger.

And it's so directionally bombed.

(1:50) Maybe it's very intelligence to now understand why we got hit on the 16th of March, 2022. Any other question? Q: Thank you Mr. Keshe. It's difficult to hear this, that the things that happen. Thank you for explaining that. I'm sure many Knowledge Seekers, many people around the world will understand what's taking place and be with you and with the Foundation on a Soul level to change this condition completely. K- We don't need to order. We let them feel the pain of the Soul. We never issue any instruction. We operate

through the Soul. It's more powerful and more direct. Next time Israelis try to touch, I'll make sure there is no Jerusalem left for them, or Tell Aviv to run with, even though I have many cousins living in there. Next question. Q: Okay, thank you Mr. Keshe. So, my next question I'm just going to take is a giant, gigantic leap away from this. So, the beauty of what you've been teaching Mr. Keshe, you have a session tomorrow you're holding. And before you've been teaching with the headsets, a certain way of positioning them on the head.

(1:52) Is that still relevant? Do we still need wired devices? That's all the same? K- Yes, you still will be ... This time tomorrow, we are changing a combination. We don't tell you how and why and where. But the way we changed the combination last time, and a lot of people went through physical changes. Physically changed, felt the change. And the more and more we talk to them, the more we understand how. The session tomorrow is again another part of the development. And we try to interfere through different way in the system, and see how you react, or how you become ready to go through the three phases. And it will be most probably for some of you more dramatic and some of you less dramatic. As I said, we asked the gentleman you heard before, last week, he said what happened to him, not to attend anymore sessions. Until he has full recovery and understanding of what happened to him. Those of you who learn how to transmute in the next

few sessions, once you start learning the transmutation, do not attend the sessions anymore, because then you have to strengthen your own ways, and your own understanding, and you have to understand how it's done. Tomorrow's session is ... it's very interesting because it's literally the structure of your life. And we shall see how, as in totality, many of you will respond.

(1:54) And we tell you how to position as usual with the pictures during the beginning of the sessions. Q: Sorry Mr. Keshe, does this still tie in with Iran? Is this still a possibility? Is that change in position constantly like... K- No, we haven't changed anything about Iran, we are waiting for Iranian military to give us the clearance. You have to understand, we are in touch with them on a weekly basis. They tell us they are planning very big, but they didn't tell us what it is. Maybe you few Knowledge Seekers who come in will be a small audience in the whole lot. We are kept in dark by the Iranian military and government in respect to this because they know even the hotel is pressuring us to complete the application, or the reservation. We can't do it till we get the clearance from Iran military. We, I have to explain something very clear to a lot of you and I try to explain this to the Americans. In Iran we are very clear about two things. We have the Iranian nation and we have the Iranian army. Parallel and next to us sits the structure of the religion and their army. Their religion and their army has nothing to do with the Iranian nation. Their path of belief and

work is the way the Lebanese do. They are not Iranian, they are Lebanese.

(1:56) And they have their own army and that's why you see them in Lebanon, in other places in Middle East. They are those who've been brought into Iran. And as a negotiator, I'm very clear about this and understand it's position, that the problem between the Iranian nation and the Lebanese is the emotion of Prophet, what you call religion. They have used the religion to lock themselves into the Iranian nation, some of the nationals. And this is where we make a very clear separation in all our work and negotiation. We stay loyal to the nation of Iran, and Iranian military. Sepah and Ayatollahs are a side part of the Iranian culture, the Iranian, what you call it, attached to our culture. And, the belief of, part of Iranian as Muslims, they have used to manipulate. So, when we speak about Iran, I always explain to you, I work with, the whole and through Iranian nation, Iranian government and Iranian military, on defense technology, not with Sepah. That is what they control under the banner of the religion, and at the moment they are in that structure. But connected through belief to the Iranians who are Muslims. And this is where the separation comes and this is where the commitment sits. And I, in all the time you asked me, I always says, "We are waiting for Iranian military to give us clearance." Not the Sepah, we have nothing to do with it.

(1:58) And these are Iranian devoted to the nation, to guard Iranian borders. Where Sepah is devoted to outside Iran, to Palestinians and the Lebanese and that side. It's the difference between the two. And in all our work, we are very clear. We stay loyal to Iranian nation and to the Iranian army. And we respect the other side. But do not work, or go through, but respect their position, and they are in position of power. So, if you understand this, you understand we're waiting for the Iranian military to give us clearance to be able to demonstrate the technology in Iran. Q: ... Dear Mr. Keshe, how can the body of planet Earth be restored so that the present killing and the mistreatment of parts of humanity can be healed, and restored to that perfect structure of the Creator? K- Just one second please. ...

(2:00) Carry on, can you rephrase it, please? Q: ... How can the body of planet Earth be restored, so that the present killing and the mistreatment of parts of humanity, can be healed and restored to that perfect structure of the Creator K- Ooh! We have to change the DNA of the man. And has to be changed through the connection of RNA of it. I explain to you, it needs changes by the wish, and changes by a structure, and one leads to the other. And we see this on what we call, "My wish is my command" if you understand it that way. And because I... And to do this you need to change a lot of things. Last week we spoke about the connection between the Earth and the Sun. May of last year. You have to change fundamentals, that

changes the habit, changes the environment, changes the Soul, changes a lot of other things. This is what I said, what happened last May was not coincidental, but was set to be.

(2:02) You have to change everything to reach to that point, and when you change things a lot of some things move and change to accommodate the new condition. May of last year we saw the Aurora right across the planet, northern hemisphere, and we explained to you how we've seen changes suddenly. In different locations, we see some changes in the pattern of behavior. And this thing doesn't happen accidentally. I tried to open a lot of things for you to see and to understand. I explained to you how the rapid surge of the magnetic field of the planet, from the Sun, brought new changes. We saw that aurora, we received a lot of field energy through our Soul. So, part of that has changed our structure, because this is my wish, this is what I want to do. I have to change the STM, elevate the STM. At the same time, you have to change the environment of the planet, to fit into the new structure. And so, when you wish it, the Soul of those citizens of the planet, bring it to about, to happen. And this process does not happen overnight. As I said, if you want to do it, then they say it's a magic. But, if you set up and become part of the nature of the man, it'll change that way. I want to show you something I shared, which is very confidential, but maybe it's time for you to understand something else. If you go on the,

(2:04) what you call, Wikipedia or go on the Internet, I've printed out for you to understand to see. Let me see if I can find it. And I'm going to show you something which is going to shock you. This is, if you go on the Internet, about the storm, which started May the 7th. It's a normal, start up with just a normal explosion on the Sun's surface. This is on your internet live stream earth.com and space.com. But go over to the other one page. Look at the last topic. It says another round of severe and extreme solar storms expected. That's a series of CMR expected to merge and reach Earth near midday on May 12th, 23, causing another large geometric whatever. This is what is on your Internet. The date, 12th of May. The Earth hit by biggest storm on 12th of May, peak at 12.26 p.m. Eastern Standard Time. Now I show you something else.

(2:06) Severe geometric storm will bring widespread aurora this weekend. Now I want to show you something. Look at the date on the top. These are Chinese leading scientists, Military Defense Space. This test started from 8th of May. I explained to you how we create the storms. This system, running at that time. These guys you see in the background, they're some of the top Chinese scientists. And on the table is the system which has caused the extraction of connection. There's a video of this, and you all know the face next to it in that meeting, Wang Lin. The storms, the connections, is part of the structure, of

restructuring to bring the condition. And I don't need to say anything, picture speaks a thousand words.

(2:08) We can connect everything, but we have to facilitate everything else for it. We have to bring a condition to be at that point. And when the STM sits to bring a change, the whole Universe works to do that, because our

wish is sincere. I can show you videos from the 8th of March, 2023, where we set this thing up to start going. And so, the connection wasn't accidental. Now you understand, when you have a wish, wish has to be that it fits everything and everyone and at our level to wish for peace has to change everything at the same time. The face of these people in the background, the West will give the right arm to get them to know who they are. Leading scientists in Chinese military, Space Defense.

(2:10) These are the people I work with. And we bring the change. And then you understand what happened and how that came. It wasn't just a storm, it was bringing the change and the change has to come in a correct way. And it has to accommodate everything. It's not just a man. We have to change the climate that it fits the animals, the plants. And everything else is set up by the Souls who work to achieve the same. When we speak about the world peace, we have to structure it that it is achievable in all levels, not just for man. And when you had a shower of that Aurora, the dogs, the cats, the ants, the trees, all received it. It

wasn't just for man to see the light. And this is important to in a way understand for many of you that our work is not just accidental or coincidental, our work is in absolute perfection.

(2:12) And we have to consider every aspect before we take another step and make sure it's inclusive of everything. Plus those who live beyond this planet, that it doesn't harm them at the time and everything else is in absolute harmony. And this is part of the process of what we call, the Creation. And it's important for many of you to understand this. As step by step, things will take shape, and things have a purpose to in a way to go this way. There is a reason, and this is part of the structure which is set to bring that change. Any other question?

(2:14) Q: ... After hearing today's teaching I need to rethink. So, if I die, my Soul goes to fill the Creator's need of regular repair, be it in the solar system, galaxy, universe or cosmos. The length of these systems, so-called empty space, which is very packed full, sends out appropriate energies our Souls provide for repair. In this state of providing repair, can we still exist and carry on a manifestation, depending on where we locate. K- You are manifested. And certainly it's not the need of the Creator. You are born to serve, there is no need to need. It's a big difference. Very big difference. Any other question? Q: ... In the 554th Knowledge Seekers Workshop (KSW), we learned that the emotion of physicality is the same as the emotion of the Soul, and becomes a common

denominator. The STP, or emotion, becomes... K- It's not the same, it's connected to. It's another difference. Is not the same, it's connected to the Soul.

(2:16) Carry on. Q: ... The STP, or emotion, becomes amalgamated with the STM and physicality. We can then work with both. K- Yeah there is a bit of a misleading, mis-writing in here I should say. You are connected the emotion of STP through emotion of the Soul, not to the Soul. Every emotion has a parallel. And how the Soul reacts to that emotion is what you call fate. What you call, destiny in the world of the physical man. You think and you act when somebody's not around to do a damage to someone. But you go out deliberately, because of your own ego, hurt someone, or even benefit someone. You call it, nobody knows I take my revenge, or nobody knows it'll be a pleasure to see them to enjoy whatever. Let's talk about you're doing a devious job. Nobody knows. And strange enough, what is ?? aware except you and your Soul. Your Soul, in conjunction or in operation or in connection with the Soul of the person you decided to harm, set you up. You walk somewhere and something happens to you. In English they call it the karma.

(2:18) In the World of the Creation we call it connection of the Souls. It depends how your reaction affected, how your reaction, your action created the emotion of. Next time when somebody tells you it's a karma, understand, this is what the Souls do, and the man gets the physicality of it. When you do something

wrong and then you get discovered and you get heavy punishment, which you know you did wrong and you got punished for it, then you understand, my Soul is connected. We always look at the physicality, there is nobody in the room and the other one is in the next room. Physically you are connected to that. Through the Soul the other one has no partition of the wall. The Soul is aware of it, even though the physicality doesn't see. It's how we look at it physically, or how we look at it Soul and the physicality. In a way when you say psychosomatic is "Soul-somatic." There's no psychology behind it. Psychosomatic is with your physical condition. Soul-somatic is what you do in the physical and what the Soul settle. And then you understand more about the process of Creation. And we have used every word for it in English or any other language to cover it up.

(2:20) But we are not "man enough" to stand and say, "That's what is for the physical, what I did in the physical life, and what I received for it in the back." The other side doesn't need to know. It's just the emotion you create, within which elevates your Soul, and in a way the other Souls accommodate. In the English language we call it a karma, or see, accidentally see what happened. I explained this in a very simple way once to someone. If you understand the meaning of it, it's not the maliciousness of it, but understanding how the Soul works. A guy who chose to be unfaithful to his wife, accidentally crashes the car, end up in the hospital and he suffers with it, but

the mistress cannot come, because the wife is there, but the guy's heart is with the mistress to come and see me, I'm in pain every time the wife moves out on the text. That accident is a balance of the Soul of what the action was. And the wife is unaware of it, but the Soul of the wife settles. As I told you, the Day of Judgment before you leave is here, is not that day, which is not. I explained this to someone in a very, very, I call it, the delicious way.

(2:22) You know, when you get old, you cannot be so mobile as before, you cannot do harm, so much as you did before, you come housebound or bed-bound, and you're there. The only thing you can do is by your thinking, you cannot do any more physical damage. That your book is more or less clean, it's just your thoughts or your emotions, the Soul has to handle and that's easy for it to do. And this is one of the reasons we become less and less active and isolated, most of the time as human beings at the latter part of our life. Because the life doesn't need to balance out anything else, as it's nearly getting to the point of departure, I stop him going and hitting the neighbor, having an adulterous life, and the other one, so, there's less Soul-somatic damage, that I have to do, now I handle the Soul, it's no problem. And then, some time you understand, the reason of aging, is the process of cleaning up slowly that you physically cannot do harm. And these things all get connected and interconnected. Any other question? Q: ... Hello Mr. Keshe, last week you spoke about Gianni's sunflower

harvest. How can one elevate the Soul of a plant, in this case the sunflower? If the human Soul can elevate, how does the Soul of the plant be elevated, both the Soul and the STP? Can we do that with our seeds? K- You... you didn't hear two other parts of the discussion.

(2:24) I kept on saying, that this is the old system. The new system is different. The new system is set on the level of the Soul of the plant. I hope this answers you.
R: Well, we discussed that a bit in the Plasma Reactor Group, and the, what would you call it, the old way of the elder gardeners would take, and they still do, and this is the teaching they passed on for many generations, is to take the seeds and place them in your mouth, and mix it with the saliva of the mouth. and that they... I remember being in a gardening group, a couple of decades... excuse me, a couple of decades ago now. And they talked about establishing a connection between the Soul of the plant, essentially that the archetype of the plant, or Soul of the plant, and our own DNA, our own essence of our saliva in our mouth, which we know is in a Gans condition. So that the plant gets informed about what we need, it recognizes the needs in our DNA, certain elements or certain Amino Acids perhaps, and it can alter itself to accommodate the human. If the human establishes the proper connection of gratitude,
(2:26) and establishing that it's wishes to, you know, become, to be grateful for the use of the plant and so on. So is that part of that connection, or are you

talking about an entirely different level? And also are you using the remote systems for that kind of transfer of energy? K- Let me, let me explain to you step by step. It's been said that even a stone has a Soul. Now we know a grain has a Soul, because we plant it and that Soul grows, leads the creation of the grain. Now that you are a little bit more educated than the gardeners 20 years ago, and you know the position of your Soul in your body, now you bring another Soul near to it, and it's from the wish of the Soul, again Soul-somatic, connecting to the Soul of the seed, in balancing it, and then you plant it. In the physical life you look at the saliva, in the dimension of energy, when you put that seed in your mouth, it's just a few centimeters away from your brain, from the seat of your Soul, and the strongest always gives to the weakest, or the less of, and so you already interact with the Soul. And maybe that's a further understanding of the same process, in reality what happens.

(2:28) If my wish or my thoughts or my psychological part of growing you as a seed, is to destroy

you and show my beauty, the plant won't grow. If within the Soul, within the STP, I want you to grow, to show your beauty, how beautiful you are, you'll see the Soul and it becomes one of the most beautiful flowers. And it doesn't need to flower one day. It can show his beauty as long as it's to the eye of behold. It'll be interesting when the science of man develops the point that he can actually take images of the Soul

as we do with the physicality, and then see one image of the physicality of the man, the one image of the STM when the seed is in and then we'll see how the plant grows. It's very much, you say some people have a "green hand." It's not the green hand. It's that their Soul is to show the perfection of the plant. And not how good I can do. The way they touch is different than your touch and my touch. The love they give to the plant which is touching it is different than us touching it, "Oh it's a nice plant." I watched this and I was intrigued by it when I saw it the first times and then it took me some time to understand it. How when you even give a dead plant to these people, they somehow, it turns green.

(2:30) They grow. It's not the way they water it. They water it with the energy of the Soul. And when we did a test in the Mongolia, and when they told us its genetic modification, and when we did the laboratory test and they said, no it's an increase in protein, it brought that so much home. That protein is increase of the energy, energy levels of the Soul of the plant. So when you increase it, the Soul elevates, and so you get what you want. Then we have to look, now we are wise to it, always look at things the way it happens on both, physical dimension what happened and what happened as energy level what you call the Soul. And then you understand. And you see the connection, you see the understanding. And sometimes you get trapped in it, you're brought into it without you knowing. But their intention comes out at the end, the

right way. Your intention come at the right way. Any other question? Q: ... Good day Mr. Keshe, you told us that the circulation of blood imprisoned our Souls, but blood cells are matter state plasmas, and its strength should be weaker than that of the STM. Is it caused by high speed circular motion?

(2:32) Thank you very much. K- Read about Tokamak and accelerators, then you understand. Sometimes I speak on a scientific level understanding. If you read about Tokamak, you understand what I'm talking about. It's the flow, very weak magnetic field by high speed flow, and then increase to. And depends on what it is and how you want to maintain it. And to what levels you want to maintain and which strength you want to maintain. It was explained on those understanding. Any other question? Shall we call it the day? Q: ... Good day Mr. Keshe, upon transmutation I had a difficult time. I was made aware my manifestation was an illusion, it turns out the controller is formless. Why do we need or want physical manifestation? K- I said that many times, I tell you. We come to the physical life to enjoy the physicality. Physicality has certain pleasures. The touch, the smell, the emotion of love. And some of the creatures in the Universe queue up, come to Earth, to feel this, to have the physicality of the man, to feel the emotion of love, touch, a kiss, a cuddle.

(2:34) And then you understand why. R: It's not that emotion of love available in... other... in Space, let's say? K- Ah... Loving in Earth has a different pleasure.

Touching on Earth has a different pleasure. I used to say that to my ex-wife many times. "What are you doing here? Why, why you have everything?" I said, "We come here for pleasure of loving and being able to touch physically." It's not so easy in the Universe. Loving is a gift of humanity and it's created somehow, through the interaction of the fields of this planet. And it's unique. Maybe that's why Mitra came here and brought the Creator with it, to feel that, chemically, or energetically, or magnetic field interaction, is something which happens on this planet in a unique way. And it's like you want to go and see the Niagara Fall, many creatures of the Universe come to feel how man feels to be in love with. And as Messengers it's the must we have to do. R: But is not love the interconnecting force of the Universe? And should it not be available anywhere, basically?

(2:36) K- You know, what's the difference between loving your mother and loving your lover. You understand? It's different levels of love, emotion of love. And it's very interesting, very, very interesting. Human love is very, very, very, very, very interesting way. The human love usually comes, you have to understand it for, when it touches you, it changes you. And, depends at what level it touches you, at what strength it touches you. That the physical life is not important anymore unless you are with the one you touched, you fell in love with and you made a connection of giving. And we don't understand it till we actually come to it. And when we come to it, we

understand, we understood too late what it means. And we have, it needs to be comprehended. And you know, in English called mother's love, father's love, puppy love, and then you say, "I fall in love." That falling in love is the attribute of a human being, and it's very special.

(2:38) And the other puppy love, and the mother's love and the father's love is the love in the World of Creation. You have to feel it, and it happens somehow because of the geography of this planet. It takes a lot, makes man to kill for it, but on the other hand it gives a lot for the Universe to come and see it how it is. Any other questions? R: I think you wanted to wrap things up, I believe. K- Yes, we have been at for nearly 3 hours, two and a half hours. Thank you very much for today. And, let us know how you feel. Those of you who join us tomorrow, I hope you enjoy this session as much as the others. And don't forget we promoted two new products. Those of you who can't sleep, and those of you who have migraine. We'll see how the next step is and how we progress to the next level of development in, for you to understand more of the science of the Creation. Thank you very much for today, thanks Rick.
