## **Part 1**

(:12) K- Thank you very much. As I say, good morning, good day to you as usual, whatever, whenever you listen to these series of Knowledge Seekers Workshop form the Keshe Foundation Spaceship Institute. We welcome you back to the city of Beijing. We are here to celebrate the public presentation of the technology (T). This is not a Conference, this is openly, opening the technology on the banner of the Keshe Foundation, what we call, financial arms of the Markray Corporation. It will be a breakthrough for us as you will hear in the process of the next few days major breakthroughs, disclosures. And if you who be in city of Beijing to see the, what we call, the exhibition. And if you are one of those lucky ones you walk away with a spoon of gold, or rare Earth materials, which is the beginning of the change of the Industrial Revolution. Up to now we mine, we kill for it. Even today three nations which have broke away from being exploited from the gold and uranium in Africa. As we hear the president of France has called, he said, can we have our military base back. He said, do you have a military base in Canada, in America and whatever else you are friendly with. So, we have seen the abuse of the material.

(:14) And one of the major things that we will display in this exhibition is production of materials. So, the system we show is absolutely obsolete, which means the technology has passed this point. Our production

of material, the technology we have achieved, is far past this technology, and in a way we are showing a 'dinosaur' structure in the exhibition, but it still is a massive breakthrough in ?? evolution in science and technology. In this system, hidden within it, is part of the structure of what we call, the Time Travel. I'll explain this in the future, what it means, and on the other hand, communication systems will be displayed. Scientists from Beijing Space University, people from military factories, and some other nations, and diplomats will attend. This presentation is a very unusual. It's not that anybody can walk in. It's been set behind the window of one of the most prestigious hotels in the city of Beijing. This is the place where the 'One Belt One Road Silk' Conference was held last year, and this is a very common place for his Excellency, President Xi of China, to attend conferences in Beijing. It's across the diplomatic core, and it's well placed, and we know Knowledge Seekers (KS) who are coming, you are given numbers, and according to the numbers you are given you go through the thing to see, it's a very small space for exhibition, but very powerful, what we call, delivery of technologies. The Communication system will be shown and it's there for the test by the engineers and scientists for the zero-time communication.

(:16) It looks like the headphones you have, but it's different from what you see. And at the same time, for the first time we connect, for the scientists to connect to the center, where the later system, which has no

dynamic system in it, which will create lift, motion, atmosphere, material, gas, energy, gases and everything else, in one system. The system is about the size of a football, and it's the first time we're opening it. We expect massive announcements during the conference. You have to understand, or this exhibition, more than a conference. There's an extra room, somewhere that the Knowledge Seekers can get together, another floor of the hotel. And is in a way, putting the technology into the industrial revolution of the time to come. The changes will be massive, and at the same time we are part of a structure of the Markray Corporation of United States in the Stock, what we call, in the Market. The presentation is not by Keshe Foundation. Keshe Foundation, M.T. Keshe have given a license to Markray to, literally bring the technology on the financial arm of our work, into the, what we call, into the world of business, and science and technology. There'll be further announcements will be made, which has to go through the system of the, what we call, OTC, and now be the way it's set up. We have to announce as a corporation, what we do. We cannot announce it here, but you'll hear it in the coming days. (:18) One of the most important thing for us is, to show the power of the technology, and at the same Time the whole process of the production of materials, and with it the fields and interaction of the other systems, which we set up, we have set up, will be Live shown on the same Zoom number as you are

connecting today. We have made facility for 1,000 people to join across the world, and if need be we increase the numbers. So, the Zoom number which you have today, you are joined, the Keshe Foundation Zoom sessions, will be a public Zoom number for everyone to be able to join. The whole process of production of material will be Live broadcasted, and we know many scientific organizations we have informed will watch and monitor. If you have access to any platforms like 'X' and the rest, make it public. Put in as many places you can, and the production of material will be shown Live. As I said, this technology for us is absolutely obsolete. It's past its date, but it's still more advanced than many nations. At the same time, as we announced this conference, we have been informed that the Iranian government has started the, what we call, explaining the use of the technology as a Cold Plasma. This is to do with the Iranian government, and nothing to do with Keshe Foundation or Markray Corporation. It's them confirming the correctness of the technology, and technology being originally tested and developed. Please understand that the exhibition is part of the Markray Corporation and not the Keshe Foundation. (:20) At the same time we have to carry on developing and we'll carry on teaching. And I thank all you Knowledge Seekers who have made it possible for the technology to become open, so widely, that we can demonstrate it in public. Some of you cannot get into the hotel you can see it from outside, it's on the open

window. And I hope this bring us to the next step of the development. Please, if you join, you come to the exhibition, understand that the Intercontinental Hotel has never allowed this area, or this floor, to be used for exhibition. And this is out of the respect for the Keshe Technology and the work we've done for the Chinese community in this country. It had to be approved by the people who are in charge, and it was approved within two days. It's unusual to hold such a presentation. They have moved a lot of things for us to be in this position. So please, if you cannot get in, just stare at the window, watch it, enjoy it and celebrate it. Going back to the teaching. As we discussed last week, regarding the creation of Time. Creation of Time is one of the most fundamental points in the life of every Man. At the time, when you finish time on this planet in the physical life, another time, in another Time, Place, Position, and the strength of the Soul, will start for the journey, for the life of the Soul.

(:22) So, end of one time, is the beginning of the other. Then, if you understood the whole structure of the time, creation of Time, the strength of the Soul of the Man (STM), dictates the shape of the Man, and it dictates the Position (entity) of the Man, in the dimension of the Soul, once the Time, in the physical time, is changed. When you don't have, you're carrying so much Soul with you, you kill thousands of people, you have the burden of it. You haven't given the strength, but you're loaded with it. The Position

(entity) and the Possession (strength of the AA of human) and moves away from the Creator. The more perfect life you lived, you're more closer to the Central Energy, the closer you live, your position to the Creator. It's not that what I load will bring me closest, that what you load it makes you heavy, and that heaviness, weaker strength, positions you further. In what shape you appear it's the shape of the Creation at a Place and the ?? Possession (strength). And then, at that point, your Time starts. This is why when they tell you the Universe is 4 billion years, and 13 billion years, it's just a joke. As, the Time is on the point of the manifestation, not from the point of observation of manifestation. Which means, it goes back to the essence of the beginning.

(:24) When you're alive on this planet what you gather dictates the strength of that Soul, which that dictates the Position, the ?? Possession, and the Place that you'll manifest yourself, and where the Time starts. In the structure of the understanding of the Totality, and I'm sure you will see in the structure of the dimensions (D) of the teaching of the past what we have always shown, and what we have always been, has been that we understand the Totality of the structure. What does this mean? This means that we need to be aware of the whole structure. What we taught you from the beginning when you joined the Star Formation (SF), the creation of the Space, what we call the Place, the Position (entity), dictates how you will create that Time. If we know the power of more or less the Place,

if we can create the Position, and the ?? Possession (Strength), then, any of these two, will give us the Position of Time. You want to be on Earth, and you want to be a human, but your Soul has a strength of, let's say, so many Tesla's, as you understand it. We will introduce a new, what we call, measurement tool, for the plasmatic Magnetic field of Cosmic Rays (CR). (:26) Because, what we have as a Tesla does not work. I'll explain this, and those of you who were with us, some 10, 12 years ago, on the systems which we developed for detection of the fields, which we measured, this was already set up to measure the Time, to measure the Space. So, if we understand the measure of the plasmatic 'Tesla,' what I call, then we understand how we can create, we know what Place our Soul will possess, will be the Position of, and in what shape we manifest. Creation of the Place and Position (entity) would totally, and in its structure, depends on the strength of the Possession. And that Possession, plasmatic Possession, will create the condition of the plasmatic of a Position and the Place. And all three can be replicated in the structure of a system. Which means, the knowledge of the Man is at the point where he can create the Magnetic (M) field of the Place, Magnetic field of the Position, and a Magnetic field of Possession. And the Time is dictated. But, the Time itself, has a characteristics, that if you can create the Time you can reach in any dimension. As the Time is created from the interaction of the three. In the coming time, in the teachings

which will go more in depth, as I said, you will understand more.

(:28) As I explained last week, we started with Nano coating, then we taught you about the Gans's, then we brought you with the dynamic systems, then we brought you to the dimension of the Soul, and now, it's Time. And in a very simple way you will come to understand that the Time for the Creator is always zero-Time. Which means, it never existed, it shall not exist, unless the fields of it brings the Position (entity), the Place and the Possession (strength). There is no beginning, there is no end. And in the structure of the creation of Time, the Possession will play a main factor, which is the Time when your Soul leaves the physicality (P) and leads to the creation of a new Time, a new Place, and a new Position. Then, if you understood this, and you can create the Magnetic field of the Position and the Place, while you have the Possession, and you can change any of the other two, you create a new Time. Which means, you can go forward in changing, in understanding, what will be the, what I call, the Position of you, with this Soul, this Magnetic field. Today the scientists can measure by electric current within the brain, and they tell us, "This is the position of the emotion, this is the position of control of this and that in the body of the Man, through the physical structure of the brain of the Man." But when the science moves further on,

(:30) and understands that the brain itself is creator of the Magnetic field in the plasmatic Cosmic Ray, then

they'll understand what it needed to hold the Soul within. And with that measurement Man can decide the Position, and the Time, and the Place. So, as we call it, there is no Time Travel, but we can travel in Time, which means we are the creator of it.

Understanding of the, what we call, the ??

Possession, which is the STM, in the future, will be measurable. Because, there is a technique in measuring it. And once you measured it you can create the Gravitational Magnetic (GM) field of the, let's say, New York, and then you decide, "I want to manifest as a dog." We know to manifest as a dog, the amino acid (AA) of the field of that animal has a specific characteristics, which we can create all three, and then the Time is zero. The way your Soul travels leaves the body behind and manifests in another position, when it reaches a certain Magnetic field strength you do the same, but the Place and the ?? Possession is already booked in. You just change the field strength. And we have told you in a teaching in the past, how to change the Possession. It's very easy, if you remember. Then when you arrive in New York, you start the Time. We can never be in the wrong Place, on the science of today we created GPS positioning, but in this game we create a Time positioning, which is a totally different science and different technology, and connects direct to the line of the Creation.

(:32) It's as another Star is created. This is why we hear in the world of present science of Cosmology,

they tell us, Millions of Stars are in the Galaxy and millions are created every day. If you go back to my teaching, one of the first thing which I always said in the teaching, very original teaching, I said, "If so many millions of Stars every day are created in Universe, it must have a principle." So, I make one too, because I now understand the process of Creation. When I make one, it's my Soul, it's my identity, it's what I possess within. To create Time, is a totally different ball game. But, if you can travel in Time, and you can create a Position and ?? Possession, and you have the other two fixed, you can travel the Time. Can you go backwards? In a physical dimension you cannot go backwards, because if you go, if you look at it, I explained many times, the Earth is round and rotates at a given speed, your image is scattered, and the more Time, the more further it goes. You can go back in Time, but this Time you see the interaction of the fields, of the plasmatic, what we call, field strength. So, then can you change something that you will not be in this position? If the others allow, you can do. Those who are, will be, they all will be affected, but change in the field strength of you. I was born, I'm not happy wearing two legs, I want three legs, can you go back in Time and give yourself three legs?

(:34) Or can I see, I could have stopped this disease to happen in me if I could go back to correct the genetic modification, what we call, correct my genes, that I'll be perfect, that I don't have this disease. These now become possible, but it needs a lot of

understanding by changing what field strength you change. And if you understood this, with your behavior, how you take, what you do, you change the Place of your manifestation of your Soul, on departing, on finishing the timeline in the physical dimension. This is why we always say, always in all the teachings, "What you carry at the field strength of the Soul, creates, has pre-set Position." And then, it has pre-set Possession of the Place. So, in a way, by understanding the field strength of the Possession you know where your Place is. The further Space, or closer Space to the Creator, to the zero-Time, Time of Creation, because then you radiate out. If you understand this is very simple. What does this mean? It means, if you get to a position of the center, what we call, the Soul of the Creator, when you get closer, or you get further, this is what they call the 'Hell', and this is what they call the 'Heaven'. It's the lover's game with the Creator. When you love you become the same as it, so you come closer to be to your lover. And now you understand, when you do a crime, you have more Souls to carry.

(:36) This is what I said, those who make Arms, and is not just the guy who shoots a gun, the one who made the gun, the powder, the one who carried it, the one who designed it, the one who benefited by it, all getting loaded on. If Mankind understands this, if Mankind understand the game of the Time and the Place, no Man will create not even a single gun, and not a single bullet. And this is what has been

understood by Universal Community, and Man needs to understand it. In the process of Creation, the strength of the field of the STM at the point of departure dictates which place it will take in Space. The more you killed, the heavier backpack, the further distance you have to get to the Creator. And that's heaven, because you got a long way, long journey to make it down. The suffering of this emotion of the Soul in being away from the lover is a bigger punishment than the 'fires of Hell.' Those of you who've been in love, you understand exactly what it means. The further you are from the one you love, the more you suffer, and yearn to be to, and do everything to get to that point. The whole process of Creation of Time, is the essence of the Creation. And the Time is made by Man, as Time does not exist in the Universe. (:38) Very simple, you have an Earth Time (in the center of the circles), you have a Solar (system) Time (next circle out from center), you have the Galaxy Time, you have the Universe Time, and then you have a Unicos Time. The further you go in, the longer the time becomes. The structure of the Creation of Time, comes from interaction of the fields. There is a key to bring that Time, and there is a key in understanding the, what we call, the Possession, the Position, and the Place. This is what I said, now you might understand, the time will come, that I will manifest Christ in front of you. Because, we know the field strength of the Jerusalem, we know the shape of the Man. All we need is to create the plasmatic Magnetic

field strength of the Soul. Time will be zero, and according to whoever watches at any time, will see the Christ. It's not magic. Part of this technology will be shown in the exhibition in Beijing. You will understand when you arrive. And some of you will feel it.

(:40) Some of you will cross behind the window, watch your body, watch your clothes, and understand how I've been showered with the love of the Creator. And if you get a dust of gold on you carry it with pride. You've been touched by the fields of the Creation. The beauty of it is, the back glass cannot stop. That glass cannot be a barrier between the field of the Creation and the STM beyond it. The purpose of the exhibition is not to show the Man, but is to enlighten the humanity. Enlightenment is part of the structure of the what we call, ?? Possession. When you enter, when you see the structure of the setup, don't think of a flying system, understand the evolution in time. Understand the evolution in enlightenments. Time, Place, Position and Possession, all will create a Time, that, that Time is the Time of enlightenment. That's the Time when the zero point starts. Because before that, there was no knowledge. After that, there is a knowledge. And that's the time of enlightenment. And that time of enlightenment is a very, very rare point. And that's the time when the change comes.

(:42) I hope, in the next few weeks, as we go more in detail, for you to understand the essence of Time, not the system of Time. Then, you understand how to

create the field strength within the Possession to create the dimension of the Place and Position. The Possession is the most important factor, because we can change it, by our behavior, by our attitude, by us not destroying, not what I call, destruction of ourselves, by ourselves. Is the worst thing ever done in a Man, when it's the self-damage, self-inflicting. And Man does that with every breath he takes, with every spoon he puts in his mouth, and with every action of the emotion. If you think of it, I've made Man in the image of Myself. And Man is not My image. Image is the dimension of the Soul. I do not kill, I do not destroy. But how can the Man to be My image? In truth it's the STM which is my image, and not it's physicality, the Place and Position are wrong. If you change the Possession you can change the Place, and with it, you can change. If you listen to the Intro I think you have a better message than what the teaching of today is.

(:44) Every Man can change his Possession during the life on this Planet. We go for a small break and we come back and try to answer as much questions as possible. Understand that it's, we are in Beijing, and it's round about 4 o'clock in the morning, and hopefully we see many of you in the exhibition, especially the Chinese friends. And, if you don't get a chance, just be patient. Rick, can you take us for a break and we come back? ...

>> BREAK >> 589 KSW May 8, 2025

## **Part 2**

(:50). K- ... Oh no, there's not much to talk about. I think we did talking this time at the beginning. If there are any questions, we'll try to answer and try to keep it short today. And hopefully we see what we can do, what we can do with it. Q: ... Mr. Keshe, I'm Arthur, I'm 11 years old and I'd like to know how Dark Matter works. K- If you understood the teaching, if you ever been around, you're too young to be, if you go back to, Dark Matter is a position dependent and a magnetic field strength dependent. What is dark to you is not dark to me, if I'm on a different field strength. In a way, a Black Hole doesn't exist. It looks black and the field strength of our, what we call, line of vision field strength. So, Dark Matter is the, what we call, imagination of the Man, that because he cannot see or in a way,

(:52) it's there, is dark because of the absorption of the light in that field strength. I show you something very interesting. (If I find it, takes me a few second. I have to go through some work and then I can). I'm sure, in next few days, you will see this very clearly, as the, in the exhibition, camera is set to just look at the table and suddenly as you see a dark matter appears and then it changes its color to gold. And it's dark because it's Carbon 14 (C14), Carbon 16 and then it cocoons itself and it changes by energy and you will see it as gold or as matter. This is what we call, point of strength of the observation of the

observer, what you observe and what it looks to you, which brings that change, that acceptance and observation. Dark Matter doesn't exist. If I have a different magnetic field strength, that matter will not be dark with me, or to me.

(:54) )I'm trying to show you something which, very interesting you will see. I have to check that we are in the correct dimension). << Mr. Keshe tries to put a picture on the screen. >> K- ... The matter appears as dark, and the same matter, as it changes its magnetic field, as the Inertia of the planet Earth interacts with it, it changes to matter and you see it as gold.

(:56) And this is part of what we always say, even in the book I refer to the Dark Matter, but dark matter is a matter dark, and if I change my field strength it will not be dark anymore, then it manifests itself, because I changed the, what we call, the Position. The Place is the same, it's in the same spot, but as the Possession changes, which means the magnetic field of the Earth interacts, then you see, what you call, as Dark Matter. I want to show you this, this is very important. If you see it, you see on the left side, here, you see mixture of dark matter. As it changes, you see it in different color, as it changes, you see it as different color. It starts a life in one, and then it becomes two, it becomes three. As Knowledge Seekers this should be very easy for you to understand, because you make a Gans, is a Copper color today, tomorrow is black, the other day is another color. As its color changes, it's the same black, or does it become green the next

time? Because it's the magnetic field of the environment, which changes its color. Now we understand this, that's why the Possession is dependent on the Place. And that's for example, we say, don't put material, what you call, your Gans's, near a metal, or something else. Put in an open environment.

(:58) Metallic surfaces like Aluminum, what you call, Copper and the rest, absorb more, and it changes, and it changes color. And you see this. This is a production of materials in three stages when it's gathered. These which are in number one will change to this, and then this will change into that. Because, as the environment effects it, and then it brings a new dimension, and what I call, let me share with you something else, if I can go back into it, makes it much easier, in that respect, because. (Let me see if I get, what I'm looking for). This makes it much easier to understand. The same is with us in Space. The Black Hole is black to us, but in fact is the Sun, is the source of energy. It's our point of observation which gives us the manifestation of black. Dark Matter don't exist. It's just a point of observation and what fields is absorbing from the environment. If the environment gives it more, then it manifests itself as different entity. That's how it changes from Dark Matter, suddenly into, what we call, the matter manifestation of whatever it could be.

(1:00) This is a beautiful example of it, if you understand it. I try to bring it out for you to see, and

then you understand how the game of Creation works. You see, if I go back, it starts as a dot. It's a dot, it's a dark matter. But, as the environment effects it, the whole, those dark materials, becomes the material as you see (turns to gold). This is why, if you stand, and this is the final version of it (gold). All the dark material have changed, field strength you have on your hand, gold. But you have to create that condition. And, as you see, another one next to it, is in the process going through. Because, now, this condition, environment effects all these, and then they all become little gold dusts. This is what we call, in the world of science, if you understand it, Inertia. This is how cancers grow. Change the environment, it's the same field energy, so you change the Possession, or you change the Place, (1:02) and then you get the Position (entity). The same dark matter, it just changes into manifestation of the matter, by change field strength. Any other question? Q: ... Thank you Mr. Keshe, and I'm elated about what's to come in a few days. Is the gold color, the color that's related to the Creator? K- Can you repeat? Q: Is the gold color, a color that's related to the Creator? K- No, gold is another spectrum of, to other of different field strength, the color of the gold is different. R: Perhaps the black would be closer to the Creator? K- Actually, if you think of it, the white is the right color. R: Okay, we've talked about the clear light at one point as well. K- This is what we call the white light, not the white as a color. If you ever see aura, those who have a white

aura are those who reflect the light of the Creator. We don't see (it) with many (people).

(1:04) When knowledge expands, and there's science of the knowledge of the, what we call, plasmatic fields deepens, from the color of the Soul you more or less know the destination of the Soul. And, that color exists in the Man's aura today. But the scientists do not know how to interpret it. Messengers at the time of the receiving the message, they, their aura becomes white. (From) there on, the emotion of the physicality taints the color. Any other question? Q: ... Mr. Keshe, could you please give us an update on the current status of the process, in which humans act as living satellites in the plasma transmutation processes. How advanced is this process, and what steps are still required to implement it?

(1:06) K- Read the question again. Q: Mr. Keshe, could you please give us an update on the current status of the process, in which humans act as living satellites in the plasma transmutation processes. How advanced is this process, and what steps are still required to implement it? K- We are very, very close to call upon those of you who became Satellite (Souls). Part of this test was carried out two days ago, as part of the transmutation set. We're still waiting for all the Knowledge Seekers who participated in that test, send us their, what I call, report is a wrong thing, but what they went through. And, as we increase the numbers, the Satellites like the captains come into game. And, we are about to a few months away. We received

some of the process, some of the Knowledge Seekers who were in that session. But we're looking for more to come in, and we had conditions that it's very interesting to see, what it comes. If you're not familiar, what happened is, the previous week we had 7 people going through, what we call, evolution of understanding, but in its, what we call, the Soul level. Then they became the Captains,

(1:08) and the people who were part of the monthly sessions they had a choice to choose a captain who they trust to give their Souls to take them. And in that process it was very interesting, we have had this group with us for some time, months or over years, and we always had a problem. Where we could see somebody panics and the whole thing crashes and the rest of the other Souls, and they have a good ?? time for a few minutes ago. This time they didn't have to panic because they already chose, they were given a list of captains and they could choose a captain. And we didn't see any crashes, there was no crashes, we saw enlightenment once, but it was very interesting how the Soul very rapidly moved in dimension of physicality, and the Soul of Physicality (STP) literally in the right line stayed all the time to make sure that the Soul ?? transfer. And we saw how the Soul moved into the dimension of the physicality into the positive line, which is the transmutation. We never had this before. And this shows us, instead of literally, it's like getting on a plane, instead of training 150 people to become a pilot and fly for themselves to a destination,

we train one pilot and 150 are passengers and they all get to the destination. And, this was very, very clear in the test we did on Tuesday of this week with 7 captains, and then when we increased numbers, Satellites come in, in dimension. And in this training of going through the process of the Satellites,

(1:10) and then the captains, and then the passengers, then it comes the, what we call, the enlightenment. And Satellites have got a very big part to play with this. It's the connection. Then, as the Satellites are between the connection between the STM and the captain, Universal Councils are between the humanity and the Universal Community. You'll feel it, when we call upon you to come in and then you are there, in a way you become semi-pilots, you become this. And this week's data was the most amazing data we've seen, and it made it much easier. We'll never try again, what I call, mass transmutation as we've done (before), what you call, the past year or over a year, because somebody panicked and everything had to restart and everything else, and this has shown us. In a way, it's a preparation for the next step to come, in what we call, the process of the technological development. It was very, very interesting what we saw in the past session in the last week. R: Are there any images you'd be willing to show Mr. Keshe? K- I'm trying to go, but I saw something else which I call, it goes back to the previous one. I'll do this and then I'll go and get that one, because it's very interesting. You

see here, you, if you see the picture, what we're talking about matters,

(1:12) you see how little dots of gold you see. These are all the black materials, and then when the field changes that's what you see, one piece. (They) all come together (and form one piece), and this is what you see, pieces of it. And it's very interesting when you touch this material it gets absorbed to the body, but if you know how to change it, even this, this block piece would absorb to the body, even it is gold. It needs a process to go through, to become. And this is what it's a Dark Matter becoming a matter. So, it's always a matter, it's just a point of observation and ?? a matter of field strength. I have to go through another session, another part, to show you something very interesting, about last week's session, as we discussed with, .. that I can share with you. In one point, we see different images of literally transmutation, and how... I have to find it, it's a way, there is a very interesting picture, how, there is in one point, there is no connection to the Soul of Universe, it's just the captains who are taking, and...

(1:14) I have to find it, I have to find it, because we got so many pictures. It's a chance, I wasn't expecting to show you this. There is one of the picture, if I see it, I'll come back to it. Let me see, if I see it, I'll put it out, and you'll see. There are many pictures, which I think is amazing to see. Yes. I see one here, which I want to show you all. These are from different conditions, don't forget that we dictate, we control everything in

the back. In the background we change things, which you have no idea, you are not aware of, and then we play our game in adding to the knowledge. Yes. This is the most interesting one.

(1:16) Okay. Let me come back to you, on the Zoom, that I can share these pictures with you... Yeah, these three pictures which I show you now are extremely interesting. Which shows in transmutation. There's a number of these pictures, which I will show you all. And these are from different positions and records of what we have. If you notice this one, this is one of the most amazing things, which, if you were with us, and if you understand it, we always receive energy to our Soul from here (above on the graph). If you've seen the other pictures, we'll show you later on. And, we see a lot of scattered energy in dimension of physicality (down below). In creation of this point, what you see, is very interesting. The Soul has a vertical line, and the physicality has... ?? STP sits with it. They are traveling, they go to a dimension.

(1:18) But the most interesting part of this is, there is no connection to anything else. It's just between the passengers and the, what we call, the captains. There is no external energy at all. There is no connection anywhere here. You see it. It's all in the process of moving. But when you go to the next picture, let me see. Now I just received another picture. The guys are busy in the back. When you come to another picture, which is this one, you will see. I have to clean this out for you. Now you see, this is again amazing, if you

again understand the process. There is no, at all, whatsoever, connection here with the Soul outside (nothing above or below). This is, in a way, if you look at it in the red, in a way, is us, we do it ourselves, we transmute ourselves. And if you remember the pictures of before we never had this, this isolation. Means we trust the captain and we haven't had a such failure in the, what I call, the last trial. And this has shown us we move to a new system next time, that many of those can physically, actually, go through the process of what we call, the transmutation. It's getting the trust was the biggest problem. You see it here again in a very fine detail. There is no connection with the Soul, or the physicality. Everything is on the move, everything is there to go.

(1:20) No connection. It's the trust you have, and if you look at it this is the Soul area. And one thing interesting is, which shows us, our people went through the position of transmutation, is this. This area. This area is the area of transmutation. When you see, Souls are sitting in it. And we have a section which actually there is nothing in these areas, except ?? your Soul. So we know people went through it, but how much they believe in what they do, and how they go. The captains are strong, nothing can happen. Then you see this. This, when we get Souls in this area, when we get the energy in this area, is a position of the transmutation and you can see it. So, people are getting ready, the, what I call, the captains are trusted. So we build this trust more

and more. And there is something interesting, which we'll show you later on. Have a look at this line here. There's a line here, and there's a line here, and this line is up here, which is a direct feed into the transmutation, both on a one level field strength, which means the field strength of Soul is fixed and one in dimension of the STP, which is fixed.

(1:22) So, many, you know, even they felt they went, they did something to them as a dream, they all already gone into the transmutation system. Then you see this one here it's the best example of. We're getting to the point of being able to complete transmutation. And this you see very clearly, again, the line of the floor. One line and sitting in this area. The Souls have gone into the transmutation and the ?? STP we don't see the physicality, there is no physicality it's all in transition. See, there is no connection here, there is no connection, top or bottom. These are, we understand what, and how we can change our systems. But, the beauty with it is that, why we see this for example, and we see this position is we increase the enlightenment.

Enlightenment and love we can control, and so it brings a dimension of the trust. I'm a passenger, I don't care what, how the weather is, the captain is in charge of, he knows. Now we have to get all of them to one place. And, in the coming weeks, the sessions we'll run that we are outsider, the captain decides, we're the passengers and then we split the groups

into training, trusting, and building up, that then the passengers become the captains.

(1:24) And we build up gradually, the structure of the transmutation. And the Satellites are needed for this job. Any other question? Q: ... I'm so happy to be here tonight. The time traveling is extremely interesting to me, and I have a question about that. If I manifest in a Place and Position, and then start Time, how will then the environment react? Will everything change too? And will people be older or younger, depending on where, in Place and Position, you manifest? K- Yes, but if you get it wrong you'll manifest yourself among nowhere, or amongst other Positions (entities) which are not familiar to you. And this is gradually we go through it, because in the next, maybe 3 to 6 months, we will complete, as part of this process, the creation of Time Machine.

(1:26) We are going through the first phase of it, and the first phase of it will be shown on Saturday, Sunday and Monday. And then we are ready to go into the condition of the, what you call, time travel, or Time change, in conjunction with transmutation. Q: Thank you, and may I ask something else then? K- Yeah. Q: If for example, we are, if you want to bring something, that is not here yet, but we know it is already in an energetic state, already there, that you want to manifest. Can you bring something that is not yet here, can you bring it to this Time? K- Yes. It's like a moisture in the air, you change the temperature and you see as a drop of ice. We know the technique in

the magnetic field strength, yes. That piece of gold, which I showed you, is part of that process. Q: I think I see, yes, it starts to daunt a little. K- Yeah, it's if you look at that piece of gold, it then drop as a piece. It comes as molecules, bit by bit of black, and then it changes to one piece. In the ?? same when you look at that piece of gold it's not a block, it's data. You see hundreds of pieces, black and gold,

(1:28) and then suddenly you see the structure. Many of you, you see amazing things. We set up this, the structure set up of the exhibition. It's so amazing, and what we'll create you will see, as I said, this is an old system, and a lot of people will try to replicate it. Do not even attempt it, I advise you, you'll run into huge problems. We know what we are doing, it's not just as a set, and what people think it is. You will see magic of Creation. And I have specifically chosen a combination, which will bring, what I call, the completion of the understanding of the technology on the point of, what I call, not science, but technology.

Q: Thank you very much, Mr. Keshe. K- Thank you very much for your work in Netherlands. Q: Yes, well, it's, it's because we love to start that piece of land that we want to draw to us, so that we can build in there and start teaching the people with everything about the transmutation, and have the right space for it. K- You have to understand transmutation, there is a big problem with it, and as I explained before, we have a...

(1:30) Technology is complete, I can release it tomorrow, governments are not ready, and if we jump without the governments being ready, then we'll get hit very heavily. And this exhibition in Beijing, I planned it about 6 weeks ago, 8 weeks ago, and very quietly, very, very, what you call it, discreetly, we set out to do it, and I didn't let anybody to know till about a week ago or 10 days ago, even the people inside the Foundation. Because the time is right, and secondly, once we show the transmutation, even in the small groups will create a massive problem for governments. Not for us. And we cannot head that way, unless we create a condition of the world peace, that the governments are at peace with themselves and between each other. I mean, we see it at the moment, one of the biggest problem is what we saw there. There is the way that we have structured our lives in past decades and centuries, and to undo it it'll take a lot of trust. Can we do it? And then we can go through the next step. Why should we need... As I always say, the birds fly every year from Siberia to God knows, Africa, they carry no passport, there are no threats, and we enjoy them coming together and moving back up. And when you have the human size, we see it as threats and everything else, and we created so much names for it.

(1:32) And we have to change the mindset of the governments. And this is the biggest problem. And we are... It's not the lack of technology, it's the lack of human race not being ready for the technology. And if

you bring it a little bit too soon it can backfire. And I think it's the right time now to show the first stage Man can create energy and then we can do other things. And then Man trusts, "Okay, I can do the same." Creating us through the wealth of the planet has been the biggest problem for Humanity. When we create a condition that the resources of the Universe are available to every human beings, then there is no class difference, then there is no war. Then there is the next step. And work in that way. Q: Mr. Keshe, is it then... When we get the Cosmic Ray material, we want to, of course, first we will start to feel it ourselves to see what we can feel, and how we can work with it and what we can experience with it. K- You cannot, you... it might not have an effect on you the way you expect, but you can give it to somebody and change their life. I met one of our Knowledge Seekers, I'm sure he's listening, he knows who he is. He received the Cosmic Rays and he traveled 300 kilometers or whatever to get them. He was so excited to get them. (1:34) When he said he puts in his hand he could feel the fields, the pressures, and then he could not feel his hands. And very interesting, he had an incident, first couple of days and he just went back to the Cosmic Rays and the next day he was changed. Because the body repairs itself with it, it receives what it needs. And you don't feel with the Cosmic Rays the way the next person does with the same Cosmic Rays. I advise you... Very, very, very, very, sorry about that. I advise you very strongly, as we said, "Do not

change." Do not give your Cosmic Ray Balls to anybody else. Once you hold it, it's part of you, do not share it, do not give it to somebody else. Because that's an imprint of you. Q: Oh, okay? And so... I thought that we could make, help other people experience and feel the same things to start feel the Cosmic Ray fields a little bit more. But, you say it's more personal, so I shouldn't do that. K- Try to not to share, it's very much like the Pain Pens. This is very, very, very personal. You go through it, you build. In a way, you share with others the energy is inside there. You understand? Q: Yes, and so, we now, we'll get two of the Balls, and they are signed to my name, so I should keep those two Balls for myself? K- Yes. Q: And not share them with my partner? K- Try not to, that is advisable.

(1:36) It's advisable not to because it's a fingerprint of connection with you. That's why we put names on each one, each one is registered. Because we can track back, we are looking, it's just not giving the things you. Those of you who received the Cosmic Ray, there's a certificate, there's a registration number with it. It's not just, this is not, what you call it, MaGrav units, or whatever you took. These are very, very personal. Q: What's then the difference with the Headsets with Cosmic Ray? K- The Headsets Cosmic Rays, again, try to keep it individual. They are set up with Cosmic Ray material as part of the structure. The normal Headset you share with anybody you like, that's not a problem, because it's connected. But, if

you received Cosmic Ray with a Headset do not share it. Q: Okay. So, okay, now I understand it. All right, thank you very much. K- You don't want somebody else's dream, do you? It's as simple as that. Q: It's a bit of a disappointment, I think, for my partner Timo because he was also looking very forward to receiving and working with the Cosmic Ray. K- We will. I understand. Let me explain to you something. In, maybe in the next few months, we'll put a system out which brings neutrality to the system, but that system is not available yet. In a way, you put a system, you put your Headphones in that system, and it zeroes it, you're clean, you can start again. We haven't completed that process yet. We have to do it ourselves first. Q: Yeah, because I bought, actually we bought,

(1:38) I think, six Cosmic Ray material Balls and the Headsets with Cosmic Ray material only because we wanted to help people with it. K- Yeah, but, by the time you receive it, I think the next batch of these will go out in July, and by then we might be ready for this system that you can do. But we have to understand there's a lot of developments going on. We have to develop this system that it brings to zero point (cleans the Headsets for the next one to use). We are aware of it, we know how to do it, but we don't have the time to do it. That's why we given you that ?? one (?? keep it that way). Q: Thank you very much. K- Thank you very much. Thanks for all your work. K- ... Can I say something it is very interesting? You know the

package we put out, what do you call it, the surprise package. A lot of Knowledge Seekers have, what you call it, requested for it. It was announced last week, what you call it? What do you call it? Surprise units. And in those packages of the surprise packages some of these Cosmic Ray materials will be as part of the surprise package. What was it called? I can't remember. It's for... R: Yeah, let me get that up here. "Cosmic Mystery" is what it's called. K- Cosmic Mystery, yeah. We have deliberately chosen to spread this among some of the Knowledge Seekers.

(1:40) A number of Cosmic Rays will be put in there and then we explain to you why we've done it, and you'll understand. R: So what it says is that people are to choose a number between 1 and 50, and leave it in the comments, in the item section before checkout. And then that's related to what they get, basically? K- Yes. R: Okay. K- We try to bring this out. We'll see. Can we answer a couple of more questions and stop? Because it's nearly two o'clock my time. Q: ... Is it a coincidence that President Xi and President Putin are currently meeting in Moscow to discuss how they can help the whole world to become more unified? K- I don't know. But the Souls know what is to come. We expect in the exhibition to meet a number of leading Chinese officials. If the Chinese community and the rest of the world go on the social media and spread it, continuously load up your systems. This is what it was, now it shows this matter. For three days Live. This is exactly what we did when we did 129 Tesla, if

you remember, years ago. Put this out, every minute there is a picture, there was nothing there, now there is a material there. Bring the interest of the world, especially the youth, the scientific world.

(1:42) Bombard your people, spend three days giving information, creation of matter. There is a reason I've done this way. And give the link to people, don't stay too long (at one time on the Zoom) to see it for hours, because we allocated (only) a thousand (places on Zoom). If need be we increase it to 5 to 10 thousand viewers (at a time). But stay in (Zoom) for a few minutes, if you want to see, let the others to come in to see. But spread it around in all the social medias that this is how gold is made. Because it's important, as we change this, what I call, fancy game of, what you call it, "Big Bang." It shows the true science if we can produce the material from the interaction of the fields, so the Big Bang didn't exist. It's just a fallacy. And then it will change a lot of things. There is a specific reason I planned this out. The venue is Intercontinental Hotel, in Beijing. The in Sanlitun. The Zoom number is there, which is, what is the public teaching, this is part of the public teaching, we don't control it on the webinar. You can join in and the whole process is understanding, bringing the technology to be at the reach of the world scientists. Send this to your professors, send it to every University, say this is how gold is produced, Saturday, Sunday, doesn't matter. We've done our work. (Now) it's your work to bring it out. Spend time to your ministers, your prime

ministers, everybody say this is. Because once we show gold can be made half of the battle of the world peace is won.

(1:44) And then we will come with a new structure in Keshe Coin and Keshe Cryptocurrency. That then that becomes part of the structure of the interaction inside the nations who accept the technology, then we'll create one currency. I've done my work, from now on it's what you do. How you bring the world to see for next three days. And gold is a very attractive thing for a lot of people. R: Well Mr. Keshe it's strange because, well it's not strange, it's coincidental you might say, or maybe nothing is coincidental. But, let me show the headlines in the Science News from two days ago. Which is, "Where does the Universe's Gold come from?" "Giant flares from extreme magnetic stars offer a clue." And they talk about the interaction of these... for the rays. K- Where is this one? R: This one is in space.com. But NASA just put out a video two days ago about this same topic apparently. I just discovered that and... K- NASA usually put things on 'X.' If you got it send me the link on X. I will invite them. We plan to invite people on X and others. And you do the same. Wherever you are scientific world space programs, just send them in to see.

(1:46) And if it comes we increase the numbers of the platforms. R: I can't believe they're saying here like, "Scientists have finally gathered direct proof of how the Universe forges its heaviest elements. A process that has remained a mystery for over half a century." A

mystery to them, but not to you. "A team from the Flatiron Institute in New York City, calculated that the giant flares emitted by magnetars, highly magnetic types of collapsed stars, known as neutron stars, could be the long sought Cosmic forge that creates the Universe's heavy elements. Just one of these giant flares could produce a Planet's worth of gold, platinum and uranium." K- Oh, you never know, we might show the giant planets on this. Send the link, or anybody who got access to it send them the link to be there on, and send them the Zoom number to watch. If you're looking for it the system to do this, to confirm it, is already shown on Thursday, what you call, on Saturday, Sunday. If you're in these channels just write to them, or if there's a chat line or what you call, social media on them, answer them. Invite them and send them the tickets we sent you. R: I think the timing is very good, yes. K- Anything else, or shall we call it a day? R: Well I think probably we should wrap it up here. K- ... Thank you very much indeed, and see some of you over the weekend, I'm sure. Many of you are there, we know. Follow the procedure which is set up and there's apparently a group of 20 at a time, (1:48) and each group is given about 15 minutes to go around to see the systems or whatever. Don't touch the equipment, it's not there to be touched. And then you can go on the fourth floor of the building to meet with other Knowledge Seekers, or have interview. The room will most probably be closed on Saturday, the above room, from 7 or 6 o'clock onwards, or 8 o'clock

definitely, or we announce otherwise for it. Something big is happening with Keshe Foundation, that on Saturday, hopefully. And it'll be nice for you to be part of it and we try to broadcast it Live on the channels of the Keshe Foundation. Thank you very much, and hopefully we see you next week. R: Excellent, we look forward to it, and best wishes for a successful endeavor, on the weekend. K- Thank you very much. R: We also have a blessing from the Universal Council, who invites the Keshe family and the Universal family in unifying at the Soul level, every Time and every day, at 9pm Central European Time, to create the energies through the Soul of the Council that the scientific community and observers become enlightened as the Keshe plasma Technology is shown in the public worldwide in and on the 9th through the 12th of May, 2025 in Beijing. K- Those of you who are looking for the banners and the invitation, as this is a Markray event, go on the Markray Corp, and go into the news side.

(1:50) And the news is put there, or you go to the Keshe Foundation website and pick up the brochure for the, what you call, the invitation (to invite others to come), and the brochure, the one which Rick has shown you a few times. We try to put it up on the Keshe Foundation website that you can pick up both invitations, if you are a member of any of the groups of the Keshe Foundation on the Telegram, it's already there, and if you are on the, what you call it, X, we have already posted it there, and you can go and

bash it, or show it to us, send it to as many people as you can. I think if we get it right and you lot manage to bring enough people to see it, sometime in the next few days and weeks, there'll be no more war for gold. Half of the world problem will be finished. And then, we'll bring an end to the, what we call, nuclear warfare, as if we can produce gold so easy, we can produce Plutonium, Uranium, we don't need no centrifuge, and every nation become nuclear nation. But, what do we become nuclear nation for? But we can use the energies of it, for ?? advancing the Space Technology. You got to understand, this showing this material production is not just for gold. It's showing that there's no use enforcing and being nuclear, sanctioning countries for being nuclear, becoming nuclear, everybody else who gets nuclear. Now everybody can produce any material, and it's an end to materialistic world.

(1:52) Thank you very much for being here, I will see you in the upcoming events, or in, what you call it, next week. Thank you very much. R: Very good, thank you so much Mr. Keshe. And, just showing the Markray site here, and it's got a lovely home page with this rotating sphere. And there are headers for various information that you might be looking for including a discussion by Mr. Keshe on the science behind the products and services of the Keshe Foundation, as well as some other applications and so on that you can go through on that website. All right. Get back. K- This is a markraycorp.com ?? Markray

corporation as one ?? .com, you can visit the site, the site's open, we're still building it up. There are no pictures because we don't think the science needs pictures at the moment. And ?? has attracted ?? a lot of attention ... << audio cut.>> interested to develop it ?? going to be ?? further. Thank you very much, I'll see you next week. 589 KSW – May 8, 2025 End
