601st Knowledge Seekers Workshop July 31, 2025 (Transcription, Editing and Proofing done by KF Brazil) (Auto transcription by Elias)

Part 1

(:12) K- Thank you very much. Good morning, good day to you as usual. Wherever and whenever you listen to this series of Knowledge Seekers programs from Keshe Foundation Spaceship Institute. We are still in time. We haven't missed the time to bring peace. Mankind has still that chance to jump and to learn and to educate himself. Many of you have asked, when is that time, why don't we achieve the peace time, why we don't we achieve world peace? The truth is, it is exactly the same as the Soul of the Man (STM) and the Soul of the Physicality (STP) of the Man and the Soul of a child, has to create that Time. And everything has to be arranged for that to be. And when it comes that Time, a lot of things need to come together, mankind as a whole has to learn to become at peace. The world of the Creation, all the animals, have to be, in a way, enlightened that the peace accepted by Man and the beast at the same time. So when we ask why we don't have peace, when is the time, the Soul of the Planet Earth, the Soul of the what creates life on this Planet, has to tune to the time to be done. This time is not very much as we decide.

(:14) The way you can elevate your Soul, the way you create different kind of breathing, and the way the time comes when we increase the fields of our separation between the Soul and the STP at the time of death and everything else, comes as collection of fields which this planet, which us has tuned and everything has come into time. So something has to be understood. The volcanic eruption is like the way Man breaths, the anger we have, the change of pace. what comes from within us, affects us, affects that time. And we look at the volcanic eruption as just something which happens, something comes out. But you have to understand how much

energy, how much additional energies are released by this that it enlightens us. We see massive eruptions in the coming time, because as another cycle we see what we call, the creation of energies, like the way the Man breaths and changes it, comes to that point. .. And this is part of the same process. We are part of that elevation as part of that energy, which that energy and collectively creates that Time. Is it near? Is it Man ready for the change? Are we in the process of bringing a lot of things together Man, Man's behavior, energy which Man releases?

(:16) And what the Planet has for it to go through that change. We create Time for ourselves. Planet has his own Time. .. and with that Time matches the behavior of Man, now Man is the STP, the collective Soul of humanity, and the trees, and the plants and the shrubs, and the animals. Collectively they are that STP of the Soul of the Earth, which is in the center of it. When these two tune in the Time, in the strength is the time when Man elevates, when Man rises to a next challenge, or Man falls from that challenge. And the creation of this Time is so important that we collectively feel it when the time comes. It's just like waiting at the gate of the airport, waiting for the loved one to come through the gate and you know he's there, he has to appear any time. This time for Man is that time. All the indications of it are, elevation of the STM, which with it will bring the change in the life of this planet, which with it will create a new cycle of STP of the Planet with all its created things, that in balance with the Soul of the Planet, which is within the center of the planet which dictates most of our behavior, will lead to, in a way, creation of new cycle of wisdom. This magic promise that when the Promised One comes, the promised one is us,

(:18) which when the time comes we mature to understand the cycle of the life, and when we stop all the killing and the rest of it. So, we always looked at, yeah my Soul, your Soul,

the cat, the dog. But collectively all our Souls, because, as was said, "When the stone has a Soul, collectively, we make the STP of this Planet." And collectively, we are in tune, in balance with the Soul of this Planet. And these are eruptions, volcanic eruptions, what we see comes from inside the planet. The fields of it, the Gravitational (G) fields and everything else are emitted by the Soul of it, and then it changes the dimension of the Soul, the strength of it. And when that time matches with the total Soul of the created things on this planet, it's the time, time of promised one, the 'Promised Time,' that collectively, as we said, we have the dimension (D) of Place, Position, and the Possession (PPP). And this Time we have the emotion, which changes the STM, as the STP of the Man will bring that elevation of the Soul, what we call, not only understanding, it brings comprehension, the enlightenment, which that enlightenment, enlightens all of us. All beings will get enlightened, the point of the Promised One. And a new cycle starts. It's not the end of the world, it's going to be heaven and hell. It is that we all have to mature at the same time that collectively we don't kill, collectively we don't destroy, collectively we'll live by the Ethos of Mitra. But also Ethos of the Creator, which is Love, giving.

(:20) So, you got to understand, the Humanity has to understand that soon, Man reaches that point of understanding, it's the time for us, as what we call, human race. Which goes through that cycle. << Sorry to interrupt : Mr. Keshe asks to Rick to promote a Unit as Co-Host on Zoom. >>

(:22) K- ... So, in that process, we have to understand that now the time has come. What we look at, what we consider as the time. (Sorry if I take some breaks in teaching. We are doing a special edition today. And we'll explain to you later. So if I go quiet for a few second it's just that things need to be coordinated around the Keshe Foundation). So, what we

understand, is that the addition to Position of the STP of the Man, and the STM, what we yearn for peace. In a way, we take a deeper breath to... or we change the position of our breathing, to... or we put ourselves in a position to receive more energy at the level of the strength of the Soul, or the STP, the way we have learned to do, to balance, to transmute or whatever. This is ?? done in the change, in the structure of the STP of this Planet by birth of a new child, eruption of the volcanic eruptions, it changes in the inner structure, because it's not only the STP is changing, the Soul of the Planet inside changes too.

(:24) And when these two balance, tune to the Time, it will be the time of the 'Promised Time' when everything will change, when Man will be enlightened, when the enlightenment should bring peace, because we are of the higher order. We move from consuming into being part of. And we will see the change. So, the time for humanity, for what you're yearning, does... will happen, when collectively the field strength of the dynamics of this planet balance with the Soul of this Planet. Man is not happy with the planet. The planet is not happy with its citizens. And in that process the new dimension of the fields, changes of the fields will bring, will dictate, will change the fields which the man receives. In a way, what was this planet missing to give to its citizens, that push its citizens to kill, will be balanced off. It will feed its citizens. It will bring peace to its citizens. And that cycle will bring a new knowledge, a new understanding, a new revolution and evolution in the life of the citizens of this planet, which is all of us, the animals and plants and everything else included. In a way if you look at it, this planet,

(:26) what we call, the life of this, every life on this planet is like a cell on the body of the man. Each cell has its own Soul. So the cat with a Soul is the Soul of one cell in the structure of this planet. Man with his Soul is another cell in the structure of

it. And collectively they create that Soul of physicality (P) and they create the Time. They change that Time that when it balances with the Soul, the Time of the Soul of this Planet will create the Promised Time. And that time is very close. There are reasons for it. There are signs for it. And does not matter if your time, your half-life time, has been called upon, or you're still in the life of the cycle on this planet, or your time, you passed this time, you're already gone through the half-life, but you're still connected and you feed the energy to this Planet, will be enlightened by the change. You are aware of the change. And you create that time. Collective interaction of the fields will create that time. When you change the matter to a Gans, you change the condition parameters of the, what we call, the energies of the STP of the Man. It's not that, I was, it was .. an atom of a Copper (Cu) and now it's a Gans of the Copper, it's the same. But the dynamic of the energy, is like when you eat an apple, it's a solid, but when you chew it, it becomes an energy, and then it makes the Man move.

(:28) Now we are in that process. I observed this very clearly, very closely, Man is in that position, or not the Man, but the cycle of life on this planet is in that position. That we will see the change. To what extent, we shall see, Man will be enlightened, we come to the new cycle of the knowledge, we come to new cycle of understanding. We... the whole race of life on this planet will be elevated. It's not just because I say so, because we see the indication of it. All the indicators are going that way. The knowledge of the Man, the way the whole planetary structure is moving in that way. It is going through that hiccup, through that step, or elevation of the, what we call, the comprehension, the enlightenment, the new energy, which enlighten the whole Humanity. We see this in the behavior of the animals, in the past 12 months. We see this in the behavior of Humanity in so many ways. We see the trees and the shrubs have changed position. We see changes in

the atmospheric condition. We see change, the way the planet is breathing. Last times, as we say, a meteorite changed the condition of the Man to become what it is (extinction of dinosaurs). Now, the condition of the inner sanctum of this planet will create that new Time. And, when the balance comes, when the energies are released, when that energy is of such a high order, will enlighten all.

(:30) And that enlightenment is when the Man stops killing, when the Man behaves, understand the process of the Creation. And in that process we come to a new comprehension. We come to the point that matter state it becomes irrelevant. Tangibility becomes irrelevant. Existence to its maximum becomes relevant. Where we even care, when we put a foot down what is underneath of our feet. Where we can lift ourselves does not matter if I go into danger, that creature, that thing is not. As I said to a very close friend of mine once, "When Man matures, there'll be no much of these mosquito killing slappers." Because mosquito exist, it will not touch me to bother me, because it receives its energy, I don't need to kill it. In a way, as I said once before, "No ladies will jump on the chair when they see a spider." Because it's not there to harm me, I'm there to enjoy its beauty. We see this, the evolution of the science, and we see this through evolution of the things which are happening around us. Don't let little things and wars and conflicts and beautiful things distract you. All this is setting up for that final day. Where the Man matures. But the... not just the Man, the whole planetary system which is alive, from the fish to Man to plant to animals will be enlightened in a way that there will be no harm to receive energy from the planet.

(:32) Planet will go back into what it was supposed to do from the beginning to nourish its citizens, not to banish its citizens, not to abolish its citizens. That, in that process, Man kills, animal kills, just because the mother hasn't fed me enough, I'll

find something to eat, because I'm still hungry. But the hunger of the Man never finished. Because, (due) to the structure of the Magnetic Gravitational field of the Planet, that Gravity is taking energy from us, you want to go away from me, I hold on to you, so you have to use energy to walk, you have to energy to move, then I suck the more or less energy and the blood out of you. It's not that it'll float, it's that we become adapted to understand the new condition, that our cells does not need that attachment. In a way the Planet will let us go if we want to. Evolution of the science has to come by understanding the creation of, when that time comes, when we are enlightened and when things changes. I go back, especially very tentatively, I touch the behavior of the animals in one of the lands of this planet, moving away from where it was, moving in the opposite direction. We see this in many, many creatures, even the fishes have changed direction. In some part, even the trees have changed the direction of the motion.

(:34) We see Humanity will move in a different direction, as these fields start interacting and enlightening us. We see massive eruptions, which is in a way the energy from the center to come out, and adds to its atmosphere, which absorbs by us the whole of the created things. And this will point to something very, very clear. As we see it, the creation of Time, understanding the process of, it brings us to, to the next point, where, where is the emotion of this planet? That connects the emotion of the Man, his created things, to that of the structure of the planet, which with it will bring the enlightenment. Would this planet move to save us? Would this planet will release energy within that allows to create, to increase, to enlighten the knowledge of these created things? In a way mother releases energy, that with that energy feeds its citizens, feeds its children. It looks like that way, it looks like is about to happen. We see a lot of indications and a lot of

indicators. We are not going to prophesize, but this cycle can be tomorrow, can be next month, can be next year, and can be in 10 years time. But the process has started and there are very clear indication for this change.

(:36) Is humanity in the process to witness one of the biggest changes in this planetary system? Is our future as a 'Soul citizens' of this planet are ready to move, are ready to take the next step to become part of the Totality of the Creation of what we call, the Universal Community. Has the time been created, which time of the STP and the Soul of the Planet matches up and creates that departure. Which allows a new cycle of knowledge, enlightenment, and different type of life, where in a way the planet takes its responsibility of looking after its citizens, its children, its what is attached to it, where up to now has ignored. Then it comes to, what can mankind do to speed this up? Or what can mankind do to bring that change?

(:38) And all the teachings, of all the past time teachings, of all the prophets, all the teachers, all what he brought us to another enlightenment, enlightenment has made us ready for that change. Are we going to doubt? Are we going to ?? question? Or we watch and we say everything has changed? Would the time comes that we can, in a way, feed the citizens of this planet through the love of this planet. Why does a planet has to have a rage to, in a way, destroy what it's created? Be it the life of the Man, be it the... whatever is the cycle which it tramples on. Then you understand, as you change your breathing I've said, the planet, and the citizens of this planet are racing towards that time of separation. In a way when the two balance, the separation will come. The half-life of this planet, the half cycle of life on this planet. But this time what will be interesting is that, would the citizens of this planet get enlightened, or would the citizens of this planet will get the light switched off?

(:40) What happened in the dimension of physicality, I leave behind a physical dimension where I take the Soul and go. There is a big question which one day Man has to answer, one day the humanity has to answer. Can he do anything to change this, to speed it up? To bring the point of the separation much, much closer than Man has ever known? Can we feed the Man through a system which man does not need to kill and allows the life to expand that he finds his balance and then with it, one's balance with his peace of creation of the time of physicality and the time of the Soul of this Planet? Will the time come when man shall not kill to eat? Animals won't kill to eat. And man finds that balance. Or the STP of the planet finds its balance and with it we all change. What is interesting for us, or what is interesting for us, Is it the time of 'milk and honey'? Is it for us to receive the energies that allows us to be happy with what we are, who we are, without destroying another life?

(:42) Would Humanity go through another change? Enlightenment. Would the whole life goes through the time, racing to change that time? I hope soon you as Knowledge Seekers (KS) understand the purpose of the teaching of today. We don't prophesize, but we see the sign. And are we ready for that change, to accept a new time? Can we contemplate in what is going to be? In the next few days, we make an announcement. And we start setting the structure for the new world order in a totally different way. In a way that changes and takes away the burden of to be alive and to suffer, to be alive, to take pleasure to be alive. And that falls back on the hand of the Knowledge Seekers to spread the new ways around that it takes hold very rapidly. Where, as I said in the meeting today, where it doesn't matter if you are a child born in back villages of a nation,

(:44) and a child born in the palaces of the kingdoms, will have the same security. We have to bring the change, not

from when it comes later on. We have to make the life beautiful from the time when the child is born. Where the mother does not have to be worried, "If my child will have milk, would my child will have clothing, will my child have anything to live?" We have started a life in poverty, where we have to start a life in richness, that with it, it brings a different attitude and lifestyle to humanity. In a very short time we'll lay out the course for this. It's not months away, it's days and hours away. When every child is not born with a sack of gold on his back, every child is responsible, responsibility of the whole humanity to bring to prosperity. And with it, with having a peaceful child, you change the time, and the man will, this time takes hold of time to bring peace to the world. I'm not a dreamer, because I have set it up to start working. And you as Knowledge Seekers have been there. We're going to change the Time. But, changing the time from the time of the start. No child should be born into poverty. And no Man should die from poverty. And this is what we have started, we set up, and hopefully by next week, I'll explain to you exactly how it's going to work.

(:46) We bring a peaceful Soul to the Man, that in elevation of it we'll bring that time of balance to balance with the Soul of the planet's Time that it'll bring that change. It is not anymore throwing Gans's in the rivers and oceans, it is changing the emotion, that with it, it brings enlightenment, and with it, it brings that peace the Man needs. We took everything from each other to live, and by stealing more we became more arrogant. And when they wanted what we stole from them, it's their fault. I take because what I am. And we came, we made kingships to do that. We made nations to become nation of thieves, and because we've stolen so much is our habit, that it's your fault, you have done something wrong, you don't let us rule you. We don't let us to destroy you, because we want to be. And through a new structure we'll bring that change.

And some of you have, are already part of that change without you knowing. You wanted to, you became part of. So we change the emotion this time, which with it, brings the balance between the Time of Physicality and Time of the STM, the Time of the, what we call, this STP of this planet, and the Soul of this planet, all synchronized to one. Then, is the time of the Promise. That every child, from the point of birth, is a wealth of the humanity,

(:48) not the burden on Humanity, not burden on the parents and the life and the society. It needs a lot of planning, it needs a lot of working, but somebody has to put a first brick in to start the building, and we put as collectively that brick in. We start that creation of Time. And then we see how the time will change for the man. To what extent Man will change to what we see and how things will change. Where we see balance in the energies of the man and how mankind will understand that he has to be kind to himself. And how humanity will take that change. Where a child does not need to be born on the streets of Delhi on the pavement and know nothing but poverty and suffering. And few meters away a child is born in the lap of luxury without even knowing what's the difference between the two. We as humanity handle the creation and creation of our own lives the wrong way and it needs that change to be done. And the time for it is now to bring that change, that will change the emotion between the whole structure, that it brings the enlightenment.

(:50) That, not just by saying that no child goes to sleep hungry, but, is there a child that it goes to sleep hungry? If you look at the structure of the United States today, especially in past two or three months, when we look deep into how many children today are going to sleep hungry, more than Africans for sure. Parents lost their jobs, there's no more job to go to, everything has to be restructured. Those who are taking tens of thousands of dollars a month, they are going to be hungry.

Those who are taking tens of thousands and hundreds of thousands, every month and year, the company is not there to provide. There's no job. But the question is, is the time for Man that he does not need a job to live, but he lives because of the joy of living? Does a dog, a fish, child dies of hunger because the father hasn't gone to work? Why should a child of a man be? Instead of striving and working just to live, Man will live to enjoy life.

(:52) What we structure is, we're changing the emotion of the Man, to create a new dimension of time for the STP of this planet, that it needs, that with it, with interaction with the Soul of the planet, will bring a new Time. The evolution in the science of the Man, a revolution in the cycle of the life of the Man. You are not born to be poor, does not matter who you are, you are born rich, to live, to enjoy, to change and bring that emotion. And everyone of us is a reason, everyone of us is the cause, every one of us is part of that change. Today, we strive to change for peace. In a coming time we have peace, we strive to find a way for elevation of the STM and the planet irrespective of color, race, religion, animal shape, size or whatever. And then come the man will bring that change, bring that cycle to bring the position that the Position is irrelevant. But the emotion will create a time where we promised, we sat, we waited. for that Position and Place.

(:54) The Time is... Mankind has reached that time through the Soul, through the suffering you call it, through the killing, collectively brought on each other. To reach to that point there is a need to the... There is no need for wars, as nobody can steal nothing from no one. There is no need for kingship, as everyone is equal from the time of birth. And, would it bring the change? Would it bring what we are looking for? By changing the emotion? Yes. That Promised Day is upon us. It's us to bring it to complete. And it's not tomorrow. It's when collectively we strive to bring that change in the emotion of

man. Because the Place, the Position and Possession will not change. But what is there to be elevated, that it will change the emotion, that it will change the enlightenment, that that enlightenment, as it's the field level, will change the whole totality of the man through Possession. And then man will find peace. The planet will find peace. The flow of a new knowledge in science and technology will bring a new dimension to humanity. And on this planet, where instead of putting satellite to spy and bring satellites to kill each other, we put satellites to feed each other, to transfer energy,

(:56) that does not matter if you're in the depth of the planet, in the depth of the ocean or on the top of the hills, all receive the same, and we don't need to kill. This process is part of the teaching today, without you knowing what's happening to you. We have set up in that position, and we set up to bring that change in that position, because we can change you, we can change and bring that 'milk and honey' on the table, through the structure of the man advancement in technology and science. In a way, we've been good at it. We published our patents, and when we put the patent in, was not to hide it and secure it, it was there when it comes for the publication everybody has access to it, and we made it open to everybody else. We used the system to spread the knowledge in one go. Now we use the system of the science of the Man to feed the Man through the same process. You put music across the satellites, now we teach you, we put food across satellites. As energy will go to hold every living thing on this planet. This is the reason why we put that picture on the screen you see now (of the honey). We have already reached you without you knowing.

(:58) If you see the picture on the screen, and you think it's just honey? All of you on this past half an hour, have been fed honey. As the fields. Did any of you taste honey? Did any of you crave for honey? Or it was just another picture? Some of

you don't have the picture, you're just listening on whatever, without the picture, did any of you feel that? Did this picture, from the time it came out, triggered a new cycle of Time on you? Fifteen minute before we show the picture, we start feeding you honey in the background. We transmuted the energy across this planet, because you are listening from every corner of this planet to this teaching. Now you can see how easily we can feed the humanity. See how you feel in the next few days. Does the honey taste the same as done before today? Or has it changed its taste? Do you need to? Or, have you been fed with the honey? Were you hungry before you started this program? And, do you feel still hungry? Have we created a new Time, that all of you, hundreds of thousands of you around the world, listening to this teaching, are fed? How much did they cost? Why Man kills for energy to live, when with the new technology, so simple to give to everyone freely?

(1:00) When you looked at this picture, did you taste the honey? Did you wish, did you get up and go and get honey to eat? You do not know what we are doing with you today. We touch every sense of being within you today. We came to the wrong teaching, or we came to the right teaching, because the change starts. This is the beginning of defeating the world, through what we call, channels of communication. And you have the guinea pigs for the first trials. There was a reason, we just didn't want to do it behind your back, 15 minutes before we fed you with the honey. Would we in the next sessions, feed all of you with different things? We'll entice every essence of the change in man. It's a time where it should not cost money to be alive, to feed. It has to be a place where we are born with the wealth of the planet as energy, not the wealth of the planet as what it creates and we kill for.

(1:02) This is what the teachings from now on will be. We change the Time, where we bring that child, we bring the change through the system that many of you been with us in past months. You brought us the knowledge, you brought us

the technology and now we use combination of all technology and what is available at this moment of time, as satellite communication, the communication, whatever it is, we're transferring the energy. Now if you felt, if you feel the energy, now you understand how we fed Palestine. Now we can bring man to the new dimension. We bring a new technology, but you don't want all the time honey. You carry a mobile phone, app says, "apple". I received apple, because within the sanctums of the Keshe Foundation structure, we have placed the energy of the apple for anyone on this planet who wants it. Does not need to cut an apple to kill an apple. You want lamb, you want to taste beef, it's there, it's set up for you. You don't need to kill an animal to get it. When I was a student in Manchester, we had a boy from Jordan in our classroom, very religious.

(1:04) And he was the joke of the class. Very serious boy. And he would not touch chips with a baking flour. He will not... Bacon flavor was out of order, because it was bacon, not (for) Muslims. And, on the package says, "There is no bacon in this package." It's just a scent created to taste of flavor, like bacon. So, we can change the taste to what you like, but you receive the energy. Wish it to be the taste of the bacon, wish it to be the taste of apple, it's all the same. Your body takes what it needs from it. That 80% of the energy which you take from the environment, now is with the wish of environment available. We play with you so fine today, that you don't even know what is hitting you today. And, how it will change you, in that dimension, in that direction, and in understanding the Totality of the work. And in so many ways, you will see, we change every emotion of the Man, we test every sense of the Man. And thanks to the Creator, we carry that knowledge with us. Will be interesting in the coming weeks and months,

(1:06) with Knowledge Seekers and the public will come to the teaching, because it's where they can get free food. Where

they come to be enlightened to bring balance with the emotion of the STM, and the STP of the Man. Today we start a new process. And this process will be, we'll gather momentum, and you become part of the life of the Man on this planet. Where a number of systems will feed the whole new planetary system, all the Man needs to nourish. Where the Man shall not kill for hunger, and we will satisfy the Man's hunger for wealth, in a very short time. And we see the, what we call, the interaction of the fields of the Creation. And interaction of the emotion of the greed of the Man. What will be interesting is in how we perceive and we play with the emotion, and then with the picture. We fed you with honey without you knowing. And then after 15 minutes we put the picture of honey in front of it. And after 15 minutes we informed you about the honey. This is how we set out without you knowing to bring that change. To educate you that how in the coming time Man will bring that change.

(1:08) Man will bring the totality of understanding, the wealth, and the food of the Man has to be free, at from the time of the birth to the grave of the Man, when its half time is called. Don't forget what is honey to me, it could be energy level of an apple to you. I have different composition. If any of you have animals in the house, let them in the room where you're listening to the teaching? And watch their behavior? They might not like honey because this animal doesn't eat honey, but does it receive the energy that he changes his behavior? Would it ask for more food? You can't observe your own behavior, watch your animals... And then, we'll see how we put up the structures to change, to bring that change, and to create a condition of, "No man, no child should born hungry and die hungry." No man, no child should be born poor and die poor, because it has to be enough for it to survive in a comfort of life. If you work much harder for it, to have the additional, that's your privilege. But you cannot die of hunger,

you cannot die of poverty. I bring that justice and it's set up to be on.

(1:10) From now on no child will born poor, that if the parents can feed. Every child will born equal in wealth, and it'll be looked after through the system, and the structure of what we set out to do. Because we have the technology (T), and this compensates for what the motherland, the Earth did not give to them. What it didn't come from the center, we give from above. You created the satellites, you developed the systems, now we feed you with it. You are sandwiched in it. You have no choice but (to) change. When there's a comfort, things change, Man will change, Man behavior will change. I was talking to some people very recently. I said, do you know something? In Austria, as employer, we pay 14 wages a year, plus they get one month holiday as well. In a way, you get 15 months wages. And, we pay massive taxes. It's one of the most expensive countries in the world to live. We border Italy. Which is the most, one of the most... We all know what happened in Italy, if you stand still more than two second, your pocket is not empty, there is something wrong with the guy next to you. And why that line has been created, the imaginary line of a border. One side, we have hardly any crime, it's one of the most safest nations to live in.

(1:12) And on the other side, you hold on to your hand and your pants, because you don't know when it's going to be taken from you. I lived in Italy for six years, and I lived in Austria for six years. Just imagine in the ?? eye of Man. One Nation, by law, gives enough, that every Man as a refugee or a worker, to live a comfortable life, provides facilities, we get no crime. The other side, robs and takes everything from it, and the nation takes from each other, what we get. Poverty and everything else which goes with the European nation. Walk to Vatican and see how many people sleep in boxes around in Rome. (In Austria) you don't see anyone in poverty,

because the nation provides for its citizens. Does not matter, born or refugee, or citizens from another country. And the rest of the nation pays for it. To have that security, to have that comfort, to have that I don't have to worry, "What happens, they're going to grab my phones, they're going to rob me, or my house will going to be taken." Robbery, breaking houses, is a very seldom unknown, unless somebody has come from Germany, or comes from France, or Italy to do, and they still capture them. And this is how a Man's life should be on this planet. Create a comfort, create Man, but it needs to be comfortable to live, does not need to commit crime, does not need to kill another plant, does not need to do anything else. (1:14) And this is the process which we start in the Keshe Foundation, and we set out for it. And how we end through the technological development, not by charity. One of the best thing happen to Mankind is a satellite and crypto currency. And one day I explain to you why. No attachment to physicality of this planet. No nation will rob another nation because of it's Gold. No nation plans to rob another nation and destroy everything to get to its Gold, because every Man has enough Gold. I set the basis of this for many of you, without you knowing. Those of you who bought the coins, at a thousand Euro, And those of you who bought the Cosmic Ray bundle, which is got plenty of Gold in it, at 1,000 Euro, now you understand what I've done to you. Keshe Coin will be the only currency which is backed by gold, because everyone asks for gold, we deliver gold. Gold by energy, gold by physicality. The only currency which will be valid in every household, in every nation, in the hand of every child born. (1:16) Now you understand, how I walked you through it. It's just got one piece of puzzle to be added in next few days, and when we agree to release it, then you understand how we bring that change, change the emotion of not need to kill, not need to destroy, not need to end another life for me to be alive. What comes up, what sits with the teaching of today, is

we are changing the Time. As the Keshe Foundation, we set out to change the Time. The time for honey, the time for peace, the time for change, that no man on this planet should be poor. How many of you have received a (CR) Ball as a gift? If you think of it, every gram of gold, plus the Cosmic Ray which is with you, worth 1,000 Euro, making per kilo 1 million dollars, 1 million Euro, where gold does not even have that value.

(1:18) You took the strive, you took the step to bring that change, and now you receive that change. Because when you hold that Ball in your hand, those of you who have done it in both hands and you felt the energy, it's the pleasure which the physical gold does not give you. Physically you are, but emotionally and energy wise you are fed. And that's gold. And this is the process we have started. Today we have started a new cycle of teaching, new process in full understanding of how we can touch every essence of every sense of you as Knowledge Seekers. In past few minutes you've seen the honey and a lavender. We did not put a picture of the lavender there. It was added 15 minutes before we put the picture on. Through the energy of the fields we have already fed you. Did any of you smell anything? Any change of smell? Any change of emotion change with that smell brings? Did you feel it before you (saw) the picture? Now you understand. In the first, we fed you the food. In the second, we fed you the smell, which is one of the causes of man killing. I smell food, I'm hungry. You've already been fed with the honey.

(1:20) Now we played with the dimension of the energy, we played with the dimension of food and smell. And what does it need for man to change? And how long will it take for the man to change? Would more of you will come to the teaching next week and the week after? Thursday is the only time I get fed? Or do we religiously have to get up at 7 o'clock and get fed at 12 o'clock, and then at 6 o'clock? There are two groups of

people in Europe which can say they're Dutch or Italians. You leave an Italian after 12/5 to work, he's totally nerve-wracked. You leave Italian after, afternoon, some 6 or 7 o'clock, they're totally nerve-wracked because they are tuned to kill. That's the time hunting food. Dutch have the same behavior. Would we change our habit? Because now we are fed with 12 o'clock, I don't feel hungry to eat, I don't need to kill for it. I'm a vegetarian, I kill in thousand. I'm a meat eater, I kill one, and I call it a lamb, the sheep, the pig or whatever.

(1:22) But I've shared the killing, because it's too big, and there's a hundred people have shared the body with me. Less killed. And a vegetarian is happy, "I didn't share with any, I killed all the thousands myself, in a bowl of rice, or in a bowl of wheat, or in a bowl of lentils." I am a very peaceful Man, not killing thousands. Do we need to do? The reason I put the honey and the lavender, is one, to feed the Man, in the essence of the joy, and the other one is, the smell of the Man. Would in the Space you see energy and say, "Oh, you smell good, can I eat you?" As it was in the old movie, the girls, I said many times. The little white blonde blue eyed girl sitting on a tree says to the little black girl with the brown eyes, "Can I lick you? Do you taste like chocolate?" Would we taste another being, where the saliva of our life, in our mouth is a poison to that life? Would the scent of a creation, ?? in a created, will trigger in us to kill, to see how it tastes? This time we pick an apple from a tree, that time we'll pick a life from the tree of the Universe (U).

(1:24) We are not educating you, we are changing you. Through your own essence of creation, using the most modern systems of satellites, mobile phones, and expensive computers, you are sitting right in front of. This is where the change comes and this is where, I always say it, the time has come to bring the promise of 'milk and honey.' And to what extent humanity will go to change, now that we have

introduced a new technology, converting energy of the food into energy of the man, and as the energy in the dimension of motion from us to you, delivers energy which creates life, gives life, and saves life. To what extent would we go to understand the change? We go to position that we do not compromise our life, to take another life.

(1:26) Where being a vegetarian, a meat eater, a vegan, is all killing. Glorified by others, and in a way, frowned on by the others. What would the next generation of us look like, when now we have brought this technology to feed the man through the communication lines, like through the fields of the Universe? Would we lose our ?? overweightlessness? (obesity). All this extra eating which made us fat? Would we gradually lose our stomach? Or would we... are we getting trained to become passenger of Universe, where we don't need intestine? Would we get the advertisers coming up, "My orange juice has so many energies"? And would the restaurants go bankrupt that nobody walks in to eat? Would there be a restaurant business anymore? Or 80% of the shops in China will be closed for sure, because they're all food shops? There'll be no more pizzerias around the Europe? And, how much Mankind is kind to himself, to understand the ?? chance? Are we creating a new time? Or, have we pushed Humanity from today, to the new time?

(1:28) Observe your behavior, in respect to food till next week. Observe the behavior of those who are around you, if your cat is in the house or next to you, and has been sitting during the session. Because, waves, no, no Souls and no physicality of the Man. Has the fish changed in the fish tank while you are listening in the room? How much, and to what extent humanity and the created things on this planet are ready for change? Because change is on the table, it's in front of you, you can't change it. Knowledge has come, now who's going to play the knowledge? You lot were quick to make the

MaGravs, to save yourself energy. I wonder how quick are you, now you know, but you don't know how actually convert it into his energy side yet, because we haven't told you that. Are coming to get your free food every day? And how much this food will last you? A day? A week? Has it satisfied the smell of you? I chose lavender for a special reason. How many of you will stop smoking? How many of you become peaceful in behavior?

(1:30) How many of you who has had an infection will have no infection? And this process will carry on. I wonder, now you've seen what I've done to you 15 minutes before each picture, can guess from the energy you receive what will be the third picture today? And what are you tasting in your mouth? What are you feeling emotion of receiving? Because we are feeding you with something. Or are you just taking the energy without connecting it to any entity? Because, as you hear my voice, that entity is fed through the same system through channel 6 of the platform Live on this screen. You see the unit is at work.

(1:32) Are you receiving or are you taking? And how far are you there to catch? What is the structure and what do you feel? Write down what energy you feel. Do you feel any energy? Are you receiving anything more than a lavender and what you call honey? Are you... somebody says, "I tease, I smell orange." Says, "I..." That's... I tell you, Monica, you say, "I tease, smell and feel orange." Are you actually feeling orange? Or a tasting orange? Or you're testing orange if it tell you if it's orange or not? Or is it lemon? You've got to wait 7 minutes to see.

(1:34) Even did your Soul tell you what you teased? Write down what you taste, what you smell. You taste honey and you smell lavender. But, does it need to be? This is how we change the time. And this is the process, how the future humanity will change. If some of you remember, people used to get around the radio to hear the latest news, to see what

the fear and what the Hitler has done, and what the Allies are doing, and it was a big thing getting around the phone, the radio. Would the humanity get around the mobile phones and computers and the rest to receive the food, the elevation of the STM? But there is a very big problem with this system. And that is, we still pass these things through electronics, too many interferences and the rest. Will it be better that if there was no intervention, and it was a direct connection that you received a pure energy?

(1:36) And would that bring the change for us to be able to move in the direction of what we call, understanding oneself. By feeding ourselves through the fields of the universe we change the strength of the STP and the STM and the Time change. What when the man does not kill, lives for centuries and the one who kills, lives shorter because of the diseases, what it takes will bring him. Then ask yourself one single question, why man changes his half-time by killing the others, where he can tap to universal energy and live a life of eternity for thousands of years? That's the only way man will survive in the span of the universe for thousands of years of man's time in the span of... when you don't take in the poison, he cannot die of a poison. This is a secret which is being kept away from the Man. But Man had no solution. Man had no technology, had no way to substitute the killing. But do we actually even need the lavender, or the orange, or the honey, or whatever,

(1:38) where we can tap in the Universal energy and live for thousands of years? In a way, we time our own death, by ending another lifetime by choice of eating. And what are we doing? We want the everlasting life, we want the... be young, we want to live for hundreds of years, but we know we are the cause of it by killing, taking energies which don't mix, matches with our energy, and what happens? We die 60 years, 70 years, where by that killing learning to take and tap into

Universal energy, we can live for thousands of years. Then it comes to a question, suicide is forbidden. But why does man, every mouthful, commits that suicide? Makes one step closer to die faster. Where the wish, the emotion of the energy to keep the physicality going is enough to feed the man, without actually the man physically killing for it. When you see in the Space the bodies that look like whatever has no stomach and no mouth, and communicates through the emotion of the physicality of the Soul, or the body, and you ask them how long they live.

(1:40) First of all, they have no human time race, and to their time they've been there for millions of years. The color of the skin shows the intention of the man. What is the future of Mankind? Why do we kill ourselves by the food we eat? We shorten our lives and then we want to last longer? Where with the new understanding, we create a new dimension. With new understanding, we create a position for understanding what is our position within our lives. And what is our next step? And what can we do to understand that we are cause of our own demise?

(1:42) And we see people, they want more time when they're on the deathbed, but they don't realize that they created that Time by the foods, by the energies they took in, by killing the other lives, the apple, the beautiful delicious steak, the marvelous mushrooms with a cream and the rest. What's interesting is if man realizes that he is actually causing his own demise by the food he takes and learns that he can take energy to the dimension of the emotion of the Soul, would the man kill? Now you got your answer. It was orange juice. Did the Soul know? Was the taste nice? With the honey we tested your hunger. With the lavender we tested your smell and with the juice we tested your thirst.

(1:44) And amazing enough, if you can have this free, why do you stop and create half lifetime for the others? Will mankind

will be kind to itself, that it can create a condition for life? And has the technology and science of the man has reached the point that we can provide facilities, bring in structures that no man needs to kill, no man needs to die of hunger. No man needs to be born poor and die poor, where we are all rich in the equal amount. Universal currency, Keshe flow currency, where you are born rich, not by name, but physically in the hand that no mother can worry about where my child's food will come from, because it's already set to live a perfect life. The child had a perfect life in the womb of the mother. Why not from the second he's born? We have structured it and you will soon understand it and by demand of people you'll bring it into operation in a very smooth way.

(1:46) You're here to serve, but the right way. I hope you enjoyed your time this morning. And I wonder how your breakfast, lunch and dinner and emotions and the smell will be in the next few days and months to come. Watch the cat. What have you changed in its life, in its half-lifetime? We go for a break, we come back and try to answer a few questions. I have to leave before three hours, I have to go into another meeting, please. Thank you very much Rick. I hope you enjoyed the lavender, the honey and the juice. R: Well, I selected fish as my magic word, but it wasn't because of fish, it was because of the environment the fish was in, the liquid. As Azar also selected it, she said it had to be something liquid, which is interesting. Whereas Monica said, "It felt like I was drinking fresh orange juice." Thank you Mr. Keshe. Okay, we are at the half time mark, or the interval here, at the 601st Knowledge Seekers Workshop, here in Thursday, July 31st, 2025. And for our break presentation today, we have a special video that's been put together by the Brazilian community, and presented to me by Rafael. And it has to do with the birthday of Mr. Keshe, which is coming up in a couple of days. (1:48) And we have a presentation of various inputs, from

people, Knowledge Seekers around the world. And I'll play that video now. >> BREAK >> 601 KSW July 31, 2025

Part 2

(2:00). << Birthday Video for Mr. Keshe: Greetings from different countries >> K- Thank you very much. That was a nice surprise and thank you very much for all your love and care. We try to bring the change and it's not easy. Many of you have suffered and many of us will suffer to see that change, but it won't be easy because the greed of the Man is much bigger than the peace of the Man. And hopefully we achieve it, and we are on the right track. We are on the right track to bring that change. And hopefully we'll see the change. And that surely will happen in my lifetime. Where no man will kill. And as we have seen, the beginning of it with the beautiful world leader, .. president, young president of...

(2:02) African president, where he captured 40 trucks of ammunition. Very recently, guns and everything else, and bullets, 5 million bullets. And it showed the maturity of the nation, it showed the maturity of the Man. He melted them and made a bell for a school to be used to teach the Man. And this is where the Man is heading for. Changing tools of war to education and peace. And Burkina Faso is setting the course with the young generation, with their own understanding and yearning for change. And we are there to bring that tool, that piece, that structure, with science and technology, that it changes many, many things. And this is the beginning, and hopefully most of us in our lifetime will see the Promised Time. Not hopefully, we know we'll see the Promised Time. And, it'll happen in much lesser time than we think, even though it looks like chaos. But this is always the storm before the lull, before we see the peacetime. It's got to the point,

dogs are barking, everybody's hitting at each other, they're going to use a nuclear material, they're going to destroy the planet. And when it settles down they'll decide to get rid of all of it.

(2:04) We have to be mature to stand and hopefully, within the next week, we will bring you some surprises. Where we will set the change. And, it's done by Knowledge Seekers and many of you who worked in different ways in the background to bring it. Today's teaching was a beginning of, where we start feeding. And this technology needs to be matured. This will be understood by all of us. And does not need to be everyone to have one at home. The only thing you need, goes back to what I said over nearly 15, 20 years ago, with two mobile phones, will change the course of Humanity. One is to keep Man communicated, and one for Man to understand how to fly, through the dimension of the Soul. Thank you very much. It was beautiful. And we'll... hopefully with the... very more, a few birthdays, we'll see the World Peace. And the peace and change in science and technology. In the past days, past weeks, I've seen so much, discussed so much. And in different part of the world I've seen so much weapons, mass killings, systems and governments who is developing the latest to kill each other. And, as we matured in Africa, we'll mature in the rest of the world, very, very soon. Thank you very much. And hopefully we'll have another year of work to see where we can get to and how we can, by some head of these world leaders, to understand we don't need war, we need peace.

(2:06) And we'll set the course, you will understand very soon. We'll set the course for change. And we'll see the rest. Thank you very much. If there are any questions, now we can answer. R: Yes indeed, there are lots of questions. I have a question of my own, maybe to start out with. ... We've seen, as you have mentioned, about the cat for example, to notice

animals and changes in their behavior and what not. And we have... recent the scientists have determined that even reptiles and fish are sentient beings, that they feel. And now they're saying that even insects are sentient. And this will change many of the laws and the way people interact and perceive our... other beings on this planet. And they're even saying that even rivers have rights now. They have a right to flow where they wish. And I'm thinking that this process that you're talking about, this process toward Peace, is it seems to be more... even more rapidly accelerating, as we go along day by day here. And I'm wondering, how much do the Keshe Foundation systems that you're working with. How much does that add or interact with this acceleration process, which is, as you've talked about today,

(2:08) it's a natural process, that's going on through the whole planet, due to the environment, and you know, Cosmic Ray forces, other such things that might be interacting at this time. Well, how much do the Keshe Foundation systems ... effect all of that? Is it in a major way, a minor way? Is it just for Knowledge Seekers? Is it for the whole planet? Could you explain that a little more? K- Are we the cause of it? Or have we started rolling the, what you call it, the ball down the hill? And is it our wish? Which, as it's Plasmatic, is transferring to everybody else, everywhere else. And we are not the only people who wish and work towards peace, to achieve peace, to create peace. But, my wish is my command. And there are thousands of Knowledge Seekers and non-Knowledge Seekers which their wish is that, to create that position. But for sure there is a movement of fields and energies going that way. I have said in the past, I don't know if you've heard it or not, is responsibility of us to set example, to put, to go to that point. In the Second World War, we killed, executed German leaders who started the war.

(2:10) And we inaugurated the soldiers or airmen who dropped the Hiroshima bomb. We did not court-martial those who dropped the Hiroshima bomb. And because the Allies won, they wrote their history a different way. And that set the scene for what we see today. One nation threatening the other one with a nuclear war and everything else. As I've said in the very recent past few days and weeks, it's the responsibility of the Iranian nation to court martial and take the world leaders who deliberately, knowingly, targeted Iran nuclear centers, knowing with a criminal act, if we would have not cleared our centrifuges from hundreds of thousands of kilos of nuclear material, today we would have had no city of Tehran. Nearby, hundreds of thousands of people would have been killed. Deliberate targeted murder. The world leaders who said this should be courtmartialed, should be taken to Hague, knowing that genocide, deliberate targeting should not be there. And how we change things, how we understand things, is man moving towards peace? Or is man getting pushed towards peace?

(2:12) We have to show the animal behavior first to know who is who. And have our actions of throwing Gans's in the water, or releasing Cosmic Ray energies in a mass, is the cause of it. It is. It's own way, but do we need to do that, or do we mature to, that we don't need to do that? Is our new conditions are creating new barriers for us to overcome, to understand more? And in the past few weeks, I have never worked so hard trying to create a condition to protect the nation of Iran. Then at the same time, try to bring change in the dimension of the what I call, understanding of what it means to release energies, release more or less, whatever you want to call it, to change the position of the world leaders to lead to that. Does not matter animals or whatever. It is, is it our work? That we are going in that direction, is it because,

I've seen many Knowledge Seekers even recently, past few days,

(2:14) going into the ocean and emptying bottles of Gans's in the oceans, and us releasing these new Cosmic Ray materials, because they're all connected to each other. And, strange enough, the people who make these Cosmic Rays, especially if you receive these Balls and everything else, they are men of peace, they are people who work just for peace, with their love, their emotion, their tenderness, they put. I've seen how this group puts everything, even to the dots on your, the Balls, and how things to be, how the materials, is all done to bring that peace position together, and it's ?? bottled and you receive a little Ball. And these Balls are more or less right across the planet. They are connected, they are collected by love and tenderness, and these are the emotions spreading across this planet, and the change will come with it. We have connected all the dots. And today's teaching was part of feeding the dots. Because, where you see the pictures, is where your emotion, your food, or whatever was put into, is where the Cosmic Rays come from. All connected. And, in a way without you knowing, you have paid us to become that Satellite, connecting Humanity together. These Cosmic Rays bundles and Balls have traveled the span of this planet. And they're all connected because they came from the same table, from the same environment, collected with the same love and care and... You should have seen how they've been put into the Balls with tenderness, with the love, and with the emotion of the people who do it.

(2:16) And that's where the change is. And as I said once, "You've been bitten by love." And that bite is very strong. And is it bringing the change? And the STM is connected with the material the Man touches in the packs and he feeds the world with it. One day you will understand what we've done with you a lot with this Cosmic Rays Balls. And is it the cause of it?

Part of it. Would it change? Part of it. And would it bring that change? I wish for the health of some of the world leaders till we get there. And sometimes I wish some of the world leaders should not be there, because they stop us getting there. What we need to concentrate, in a way, pray or give, to the Soul of these world leaders that we jump that fence, and we bring that change. We saw, I... you remind me of the teachers with... slaps a child with a ruler on the fingers, that you've done something wrong. I don't know if you heard it or not, it's been public. In past few hours, 24 hours, 48 hours, Putin has called Netanyahu direct, and saying,

(2:18) "You touch, we chop your fingers off." "You play dirty, you'll be played dirty with, there'll be no more." And one Man, one crazy Man is bringing Humanity to the verge of annihilation. And he enjoys it, his ?? .. he's actually a sadist more than anything else. And, some people are feeding from it, and some people are working with it, to the benefit of. And, I don't think ever Human race has been on a 'see saw' of emotion (up & down), and leadership than in past 3, 4, 5 weeks. We've seen greed, we've seen power, we've seen gentleness, we've seen fear. And, as I said, if you have listened to the last week teaching, I requested from Ayatollah Khamenei of Iran to allow us to sell nuclear materials. And we have offered the nuclear material to some of the most leading nations in the world. It's a Peace Policy, it's a Peace Diplomacy. If you understand how and why. And, I hope, my biggest wish is, that Ayatollah Khamenei accepts my decision, in a short way. And with it, I see as part of the World, peaceful steps to be taken in the right direction.

(2:20) Not because of selling nuclear material. In a way, to taking the leg out of the... all this heated debate for 20 years, that we can concentrate on peace work. I pray for the Soul of Khamenei, to understand what is needed to be done and the reason behind it. And will it bring change? It will do. And would

the World Nations will move to do that? Would we go against the greed? Would we go against the, what we call, temptation of the war? And would we reach? Would the Gans's do? Would your prayers do to elevate the Soul of Ayatollah Khamenei of Iran to accept this offer? I've spent hours and days pushing in all directions in the world of the politics and diplomacy to get this moved. And if we get it, and if we go through it, it'll be a very small step, but would it lead us to World Peace? Or we get the rejection and we head for what we don't want to head into? And is the Gans's will do? Or is it the wishes of Knowledge Seekers and the rest which pushes that direction of the emotion to get to where we are. Would it change what it's supposed to do? But in a way, yes.

(2:22) We started a process tonight which we'll try to extend it in a very big way because we have to analyze the data. We just didn't feed you with oranges and whatever. We analyze, as you've seen, we always collect data in the background and see how we affected, how we got the answer, how we changed everything else and what's the next step. What will happen with the teaching on next week? I don't know, we'll see. And the past two weeks we brought you the condition, how you feel we controlled the energies, we controlled the fields. Now we control the energy of life, which is food. And then we'll see what happens. We use the universal communication system of satellites and the rest to bring that change. Everything is coming together in the next maybe four, six weeks to create that condition of change. And as I said, I explained to Knowledge Seekers, especially those who are close to me in the past few days, we were not ready. We were not ready to go out and take the responsibility to create that condition of peace, to feed humanity with the energy of the Universe. And everything had to come together and in another two or three weeks we'll be together. Today is the beginning. You wondered how we put the (feeding) lines from Palestine.

Now you've seen how many of you today have eaten from the same source. But this time in a very different way, in a much, much, much deeper understanding of how to be done.

(2:24) Maybe next week we see, we feed your Souls without you knowing and see if we can taste the orange through the Soul, then dimension of physicality and just enjoy the image of being there. Let's see, was it? But you have to understand, you took the Gans's to the rivers and the oceans and the lands, now you have all Cosmic Rays in your hand, and you're all connected. That's (?? not) our satellite, that's the universal satellite. Not up there, but works through the Soul, through the energies which is hidden from us, but is open to all of us. We see, we shall see. But I ask you, Knowledge Seekers, to as we've done before, elevate the Soul of the world leaders, especially the Ayatollah Khamenei Iran to accept the mission to sell and allow to break this taboo that 80 million don't suffer day and night because of being advanced in technology. It's like as I said beating a beautiful woman just because you are beautiful, if you're ugly we don't touch it. And I never known the nation being punished for gaining knowledge and technology where the others praise themselves they are advanced in the same technology and they use it. Advancing the animal-ness, yes, not advancing humanity. Any other question? Q: ...

(2:26) Thank you for everything you're doing and thank you for this transmission. It was wonderful. And I actually felt that orange juice, especially the watery part, as Rick mentioned, was the same feeling as when we had the session once when you transmitted water. And like the whole mouth was watery. It was a similar sensation. My question is about these transmissions that are happening now every week. What's the best way for everyone to participate? Does everyone has to come into the English Knowledge Seeker workshops? And also, does it work when someone is listening to the German

channel or the whatever other language channels? K- We are learning from you Knowledge Seekers. We know people who listen to the recordings, get the same kind of effects as those who actually participate live. And to what extent would this will allow us to...

(2:28) We are learning from you. You are sending us reports. What will be interesting to understand or to see is, those of you who listen live, and then listen days later or a few hours later or whatever, couple of days later, does it have the same effect? Now that you know what is in there, and report to us. But, is the emotion of the sense of you translating into German, will be the same as I have spoken? Is your Soul which received the same emotion as it sent and you can give it on to the other people? This is all edible in the learning curve for us. Q: ... Hello Mr. Keshe, I mean, I tried to ask this question because somehow I'm very shocked because, I mean, one thing is about, I mean, I want to say it in a way that I think I don't know how to say, but anyway, on the teaching of number 32, if people go back to it, it's very beautiful, especially the first hour. And you talk about, you actually, when you start writing on a paper and like a kid teaches this actually is amazing how much we can learn from that. And I always go back to those kinds of teaching.

(2:30) But anyway, when you were teaching and you showed how when you created plasma in the middle and you have that plasma and you can direct it any way you want to create the light, energy, you can stop any satellite. And you can stop everything that exists on this planet, even all the weaponry system, if you know how to do it. So now if I hold on to this image that you tell us, and no one has done it, but you know how to do it, then I come to a position to see, because this stuff that I see and I hear people talk, the Jewish people talk like this, I'm at the point of shock because I never knew that human can exist that can be like this. You see, I've seen

soldiers who have gone to Vietnam War. I've seen soldiers in Iran that they fought in Iraq War. None of the soldiers in any conditions when they came back or they talk about, they were happy to shoot someone. They all had remorse. They all had a sad feeling. But I see Israeli soldiers with a sniper shooting a kid and they're laughing and they're smoking on top of dead people. And I see two Jewish guys on a podcast and the guy says, if it was a button in front of me and I could press it in a second, that I kill everyone in Gaza, I do it in a heartbeat. For me, I've never seen a human being talk like this. I've never seen this before. And my question is, if we can stop all the satellite, that all the weapons and stuff, why can't we do this? Because if you do it, because I'm sure you can do it. For you, nothing is impossible. You can do it.

(2:32) If you do it, all the world is going to say what is happening, why our weapon doesn't work. Everybody has a question. With the plasma, I don't know how to do it, but you can create a plasma field screen all over the world, like a screen on TV that can show everything anyone doing wrong, any place on this planet. So everybody can see it, because I don't know how to do it, but I can imagine the plasma, the way plasma works. I know all these things are possible. But why is it that we cannot do any of these things? Because just like for me is a mind. Somebody told me the way you dream that you wake up from a dream and you say, oh, it was a dream, you falling or you something happening, you say it was a dream. Sometimes I feel maybe I am dreaming. I have to wake up at this nightmare. Because that's how I feel. But my question is, why is it you don't do that? K- This is part of the process of the learning and change. This is not the first time this has happened. That's for sure not the first time ever happened. And it won't be the last time. Q: So it means, it means, because even today in the teaching I hear you, many times in the past you said, "When the Humanity is ready." It means

there's a possibility that we are not ready. Is it true? K- It's not a possibility, we are not ready, we are not ready. Q: So we are not ready still? K- You see... R: Well, there are signs of change though, like a couple of days ago, the Canadian government announced that they are seeking a two state solution for that whole issue in the Middle East, and that that'll be happening in September, and they've announced it, and boy is President Trump and the US angry about that.

(2:34) It was in the middle of our trade talks, and they're very upset that Canada announced that. So, but that's an indication that people are fed up, and even the World leaders are fed up, and they're embarrassed not to support that position, that's the... the way it's becoming. UK's made an announcement that way, and several other countries as well, France I believe. K- What about Mr. Keshe, what about the strength of Universal Council, in Soul level? K- That is their decision, isn't it? If it's done sincerely by them, it will be achieved. But you got to understand something, I always said, and we got to understand, the depth of the meaning of what I say, otherwise it's just a word. If I kill you, I'm a murderer, but if you kill yourself it's a suicide. And this race is on a suicide mission, you will understand soon. I said a few months ago, go find the teaching where I said, the Israelis will, the American ships are there to take the Israelis out, their escape. The position is you have to understand we see the same behavior with the others. If you go to the truth about the 7th October 2-3 years ago when this started, actually Palestinians hardly killed anyone, even in that concert. Now we have videos, we have evidence confirmed, I've seen in certain sections with governments that burning of the houses, raping and murdering was done by the Israeli soldiers. All those cars we saw and said people burned, it was done by soldiers, by Israeli soldiers.

(2:36) They have a code to do this and that code was instructed by Netanyahu. This code has been used a number of times. Which means even the life of the Jews can be used to create mayhem to achieve what you want to achieve. (It means they kill their own Jews and blame it on the others). It's a code word in Israeli military command. Q: But Mr. Keshe, why a human can be like this? Why? K- This blood is in it. You cannot do... Go back to the Chinese. If you speak to the Chinese, go back before the Second World War and before that, 300,000 were slaughtered, if I'm correct, in one battle, one day. We had 80,000 beheaded in Iran by Chinese, centuries ago. We have 15 million killed by hunger, less than a century ago, deliberate by the British. Man has done these things to each other just for the sake of power. I can do. Q: But Mr. Keshe, this is something, it doesn't, this is something, but it doesn't fit my brain, because it just doesn't... K- Yeah, it doesn't fit no one's brain, but it's, these are the people who are there, who, you have to change the grain from birth, you have to change the grain from inside. This people, I've seen many of it, because, believe it or not, I'll be going this Middle East peace and work to my neck. 24 hours a day.

(2:38) Q: Are they human? Are these people human? K- They are... they are human, but you got to understand, there is... it to them... it... the same as the... we've seen with the Palestinian, we saw with the Libyans who came, or Syrians came to Iran and killed people, we saw the girls flying with the bullets in their head, it wasn't Iranian, it was the Syrians. We've seen all this. It doesn't limit to the point of nationality in the race. How did the Europeans kill somebody in America (Native Americans), and how did that... We've done this in different time, in different ways. Some we're reading the book, now we never seen it, now with the communication system we are witness to it. And this race has it in it. It's the same as I always said, you've seen the Pakistanis and Indian's. It's how

the Pakistanis, this has changed because they eat meat and it's there, they become. This race is in it. It's bred in it. The same with Americans, would just the Israelis, Jews go to Israel, to one month or two months, serve in the IDF, to kill as many as they can, come back to America and they are Americans, they go on Rabbis and in New York and walk the streets. How many? I was in a cake shop a couple of weeks ago in Linz and it's a Turkish cake shop, very well known. And I was sitting there having a coffee, I saw a woman came buying a three stacker cake. I said to her, "That's a beautiful cake." She says, "Yeah, this came three days ago."

(2:40) A Jewish has escaped from Israel and doesn't have a visa, and they're just getting married for her to stay behind in Vienna. They drove all the way from Vienna, 200 kilometers, to Linz to pick up a cake, because could be ready for a girl not to go back to Israel. Because, she would have been a soldier. The... It was very strange to witness this. We've seen it, it's not just there, you... you see it in a different shape, how it suits. This is ingrained in the blood of the Man. You spent time in Iranian prison. Does people say... in the prison you were in Iran during the revolution, Azar jan. The Israelis bombed it, deliberately, that the prisoners escape and they start a revolution on the streets of Tehran. This ?? get even moving out of it. Who bombs a prison? This race is below the dust, and you cannot change anything in it. And in time, we'll sort it out, it'll be sorted. Not much longer, but in time we'll sort it. It says, "Not there." Nothing you can do with this race. The Man (Moses) killed the tribe which fed him. Q: The only thing Mr. Keshe I can do is that ... Just pray in any language I can, that's all. For me... K- It's not a pray, it's understanding concentration of the energy. You call it a prayer, I call it an energy transfer.

(2:42) At this moment of time, in past few weeks, every possible channel we're trying to find a solution to create a

condition of peace. When this idiot, one, one psychopath, how he does it, and how he gets people. And you know what he does? He actually doesn't brainwash, he plays a 'Jewish card.' And killing him is not an answer. It is how to get rid of this habit of this bloodline. Does not matter if they're Polish, if they are Iranians, if they are Russian, they all behave the same. And they don't want to understand. When it comes to it, they do it. But if it gets done to them, it's the end of the world. But... Q: Also Mr. Keshe, I heard that somebody, a Jewish person was like, was talking against what the action they're doing in Gaza. was saying that in the schooling they teach them that one Jewish people, "One Jewish person is equal to 10,000 people out there." It means, they see themselves... K- They are the Chosen One, this is the best thing they start teaching them, "They are the chosen one." Yes, they are. They are really the chosen one to be animals, yes. They are not chosen to be Human. They are the chosen one to be animals, yes.

(2:44) I agree with that, I've seen it. But, it depends how they do things, and to whose benefit it is. Those people who are close to me, they know, how much I'm involved in this thing, trying to, to at least limit the damage, to especially Iran, and bring a position back. And it goes back to me, I remember a few years ago I was in East coast of... West coast of Italy, and we made a proposal to Netanyahu to accept talk, that we started ?? talk. And a CIA officer called me and he said, Mr. Mehran. I was with the Minister of Education of Saudi Arabia, we were together, family. They were in the same time with us. And I discussed that with the minister. And he said, "Mehran, Netanyahu says he negotiated with anybody but you." "He'll talk to anyone, because he said he knows you get it your way, and he has to step down." So, what do you do with a man who's not there? He's old, so he's going to die, so (he thinks), at least I make a big mess and I go. What's next? Where will

we stand? What are we going to do? We have plane loads now, today, currently, leaves Europe, from here to Israel, took two months tour of soldiers on Gaza, to kill Gaza, people from Gaza, and they return back to Europe. No more people walking. We passed murderers and governments allowed them back.

(2:46) I know one returned last Thursday. They go, one said, "What, we go, they go on a hunting mission." I don't know if you know, years ago, people used to pay a huge amount of money to go to Africa to shoot animals. Jews are going on a hunting mission in Gaza. They go for two months, one month, a week, just to go and hunt. And our European leaders allow them back in. I know one came back last Thursday. R: There's a rumor that they shoot only particular body parts on certain days, as a game. K- You've seen the videos of these soldiers, you see them dancing, and then you see them months later with no legs, no arms. There's a lot of them hanging around. Is there one more question? I have to leave, I have to attend another meeting. Q: ...

(2:48) First I want to express my gratitude for everything you've done for Humanity. During experiences in which we transmute to the dimension of the Soul, it is common to observe our own body at rest, indicating that we have access to the dimension of the Soul. In these moments, we realize that we can move anywhere. However, we are often unable to consciously control the destination of the journey, and are led by the Soul to unknown places, without clarity as to where we are. On other occasions, we perceive images with little clarity, and if someone calls us in the physical environment, we immediately return to the body. So, one, considering these aspects, I ask, is the difficulty in maintaining lucidity and total control during the transmutation of the Soul, related to the degree of balance between the STP and the STM? K- I don't understand. R: Okay, so he's having difficulty maintaining

lucidity and control during the transmutation of the Soul process. And as, is that related to the degree of balance between the STP, and the STM?

(2:50) K- It's partially because we are on subconscious... As much as we are, it's something I never explain, maybe I try to explain, and I will talk about it sometime later on. As much as you drift into the dream, and then you travel the span, your STP is aware of this, so it tries to pull you back to itself, to come back through the dimension of the connections, even movement of the body. When you move, you're dreaming and you move is your physical condition calling you back, "Come back." And, this is the time you come and you go back again, carry on or change somewhere, or you go to another dream. But you got to understand that you still live a dual life. And you're like, I used to say, you know, you have... it's like a man with two wives, with two families, they are not aware of each other, he lives one different life with that family, and one different life with that family, with the mothers, and he's got two mother-in-laws and two father-in-laws, and they don't know about each other, this guy is horrible in this house, and nice in the other house. It's the way our Soul lives. In physical life we have our children, we see what they're like. On the Soul life, it has its own connections. It doesn't have all the connections you have. Sometimes connects to mom and dad, but he's got his own friend and he goes to his own party. And because of the condition of transfer of energy, you are witness to that. To you is a stranger. To you it takes you to somewhere and the... This is where he is connected in the fields with that level.

(2:52) You take him to your mother and your father, and have a party at home. He goes partying as well. A different strength, different... Why do I always dream about going into, God knows, aliens or going to the same people, always seeing Chinese, or always seeing Mexicans, and why all my

dreams are Mexicans? Came from the Soul of the same, connected to the same of the Soul. He sees what you don't see and he's aware of your physical life, but he doesn't interfere in physical life, but sets the material for, you are a part of the game. So, when you dream, first of all, is the dream connected to the physical part of the brain? Is it connected to the Energy side? And when it's Energy side, and you don't understand it or you do things, understand, this guy has his own ?? schizophrenic life, he's got his own friends. And, this is how Energy level and the physical level changes. And you dream in that dimension, your physicality pulls you back, because now physically, sorry, the wife slept on the arm, and it's going to sleep, I have to change, to wake up the STP, to give a kick to the Soul, which was dreaming somewhere else, bring him back, because I cannot move without it, because his position in the brain decides which way I sleep. So, you pull back, and then you move, and you carry on with the dream again, or you end up somewhere else. Is it the physical dream? Is it the connection with the STP and the physical structure of the brain? Or is it the Soul dream?

(2:54) And, if one understands the separation, the difference, then you see why you go up and you see that you look at your physical life, physical body when you are away. And then you understand the explanation of it. What is strange is, does the STM look down on the physicality when he lives it the last time? Would he see through the same eye as you see in the physical life when you look down and see your body is there, and later on you're in it and you walk? These are the things we start teaching very slowly, and then you practice, you see it, and then you understand it. There's a lot of teaching to ?? still do. Q: ... Once we find ourselves outside the body, connected to the dimension of the Soul, how can we develop the mastery necessary, to consciously decide our destination, and the moment of return to the physical body? K- If you

come out, he's already been promised the party, he knows where he's going. You understand? R: The mastery comes before the point of leaving the body, in a way, and it's already predetermined. We don't... K- Yeah, of course. R: We may learn things, but we don't really develop the mastery once we're outside? K- We learn it when we're outside, but on the other hand, we have to understand, we have one leg in there, connected to. It's one simple thing. All the magnetic fields are connected to each other. The magnetic fields of the STP as long as it's got connection to you, it's your rope, you're on the leash. The boss calls any time, he's like, "Come back, I'm still working, I'm not leaving."

(2:56) You understand? This is why you see the body, but in a way there is a... that you don't see the rope, you don't see the connection. R: Came ?? early ?? K- As I said, we don't want to accept that we are on the leash. But this leash is very tight. And as we cross through, we bring the, what you call it, the images of whatever it is to go. But it's again, this emotion, it's how you handle it the way you are. Have you ever gone back to kick it, physically, with your emotion's field, and see, does it move? I used to do that, because, I used to do this when I was very young. It was my daily job, or nightly job, just move up and have a look up. First time was frightening, and then I got used to it, it was very easy, sweet things to do. You learn, you fly, I used to fly with the arm, see if I can hit the floor, and just pull myself up. And I've done all these things. I'm sure many of you who go to that level elsewhere, detachment, you do it. You see the physicality there, it is there, I'll come back when I finish playing. And I always do when I'm going to play. R: When I was a young boy, they used to have harnesses on kids, and an actual leash. And my mother tied me, she was out fishing with my father out in the river, and she tied me to a rock with the leash. And somehow I got loose and nearly went

swimming at a very young age, when I didn't know how to swim.

(2:58) And she had to grab me out of the water before I went too far astray. K- Yeah, the olden days, you know, the mothers use in Iran was very traditional. Summertime mothers sleep on, obviously, on the roof of the house, because it's too hot, there was no air condition years ago, centuries ago. So, mothers, when they went up to the roof to sleep, they used to tie a, like a rope, a string, to their legs and to their children, that if anybody moved, they felt it. But if they went walking on the roof, they fall off the roof. Many mothers have this, had these ropes tied up with the children's leg. That they moved, the mother was awake. And it's traditional, it's what this time is not the mother, you're tied up to, it's your own physicality, which is ?? not there. R: So it is with the Soul. A great mother. K- I was walking once with my young... my son was very young, couple of years, he was very mischievous, he was running everywhere in the shopping he was taking. So I bought him this, you know, it was very fashionable, we still see some people wearing it, a dog leash, you put that one to your wrist and one to his wrist. And it's elastic, he can go there, this, you know, where he is. And this old woman says to me, "Is he a dog? You put your dog on the leash, not your son." I said, "Do you want to see where that one goes? You'll never see him." I prefer him to be a dog, and I prefer to be another dog, at least I know where he is, I have a peace of mind. I know what he's up to. And this is what it is. What we are leashed to the Soul with the Magnetic fields. ?? In a way ?? the our essence of life. Shall we call it a day? I have to go into... K- ... Thank you very much indeed... I might have a very big surprise for you next week, if everything goes the way we are. R: Great.

(3:00) K- That's the beginning of the change in the Humanity, we set the structure. We play it ?? outside. Thank you very

much and see you next week. R: Okay, excellent. And may all your birthday wishes come true. Because you always get what you wish for, as your mother said, I think, one time. So, that seems almost a given. Thank you. K- Thank you very much. Thank you. Goodbye. R: ... Message from the Universal Council through Lissy. Let me see if I share properly. Here we go. And the message is an invitation, "The Universal Council invites the Keshe Family and the Universal Family, in unifying at the Soul level every time and every day, at 9 PM Central European Time, to give freely from our Soul, to connect and elevate all leaders, to work as one Soul in one direction with Markray Corporation and Keshe Foundation, (3:02) to achieve peace through technology in exchange for peace as One Nation, One Planet, One Race.
