Part 1

(:15) K- Thank you very much. Good morning, good day to you, as usual, wherever and whenever you listen to the series of Knowledge Seekers from Keshe Foundation Spaceship Institute. The emotion of Time. I know, last week, we got a lot of you thinking, especially about the emotion of greed. The week before, on a Friday, we tested it on the Knowledge Seekers (KS) who joined, but in a different way, in a different structure, letting them to understand what it is and what it can be. Greed can not be financial, greed can be in anything, possession, property, another human being, collection of items and everything else.

(:16) But, how do, how does the emotion of physicality (P) of the Man connects with the emotion of the Soul of the Man (STM)? Time has no emotion, but when you put the Time and emotion together, we create Creation. Because it needs time to show, it needs time to confirm its existence, it needs time for it to show the manifestation of the effect or existence. One of the most probable ways that one can understand, emotion has a parallel line, or has a connection, between the emotion of the STM, emotion of the Soul of Physicality (STP) and the physicality of the Man. We cry, we feel depressed, we react to, and then we change the Position, the Possession and the Place. But when we move that point the Time comes into operation. But how does the emotion of the STM connect to the emotion of the physicality of the Man? And then if you understand the connection, how the STM's emotion and the STP of the Man emotion, or the physicality of Man emotion connect to each other, what can it do?

(:18) In a way, when all three, the emotion of themselves, have common denominator force, magnetic (M) field emotion, that what you feel physicality you feel it in the STP and then you feel it in the Soul, then what's the effect of this? What can be done with such a position? In today's time when the physicality faces rough time, between a father and a son through the emotion of the STP and the physicality of the Man, Man gets himself cancer. But what happens to the emotion between the STM and the STP of the Man? When they are not in balance, when they are in conflict with each other, when they are out of tune with each other. And what happens when they are in tune with each other? Would that be the point of elevation, comprehension? Would that be the time when Man gets enlightened? When in the dimension of physicality he receives the information from the Universal dimension? And then, what emotion does that bring to the Man? The Time starts when that emotion starts affecting the behavior, the Place, the Time and Position, and Possession of the Man. Same to be with the emotion and with the enlightenment of the Man. Somewhere there is a connection between the magnetic field strength of the emotion of the STM and the emotion of the physicality of the Man and the STP of the Man.

(:20) When all three in magnetic field strength become one or interact with each other in a level of understanding and cooperation and collaboration, this is where the enlightenment comes in. And this is where the STP of the Man connects with the STM as an entity. And then what we see, it could be pain, it could be joy, it could be a movement. Then the person gets the cancer through the emotion, can travel the span of the city or a village, or it decides to stay with the emotion and control, which happens in the dimension of physicality. The Soul of Man's emotion cannot be controlled. It has its own field connection. But Man in the dimension of physicality can

control the emotion and with it decide the elevation of the STM. When emotionally you're under stress, emotionally you're unhappy, emotionally you don't feel you belong to, you do all sorts of things wrong, which does not balance with the field energy of the STM. And then you see the physicality living a zombie life, just being there, where 99.999% of the people on this planet at this moment, live in that zombie ?? time. Everything else is more important than the existence of understanding the process of the Creation, which allows them to have access to everything.

(:22) And they decide not to. They choose to be physically involved then actually allowing the Soul, the dimension, and magnetic field of what created them, to decide the next step. But how does the magnetic field of the emotion of the Man in dimension (D) of physicality connects with the STM, and in turn how does that connect to the Soul of the Universe (U)? This is and will be one of the nightmares of the future science and technology (T) of the Man. The dream, the reality, the time, the place, which never works the way Man knows as ?? we know. But the most important thing for the Knowledge Seekers to understand is, how does the emotion of the STM, connects with the emotion of the physicality of the Man? How does our physical life emotion, the way we cry and rest, has a connection, interconnected with what is in the books and things been done hundreds of years before? Emotion of existence is the outcome of the Man's desire to exist, to be there. And subconsciously, the whole physical structure of Man works in that direction.

(:24) But what is the common between, how does the STP and the STM connect where one is on the basis of the matter state and one is the dimension of the Universal Energy. The only solution what Man left to understand it is to understand the reason for the existence of the Earth. What we call the plasma, the fundamental element of the plasma, being able to

be available in the hand of every Man. If we can measure, if we can connect, if Man understands the two, he will know the answer and he can tell you by feeling. Is this the emotion of the Man, emotion of the STM, existence of the Man? But what is the common denominator? Because that emotion creates the Time, and Time can now be stopped. In a way has a progressive development of its own. Many scientists up to now have been trying to understand this, have been trying to comprehend how things around the Universe works, but they have never understood the emotion. The Time, the Place, the Position, the Possession, the enlightenment, and intellect.

(:26) In the coming time, when Man takes itself to travel the span of the Universe, very few, very few, will travel in the dimension of physicality with aircraft and everything else, UFOs and the rest. Many of you will travel through the dimension of energy. But, how can we monitor where the Soul is within the body, the Soul has left the body, or the Soul is not happy in the way the body is. Then Man understands how far behind is left in the technology with the Knowledge of Creation. That needs to be understood and we do not have time. Understanding the connection between the emotion of the STM and emotion of the Soul of the Creator (STC) is another cornerstone of the work of the Universe. And again, it has a common denominator amongst all the fields of the Universe. Where the STM's emotion, and where the STM's physical emotion click, where do they connect? What's the common denominator in between? It has to be below fundamental plasma field strength. It has to be connected to fundamental plasma field strength.

(:28) And in that process sometimes it brings more gases with itself, than actually need it. And that is the time when we see the elevation of the Soul, a new life, a new way to exist, and a new way to connect to the Creator of the Universal Community. Condition of existence of the Man in the Space

will come from understanding the field strength, control of, and participating in one ?? in the ocean. Once Man understand this, then he'll understand one point, that Man has always been connected from the time of inception until today with the magnetic field strength of the Creator. And that is why Man is emotional. And that emotion brings what they call 99 attributes of the Creator. How the fields interact, in what condition and what strength. One is giving, one is taking. And once Man understand how to manipulate this energy Man will succeed to travel the span of the Universe without any fear. Not worrying I've got a box, cat box and I ?? cannot get on a taxi or a bus. One of the fundamental points about the Creation is the Time,

(:30) and what's the backbone of it, is Cosmic Rays (CR). For the fields come together to start their life is not easy, but when you have a boy, as a mother is already trained to be able to ?? accept the new life, a new Soul, and share that Soul in common denominator with the Creator. What we are doing with you today, we are feeding you massive amount of energy, deliberately and consciously, and we are feeding you in a way that it will bring change to every Soul on this planet. Then we understand that the STM, through direct dimensions, connects to the Soul of the what we call, the Essence of the Creation. One day mankind will understand that the connection between his Soul, the emotion of his Soul, and dimension of the STM's, what we call, Ego, possession, greed, all will come from the same source. We are not there to develop, we are there to enjoy the purpose and the use of the power of, what we call, the energies hidden within the STM.

(:32) In the coming time, we have to see how the Knowledge Seekers will interact. What fingerprints you will leave behind? And to what extent this will affect the dimension of the life of the Man in the Space? Control of emotion and once the

Man ?? himself to this dimension of understanding, all other Man of the same will be enlightened. You are amazing in understanding it. But the common denominator between the all ?? the common denominator, but the information, the knowledge, the understanding, becomes part of the process of the Man's life. Man cannot move. The emotion, the understanding of the field strength of the STM, the emotion and understanding the field strength of the STP of the Man, will give Man a clue. At this moment of time, we are saturating with what we call, energies, which is much more than you most probably need. And in one way or another, most probably, we'll try to achieve. But again, goes back to what is the ?? connection of the Creator with the ?? man of ?? .

(:34) Would we one day be able to replicate the emotion of the Creator? That with it we achieve the position, the possession enlightenment of the Creator. If for example we get on the 20th or 50th layer with what we have, what we achieve as a material to ignite the engine, what happens? He uses and delivers the same but without permission. How we connect the energy of the Soul of the Creator with the STM, is what the Man will come to understand needs to be able to transmute between the center of the Universe with the essence of Creation and any position in the Creation. On planet Earth we have found flight, to go higher, to be able to go faster and the rest of it. In the dimension of the Creation, the ?? fastest time is time of the emotion of the Creator, from the time when he reaches us, or has reached, or will reach somebody else. There is a common denominator emotion between all created things. And if time allows us, we can look at this.

(:36) We receive this from other Knowledge Seekers. We receive knowledge through the Love of the Creator. Understanding of the Soul of the emotion of the Creator, and then understanding the Soul and emotion of the Man. And if

Man doesn't become greedy, as is today, then what we'll see a totally different image of the people ?? in Position and in Possession. We understand and ?? with the times connect, new cycle start. The same shall be when the Souls ?? meet and ?? survive. And it's the responsibility of Man to make sure what mankind has gone through in the past, with suffering, cannot be repeated. Creation of Time, creation of emotion brings Man to the point of maturity for Man to understand how and the way he can move in the dimension of Creation. In the session today we are trying to achieve this. We're trying to give enough energy to the Man that Man loses his essence of emotion of greed,

(:38) essence of emotion of wanting, need. And in a way, if we succeed, we should see an amazing structure of the STM, collective Knowledge Seekers Soul, in today's session. Where we try to satisfy, we try to make it available, and see what you take, and then watch what you give. And see if Man has become detached, or if Man sticks to the greed of holding on to, to be the possessor, to be as part of. And then this point, it comes when there is a conflict between the emotion of the Soul of the Creator and the STM, where in Essence of Creation there is no greed. And this is where you'll find, not conflict, but realization, enlightenment, and detachment, that becomes as part of the structure of the work of the Creation. When I have all, what am I looking for? When I have all, do I need to hold on, as I tap into Universal Energy, and I can give it, because the more I give, the more comes my way, not the greed of coming, pleasure of being here to give more. And this is the, in a sense, part of what we'll do with you in the Space. From the time you go into the cycle of transportation, even physical transportation through UFOs or whatever you want to call it, the time, in that microsecond, we try to satisfy every need of Man's emotion.

(:40) That Man finds himself that there is no need, has everything he needs, and it's become part of the Soul of the Creator. Holding on to does not bring pleasure and enlightenment. In a way, to release it, brings that enlightenment, the light, the knowledge. If the Sun does not radiate its fields, and if those fields do not interact, they'll be passing through the empty space of the vacuum of the Universe, with no confirmation of the existence. The only time we see the beauty of the Sun is when another Magnetic field like the Earth interacts with it. That interaction creates a light, that is in the dimension of the fields of the matter state. But, can you imagine, the fields of the Soul of the Creator is forever has been and ever will be. And then, the STM, in the dimension of same field strength, touches that field. The way that the lights from the Sun to the Earth, that are still in the dark space of Solar System. But when they touch the fields of the Earth, they light up. You get the light, you get the daylight, enlightenment. And then imagine, if Man can create a field which in essence interacts with the field of the Creator, as they are forever radiated. How much Man will be enlightened? It's very simple. Birds with birds, and lions with lions.

(:42) To enjoy and to be with the lion you have to have the essence of the emotion of the lion. And that lion is a king, and that lion is the Creator. And, how can the field emotion of the detachment of the Creator by giving, be, become, or interact with your Soul, and then lights up. Then it has to be of the same, otherwise it does not. The magnetic gravitational (MG) field of the Sun and Earth is more or less the same, because it came from the same Creation, it came from it. Now you understand why the greed is the cause of the Man, the field emotion of the ?? brain is cause of the Man, not to be, not to interact with the fields of the Creator, to be enlightened. The biggest stumbling block, the biggest factor in elevation, enlightenment of the Man, is the greed of the Man. Because,

when you collect you have more of, where the Creator has less of. You have to unload. You have to unload the field strength of, not the money in the pocket and giving it away as a charity, but giving with the Soul to enlighten. And then, you reach the position, the possession of the Creator. Go back to the very first teachings, and forever I keep on telling you, teach. The more you teach, the more you understand the essence of the emotion of the Creator, detachment.

(:44) When you hold on to, it's the greed that comes for every aspect of the life of the Man, be it in the dimension of the Soul, be it in the dimension of everything else. Then you have to understand how humble Man has to become, how much Man has to walk away in the emotion of the fields, from the greed of holding on to, that he creates the field strength that he can interact with the field of the Creator which has no greed. Giving. And if you understood this and what we are giving to you at this moment of time in the background, and you understand it, then I wonder how many of you are holding on, and during the process how much further you're positioning yourself to be of the strength and can interact with the light of the knowledge, the enlightenment, that enlightens you. Now you understand why we tested the greed. Now you understand why the cornerstone of the Man's fall is the greed of the Man. The emotion it creates, is not at the field strength of the Creator. In a way it's the opposite to, is the Black Hole of the life of the Man. The more you collect you become that center point, that Black Hole, that it has nothing to give, where in fact the light of the Creation is within it to give.

(:46) And then you understand, the heavier you get the further down you fall. I made Man in the image of Myself, but I didn't made Man in emotion of Myself, as I have no emotion of greed. And then you understand how much Man needs to understand, has to understand to be part of the emotion of existence of the Creator. Then you understand how much

more you as Knowledge Seekers have to understand about your own emotion, and try to find out what is the emotion of the Creator which I have been created from, but I have walked away from. One day in these teachings I teach you how, in one instance, switch, and reach the field strength that enlightens you with the light of the Creator. Detachment from every aspect. And this is the way I have been teaching. Detachment in everything, from everything, and that's why when I teach you, stays there, it touches your Soul, and it changes the course of humanity and the Universal condition, because there is no attachment. Then you understand the Totality of work of the Universe. How emotion is the cornerstones of the Man's, what I call, pitfall to reach to the Essence of the Creator in the dimension of emotion, (:48) not in dimension of physicality. If you feel the emotion of the Creator you have already met the Creator, you become part of the Creation, and you become part of the fields of it to radiate to the others. If you understood the teaching of today in past half an hour you have found the key to everlasting life. And if not, as I always say, this is another voice in the wind of the planet Earth, where the Soul understand, but the physicality cannot comprehend. We go for a small break, come back, we'll try to answer you with the questions, that might touch you, bring your Soul to understand and be touched with. Then you understand the how today. Why we have tested you with greed. And let's see how much more you have to be greedy for. Rick, take us for a break and we come back.

Part 2

... (:58). K- Thank you very much. We start testing of the Unit, in a very small couple of them, as of this week. And, they've been sent to two opposite corner of this planet, that we can quantify, we can see their pitfalls, and with it, to hopefully within next two to three weeks, start the distribution of the (One Nation Network (ONN)) Units, which many of you have ordered. Please be aware that we need certain requirement, when we send you a notice, to inform us of the detail. We have to keep the data on who's holding the system, who is operating it, and at what position, and where it could be. You don't need to say under the bed where the child plays, but at this address, this is a position, or whatever. We try in the first batch to scatter the Units right across this planet, that it gives us an advantage of not being able to be controlled by governments, as they know what is to come. At the same time, we expect you to keep it confidential when you receive it. The whole process will start in a way in October, November. And then once we run for a few weeks, we move into the second phase of the second batch.

(1:00) Please, once you plug them in do not unplug them. Once you find a position for them, they are. If you move you have to let us know who's moving. There are questions raised by many Knowledge Seekers. Can we pass it on to our children and grandchildren and the rest? Yes. But you have to understand, they value it the same as you do. It's not just a box they receive and dispose of it. You got to understand, this is the beginning of the breaking up of the, what we call, monopoly of wealth connected to survival. And it takes time, it's not going to be easy. But we still need thousands more to be, both in position and to run. So we still need your, what we call, generosity to buy these Units and spread it around the world and allow us to bring that position together. You got to

understand, the whole structure of the Coins is connected to a game. It is not the Cryptocurrency the way you are used to. And we'll explain to you when it comes. You have to understand, this is only applicable to those who play the game of enlightenment, and those are connected to those who are connected to the Keshe Foundation, or people who accepts the position of the Keshe Foundation to be able to operate through these systems.

(1:02) You got to understand what we've done and what we do. Instead of setting up server houses huge across the world, and instead of giving, or hacking other people's, what you call, computers, and the rest to have the place to do, we have done the reverse. We'll explain to you exactly how it works, and how it will be set. It's not worth stealing, because there is so much of it, that it will meet the greed of every Man. But, it's no good for Man to understand the process of, what we call, the whole system of greed, but does not want to understand the process of giving. We try to bring everything in order and many of you will receive your Units in the coming weeks. And you have to be aware of one point, keep it, secure it with your life. Because this is the future of our children. It's the future of planet, where we provide so much that there is no greed. Even through it, the greed of power. And we'll see how it comes and how it will be developed. But we still need much, much more to be purchased for us to make it impossible for governments and the hackers to bring it down, and set up a structure that it can guarantee the flow of knowledge, technology and everything else. All the Keshe Foundation technologies, all the teachings will be loaded on this server, on these Units, that is free for everyone and there is no limitation into sharing and there is no limitation in receiving and updated and upgraded by groups which is set up and all the communities which are operating around the Keshe Foundation worldwide.

(1:04) I hope we'll go down this track without any problems, and I hope in the near future we'll be able to replace the total Cryptocurrency around the world when we bring a new structure of the operation. Which means, if you remember, we gave a few USB stick with the knowledge to the smallest nations in the world, and when the bigger one understood what it is, they all wanted it. In a way, this is putting the seed that does not matter what finances, how a government operates, to all be interconnected through the dimension of the Keshe Foundation, backed by the Markray Corporation, backed by the science and technology, and every Coin backed by Universal, what we call, Cosmic Ray materials. Gold is no good to you on Mars and Universe, where Cosmic Ray materials is the essence of your life. Where in a vacuum of the Universe, becomes a line of the survival, that Black Hole, which brings the whole of energy Man needs to live in the dimension of the Soul. Then you understand, the importance and the way we have created this position. When these systems has to be there, they are the beacons of life, not only for this planet, but connected to every Soul which exists, connected to this planet ?? in the Universe. When first Man found America it was one ship at a time, and then flooded.

(1:06) This will be the same thing when Man becomes humble, do as his greed for wealth as the whole Universe is there for him to feed him, and then Man become part of the Universal Community. In a way, if you look at it, we are giving 1,000 Coin per person. Each coin valued as a 1,000 Euro today. What happens to Euro tomorrow? We'll bring a new level of understanding against gold, against micro... what we call, Universal materials, where the validity of the greed of the Man can be met. He still carries that token in his pocket, that little sphere, I'm still owning something. But, with it, we end the greed of the Man for wealth. And then we'll see the Man

becoming humble to ?? God. It's the cornerstone of our work. It's the cornerstone of the change of Time. And this is the time to bring that change. And, if you understand how important this is to all of us, to our children, the future generation, it's the obligation, not the pleasure, that we have to bring this in. We need to install 10,000 Units to make no nation to be able to control, system not become hackable, at the same time every Man have access to the knowledge, technology, and the wealth, and the, what I call, the food of this planet. Be it for the STM, be it for the physicality of the Man. So, understand what's going on, and we do our best to bring this in.

(1:08) It's started, we cannot stop it, but the speed of it partially depends on the will of the Man, and the completion of it, and the date of the completion of it has already (been) written in the Holy Books. It is not mine or yours, it's the destiny of the Man. Because this time, when we feed from the Earth level, we feed every Soul of the Man, animal, plant, every other creature, from Earth to ?? beyond. In a way the Earth become the center of the Creation. When we do it we can feed the Universe. Maybe, maybe the Creator has moved home. And when you love a woman, her home is your home. Mitra chose Earth, and Earth shall be the new home. Any questions? Q: ... Is Hydrogen isotopes perhaps the right place to look into to understand the common denominator between emotions of the Creator and all created creatures?

(1:10) K- Fundamental plasma, yes. You call it Hydrogen? Is it the same magnetic field strength in the Universe than is on Earth for Man? Is it combination of the adventures of the Man's greed that you can connect it to Hydrogen? All possible. It's how you interpret the emotion of it. And what feeds that emotion. That's the question. It's not the Hydrogen, it's not the isotope of Hydrogen. It's what field is in that, that matches the field of the Universe. In the present world of science, we call it, Upper Quark, Down Quarks, every name

of K and A to Z, you find they're put into this plasma, giving it a name. But, is it, field strength of the Creator, one of these names, field strength of matter, Man sees? Or does Man need to see to give it a name? Or is it a Man just needs to have the emotion? Or, emotion of touching it? And then, as Hydrogen needs isotope to be at the field strength of the Creator. In every atom, in every plasma, this is the Essence of the Creator, you have to find it. In number of the graphs I have shown in past weeks there is always one, and I can pinpoint it where.

(1:12) Does not matter in what state, that point is always there. And that is the way of the Creator, it touches you. But you are not aware of it. There is not a single graph we've shown in past two years that you don't see that, that specific light. And how come it's always there, doesn't move, and it's always consistent. I made Man in the image of Myself, but Man does not know himself, how does he want to recognize Me? That's the problem. You don't need isotopes. It's just a Ray. Any other question? Q: ... Will the science of plasma spreading in mass bring a new calendar? I ask because in the great human transformations in civilizational history, there has been a change in the calendar. Now combined with this historical fact, there's no longer any doubt about the parameter of time.

(1:14) So the calendar, without this new Universal reference of time, taught by the Keshe Foundation, will no longer make any sense. Is it possible to have a more intelligent calendar, that coincides with the beginning of a season, and that also coincides with the same days of the week every year. There is also the fact that the calendar is based on a lie. Since Jesus was not born on December 25th, his birth was brought forward to coincide with the festivals, considered Pagan commemorating the birth of Mitra. K- Let me explain to you something interesting. Man's work on different calendars in

how to suit them, and changes it as it suits them. We've seen in the recent past. In the past, my lifetime, if you are Iranians, you understand it very well. We had a calendar which was common to all those who believed in Shia life, when what we call the time of Muhammad. Then the Shah of Iran decided that Islamic calendar had nothing to do with us as a nation. He changed it to the monarchy calendar. Now we went from 1,300 to 2,500. We became monarchy. Then Ayatollahs came and they changed it back into another calendar, which is about the same. So if you are following calendars, you might not confuse if you have come from that kind of thinking. It's totally lost. Nobody knows where, what, and the rest of it.

(1:16) A few days added, a few days taken away, goes back to that. Sunnis have a different calendar for themselves. And Christians have different one and Jews have different one. If you're familiar with a calendar time, something very interesting is happening within next few days. Extremely important if you're a Jewish. Even a lot of Jews are not aware of this. They say God created Earth over seven days and seven nights. Understanding in the literature of the time, one day is 1,000 years. According to the Holy Scriptures of the Jews, the first 6,000 years will be when the Man suffers. And then the last 1,000 years, when the Man flourishes, and a new cycle starts. Remember two weeks, three weeks, I told you how the calendar fell on the 13th and the 14th, and then nobody understood. What I explained to you, I explained to the Iranian leaders in a recorded message, which reaches out to Ayatollah Khamenei and the rest of the people who are in it, in the past few days. And I explain this for you to understand exactly why dates and time calendar matters, because it's the way it is set, and the mindset. You decide what time you go shopping and that energy is set for you to go at 10 o'clock, I get up, I go shopping, even I decided the night before. So when it comes 10 o'clock tomorrow, you go shopping because

you were told that time. Now understand something very interesting.

(1:18) According to the Islamic religions, the whole of Iran's religious hierarchy has set up soldiers, armies, for coming of Methi this year. They are defenders of Methi. There is a lot of structure has set in Iranian structure, religious. A lot of talks, a lot of ?? that this year is the year where the Methi comes. Who told on, as I said, 13th, 14th, 15th of ?? (month) just couple of weeks ago, that there'll be a massive war. As we... I explained to you, now you understand. I said to the people who were involved with me, that this change, the big change, will come on the 15th of September, according to the books. According to the Jewish calendar, according to the structure of the Old Testaments and everything which is behind it. The end of the 6,000 years is next Tuesday on 23rd of December... September. And according to the structure of the belief and how they move things, between next week and Yom Kippur, which is the first, second of October, a massive war has to take place. And it will be the fight of the Jews, Moses' disciples, over the rest of the religions and humanity, and then from this will rise the ashes of what we call, King David,

(1:20) or what we call Moses, and the rest of it. Now understand the significance of calendars. When I told you, go back on the teaching, that the 13th, 14th of ??, 15th of (??) last couple of weeks ago, I told you there's going to be a problem. And then I told you why it didn't happen, because it's a process. In the process of the Jewish calendar, and according to the rabbis and the whole caboodle of the Jewish structure and the hierarchy, 95% of the Jews are not aware of what's going on. Those who sit like Vatican, Popes are knowing and they're planning it. These are the people who play with the dates and there is no holiday, no Fridays, and whatever on the Jewish calendars that it matches any other

religion. On the 15th of September, which was last Monday, as I told the Iranians, a couple of weeks ago, is when all the enemies of the Moses get together to rise against it. And they have seven days and seven nights to work together. We all know what happened on the 15th of September. All the Muslims around the world gathered in Doha. But, you have to understand how they gathered in Doha. They gathered in Doha because it was attacked few days earlier by the Jewish State. In a way, the Jews knew, if they attack Doha they start that match, that on the 15th,

(1:22) the enemies of Moses will get together, according to the Book, and the Muslims say, "Just play the game, without knowing what they are doing." But they... I've told the Knowledge Seekers here, on the teaching, they know what I told them, exactly what's going to happen. They're amongst you, because there is... and there is a recording of it, because this message has gone to Ayatollah Khamenei of Iran. So, they said they attack Doha to kill the Palestinians, but Israelis knew exactly where they are hitting. They were not there or they were there, the leaders of Hamas was irrelevant. It was a match (of the dates) to start the fire. And we saw on the 15th of September, they all got together. With their allies, with their clients, Muslims coming together, to stand against the Zionists, the promised world of the Torah has completed. Where they all rise against Jews, and now, Netanyahu has to start a war, seven days and seven night, falls on 23rd, beginning of the cycle of the 7,000 years. The, we are in the last days of the 6,000 years of anarchy and everything else. And somebody has to be that the Jews win over the Persians. This is what's in the Holy Books. And then the peace will come. All of you thought Iran getting attacked, Israel, this and that. This is all set up by religions which you are not aware of. The Kingdom of Moses and the King David will complete, when the Jews win over Iran. In this war, which is set up from

the 15th, which is the Jews have a specific word called ??
Gwen,

(1:24) which is called, unbelievers, people who don't believe in Moses. In Arabic they call it Kafar, the ones who believe in no God. So, you talk about the calendar, now the calendar of humanity past 6,000 years, in next few days comes to the process of the last 7 days, the last day of completion of the cycle of 7 days and 7 nights according to Torah. So between the 23rd to the 1st and 2nd of October, which is Yom Kippur, the Jewish leaders are forcing the supposed to be the return of King David, which is Netanyahu himself believing in it, is supposed to emerge. In Doha, when the Muslims came together, the... what you call, Chinese got in, the Russians have got in, the African nations are in, and the rest of it. So, it's the whole of the world against the State of Israel, which is ?? Mus .. , and they have to win. We going to see a murder. I sent a coded message to members of the Universal Council, when they release it, a few days ago to them. I never send a message to Universal Council this way. Preparing the Council to be ready for what is to come. In that process, now we see, if the fulfillment of the time, the calendar of the Man, will fit into the image of what is being set.

(1:26) Who knew thousands of years ago the Jews had to win over the Persian Empire. But, if you notice Netanyahu, when he says, "Everybody is against us", he hits at President Xi, he says, "We even hit China yesterday", which means now, the whole world is our enemy. Nowhere is safe but, if you are in Israel. Four million people have put the needle in the back of nine billion people, because they believe. Biggest question is, you remember I told you, the time come the Jews will pay for the American ships to get them out? Would there be in the State of Israel? Or this will be the end of the process? This is a calendar of Man on Earth for 6,000 years. We are coming into it. We hear, we watch. If nothing happens, the foretold

histories of the Man of 6,000 years complete and a new peace will start, we shall see. If not, and if the way Mr. Netanyahu is setting everything up to be, that by Yom Kippur the Israelis will start the mayhem and they win, 4 million and supposed to win over 9 billion, or in the name of Moses. Listen to what I said for past months, "We've taken the love of God from the blood of Moses." They shall have no home, let alone the land they took by occupation. This is not just to the followers of Moses, it's the same for the Jews, the same for the Muslims, the same for Christians, same for Buddhists, the same for the whole of humanity.

(1:28) I always said, when in a family, they're all doctors, the children become doctors, everybody there to serve. When you see a Mafia, the children become Mafias, the rest. You see a murderer, the thieves in these tribe, it is the blood of the Man who's killed and see glory in killing. And these are his children. And it's time that they have no land, and know where to land it, but except within their brain. When President Xi of China, in past 24 hours, has said, we will not stand any more suffering of Palestinians, when Netanyahu threaten the Chinese, that they are our enemy, now they are all in it. We are all in for a massive, massive change. And you have to understand, once the State of Israel goes, United States gone, European Community is gone, and 500 years of rampaging, slavery, and everything else comes to them. Now we have to see if the calendar of the Man, 6,000 years in next 14-15 days, what's been foretold, and the Jewish state, all these rabbis, high rabbis work on it, this is why they wouldn't touch Netanyahu, because he has convinced them that he's the return of King David, the Promised One. And he can do whatever, and they don't touch him. Now you understand the secret. Let's see what happens.

(1:30) We saw for the first time the arrow has been thrown by the European community. Any plane carrying Netanyahu over

European state, they have the right to shoot it down, they have the right to capture. This is in past few hours coming out of EU. Now, it's the word of Christians against the Jews on top. Now you understand. The head of European Community cannot come at this level without ?? okay from Vatican. We are all watchers of the 6,000 years coming, we are coming to a new cycle of peace, and prosperity, and everything else. And now we have to see it. Is it ?? the technology? Or is it the ?? word of the historical time of a murderer becoming King David? We shall win. And now watch, which calendar ?? will win. But the most important thing is, does this calendar affects planet Mars, citizens of another galaxy? No. This is all self-centered, around the greed of the Man from the time of the Man. As I told you before, now just watch this operation, and what might happen in next few, in the 15 days, 20 days, 30 days, and then you understand why. If .. you kill, you're a murderer. But when a Man kills himself, it's suicide. Nobody to blame. And this is what the children of Moses decided.

(1:32) Then there is no excuse. You got to understand the history of this planet and how things go. As I explained to the Iranian religious leaders yesterday, past few days. There's a saying in English, "If Muhammad doesn't go to the mountain, we bring the mountain to Muhammad." Do you know where this comes from? Does anybody know where actually this proverb comes from? Muhammad came from plains of Jordan and Palestine. Jews saw his uprising, how he was gathering people and how he was doing things. And if you read in the history of the Islam, they made in Islam a lot of verses that Muhammad took the tribes of Jews and did this to them, took their women, and everything else. Muhammad was based in Palestine, and he used to travel into Yemen, and south in Saudi Arabia, Mecca area, the mountains of the south. If you are a Muslim and you have to understand how the history of Man works, Al-Aqsa, the first mosque, the first building which

Muhammad prayed in, bless his name, was in Jerusalem. (1:34) How come suddenly it moved to Mecca? The whole history of Islam sits in Palestine. All the things, what the Jews did, they literally rewrote the whole history of Islam, moved it to Mecca, away from Palestine. They paid the Muslim leaders to move. And then they rewrote the book according to the geography of the place that it could match to it. People could see, "Yes, now we believe the mountain was there, so we've been there." The religion was moved, after hundred years or so from Palestine into Saudi, what we call Mecca of today. Now, you have to understand why, because they wanted .. , no Muslims in the Palestine, that they could own it. And now, if you understand, a few years ago, Jews moved the capital from Tel Aviv to Jerusalem. Why? Because they knew, as long as they move the headquarters, the government, into Jerusalem, Arab nations will not touch Al-Aqsa, Arab nations will not touch Israel, because it's a holy land. And that was a trick that a lot of people missed. It was a religious place, it was at the... The Jews are 48% of population of Israeli, 52% of Palestinian Muslims at this moment. Now you have to come to understand something. As I said before, the center of the Islam sits in Al-Aqsa, .. , in the mosque,

(1:36) where Muhammad said the first prayer, where he declared everything. And, then, hundred years later, decades later, they moved it to Saudi. We know this is correct, and nobody understands it, why? The only nation which has a proof of this, and has never destroyed it, is the nation of ?? Iran, the Iranians who became Muslim, married into Kingdom of Iran with his family of Muhammad, they all built mosques, where face to Al-Aqsa (in Jerusalem), .. ?? , the point of prayer. When the Jews moved the Muslims, after death of Muhammad, decades later, to Mecca, which is today, and wrote (rewrote) the whole history of Islam upside down to fit them, in a way, cheated them. Then the Muslims moved .. ??

or, what you call it, direction of pray to Mecca. Iran is the only nation, in Iran there are a few mosques, which are going back to that old time, which have two walls of prayer, as I said before, one to Al-Aqsa, and when they moved it to Mecca they built (a second wall on the) another side of the mosque facing Mecca. So, in .. one mosque you have two prayer points. And this is what the Jews are after to destroy, that there is no sign of... them fooling the whole structure. It's not a place where you'll pray to, it's what you believe in that you pray to. Now you understand why this state of Israel is after destroying everything in Iran. They want to destroy the last signs, that is in their Holy Book, the last signs of their atrocity of that time. (1:38) Again Muslims by moving Jerusalem to Mecca. And now you understand the reason, because this is what King David has to do, the last remnants of what is left of their own mass murders of past. Now let the historian talk in ten years time, in five years time, what happened at the end of the 6,000 cycle calendar of the Man. Which is in the next seven days. On Thursday, on Tuesday 23rd, we go into the phase of it, and then it takes seven days for the new cycle of seven... 7,000 years to start, which is Yom Kippur. And, is not Netanyahu who has written the time of war, it's the religious leaders. And, if they can carry it out. And then the whole world from China to Russia. You see how Netanyahu has set everything up. Now you understand, it's not him. He's just a puppet, "David." And he's carrying the will of those rabbis sitting in the places in Israel and dictating the time, because then they're going to win because it's in Torah. This is the calendar of the Man. What is the calendar of the Universe, in respect to Man in a position, Man has to find out when he becomes part of Universal Community. My message to Universal Council, be ready for what is to come. That what comes will bring a new ?? coming.

(1:40) Any other question? Q: ... Since I am governed by the Ego, which expresses itself only through emotions, such as attachment and greed, access to the emotion of transmutation, will only occur when I abandon the Ego. How can I allow this transition without the Ego blocking it? K- Oh, you decide. You are the decider of. You can't ... There is an Ego and there is an Ego. Some Egos are for the benefit of the Man, elevates the STM, and some Egos are the demise of the Man. Man has to recognize it. Man has to recognize his Ego, Man has to recognize what is to what. And what do we do everything we do for? And what is the cycle? What is the purpose? And understand the whole structure. Ego is not always demise. Some Egos are for the benefit of Man.

(1:42) It actually brings prosperity to Man, because Ego of... One thing to help, Ego of being there to celebrate the joy of others. But it comes another Ego to demise and to destroy for me to be the best. And you have to recognize which one is which, and how you can change the bad one towards a good one, but you have to understand what is good to you, because of your Ego, can be harm to the others. And then you understand the whole process. Ego is the cornerstone on a lot of things, but needs a Man to recognize it. And how you use it. And what you bring the benefit of, and to what level. And, sometimes Ego bring arrogance, but sometimes arrogance comes out of confidence, and out of knowing. But still you have to understand how much you know to what limit, and where you have to stop with it. Any other question? R: I'm reminded of something I've heard years ago, that one wise man said, that he was asked, "Why does it appear that you have such a large Ego?" And he replied, "It takes a big Ego to contain a strong Soul."

(1:44) And maybe we need the stronger bird cage, if the bird is a big, big strong bird, that can tear apart a weaker cage, let's say. K- Are you caging a sparrow, or are you caging an

eagle? R: Yes, exactly. Q: ... Good morning Mr. Keshe, when we talking about... K- Where are you? Good morning. Are you in Europe? Or are you in America? Q: No, I'm in Europe. K- Oh, that's why it's good morning to you... You see, we call it Universal Traveler, Azar is the Earth Traveler. She's always somewhere. No matter of the Earth. One day here, one day there. More than two weeks in one place for Azar is too hard, she has to be somewhere else. R: Whereas Mr. Keshe once said, "I am the gypsy of the Universe." K- Azar is the gypsy of this planet. Come on Azarjan. Q: Okay, so you see when we, you know, say I live for 64 years and then I... K- You gave your age away Azar. Q: Oh yes, I did. So, you see, depending on what I've seen, what I interacted with, what my experiences was, everything I've gone through, I create a construct.

(1:46) So, immediately you see someone or you see someone action, depending on that construct, you have the label. Now, you break all that construct. The only thing is left for you, you get up in the morning, you go to the bakery and you say to the girl, "I want that." You taste that, you say, "Oh, it's wonderful." You walk under the sun, you say, "Oh, this is amazing." But when people are talking, you cannot hear them. You just see their lips are moving because nothing they talk, it makes sense to you. Then you feel you're walking alone in this world because nothing anymore makes sense. The grass is beautiful, the trees are beautiful, people are beautiful walking, but when people talk you don't hear anything. Then you come to a point where you say, "What is really the truth here of the world?" And I was reading something and this came and it says, I'm going to read it to you, it says, even Jesus couldn't tell the truth. So it goes like this, it says, there is a tremendous creative power behind the words of one who always speaks truth. But he must also be in attunement with the pure heart

quality of feeling and the Soul quality of wisdom to know in any given instance what is truth,

(1:48) a question that even Jesus refused to answer, knowing that the one who questioned him would not understand. Facts can be hurtful, are not always truth, which brings only blessings. For example, the voicing of negative truth should usually be avoided. A Man of broad sympathies does not refer endlessly to a crippled infirmity or to a ?? loyal, ?? reputation. Because there is indeed truth in such words, is no excuse in ordinary circumstances for uttering them. Only sadistic persons under the egotistic prince's cruel dishonest speech enjoy shooting arrows into the Achilles' heel or point of vulnerability that is present in one form or another in every human being. It is also wrong to tell a Man of his flaws if he has not sought such criticism. It is despicable to gossip and spread unkind rumors. The voice is a valuable God-given power to be used to soothe, comfort, instruct, and convey wisdom and love. A veritable alchemist that removes taint or magic of its vocalized portion." So, here, what do you do in life when nothing makes sense anymore? What's the truth?

(1:50) K- (SILENCE) Which side of the fence are you sitting?

Q: What did you say? K- I said, which side of the fence are you sitting, that the truth is what you say? Q: I have no fence.

K- Yeah, but no, when you talk what is truth to someone on one side, can we lie to the other? That's why I said, "You stay silent." There is a history of man, Ego man's transfer of everything else, wealth, knowledge or whatever. And what does it bring to be and what is the truth to be, what is the... Who's talking the truth, put it that way? I used to know a very high ranking intelligent officer. And we were at dinner table, and he said, "You know something, we never believe the people we're interrogating, the first days what they tell us." I said, "What do you mean?" He said, "The first days, especially those who've been trained, they tell you every lie,

because they are there. To them it's the truth and they want us to believe it.

(1:52) They might give you a little bit that you check and it's there, but the rest is lies, because you gave a little bit of it, which is truth." He said, "The truth comes at the end days, when there is no strength left to control the physicality. This is the time that what was the truth at the beginning becomes the truth in real sense of truth at the end." So it depends on which side of the fence you sit and what you consider as truth. What is the music to your ear as we say. Q: And does it really matter? K- Not really, I don't think so. Q: Because in interaction of human, do we need the truth? I mean, what we say, what the vocabulary say, the truth doesn't really matter. K- It does matter, it does matter, it does matter, Azarjan, because the words affects the Man's action and emotion, and emotion brings a new Time. It's a .. April Fool's is one of the best things to see if the truth matters. How many times you have real, played prank on people and they believed it, and was it the truth? But that moment was the truth to them because they believed in it and they reacted to it. Truth is to the eye of the beholder, not to the mouth of the speaker usually.

(1:54) Q: But because Mr. Keshe, because you see what happens when I look at, because if my construct, if I go back to my construct from the base. Say, in order for me to value myself, to know I have a value to exist, I have to be really good. And what is good, it means I have to really become perfect in every way. Like I be the best student in my class, I be the best of everything in order to be valued. So if that's my construct, that's not the truth. The kid was growing up with that construct. And when I look at everyone on this planet, they had a construct which is not the truth from the beginning because the parents, the environment, the teachers converted who they were as a child, which was the image of God.

Because each of us is an image of God, and each of us ?? as God has unlimited images. But we created the image of God that everybody has supposed to be like each other. I mean, I look at, for example, I look at Iranian society, I see how all women all look alike. They will do their nose, their chin, this and that to become all in one... K- That's fashion. ... Q: That's, but it's still, that's the construct. That's the belief system. K- No, there's a big difference between the fashion and the stupidity. It's like when you go to Istanbul. Have you been to Istanbul recently, past few years? Q: No. K- God knows, I call it half of the airport are with the white straps of bandage behind their head, and they're all walking, going back to Italy. Q: What do they do? K- You know Italian men, the hair is their vanity and they all get bald early, because they're too busy with the other thing, drinking too much wine, as they say.

(1:56) And they go to ... now, to Turkey, they take the hair from the back, bottom layer, and put it on the top, and you see, and where they took all the hair out bleeds, so, they put a plaster, they got a bandage around their head, it's all, half of the airport is a... It's like been in the war zone, bandaged up. It's like when I went to Iran, half of the women had a ?? patch on their nose. I said, how societies got so bad? Why do they all been hitting their nose? All these nose damages. No darling, my cousin told me, these are all nose jobs, they go and operate. Or even they can't afford operating, they just put a patch on to say they had the operation. Q: Even Mr. Keshe, even the men do it now. In Iran even the boys are doing it. K- Everything is possible. Vanity is nothing to do with the truth and whatever people believe in. Nowadays it has become very fashionable. Fashion is different than the truth and where the things stand. But this, the truth is what we as a receiver believe in and act upon. And how it moves our Soul and a new Time starts. You cannot start a new Time. This is why I

always say, we teach, it's you who decide the time of the change. We just teach, we are teachers. It's you who decide when to implement it and how to implement it, and what changes it brings to you, that it brings satisfaction to the STM. Nothing else. Never said, tomorrow we all going to do this, you follow me, has to be that day. No. It's when you mature, you do.

(1:58) And it all depends on you, could be for years you heard something, you don't do anything about it, but somewhere it clicks, you stick to it and you change your life with it. And it just takes a factor of a fraction of a millisecond to do so. You're falling in love, have you ever fallen in love with the first look? Sweeps you off your leg? Q: Yeah. K- Sweeps you off your feet? You don't know, you don't want to eat, you don't want to be anywhere. They unite, the time clock changes, a new time comes in. That's the essence of truth. When it touches the STM. When Man changes because of it. Could be enlightened, falling in love with the Creator, to the man, to a woman, and the rest of it. And it changes your life. And that's why they say, "The Creator is always in love, He's a giver." Because, every essence has a new meaning. So, you decide what is the truth, to what to come to you. You know, when you give up everything to make sure that what you love, what you want to give to, and the Creator's fall in love with the Creation, not just with the Man. And one of the ?? naughty ones in that lot, has been Mitra, which has brought ?? Him to the point of understanding. You need one woman to change. Not a bunch of... is not the Islamic world, to have a bunch to change.

(2:00) Q: Thank you Mr. Keshe. K- You're welcome. Rick we have a problem with Unit 5 and Unit 3. Where's the microphone? Not there. It's okay. It's getting sorted out in the background by the ?? . We are doing a lot of things with you, a lot, very, very powerful, and I wonder how you lot will feel how things changes for you. We're keeping a constant

pressure on the field strength. I want to share with you something very interesting. And I have to be able to... maybe it's too early for the Man to share. You got to understand the power of intention, the power of the will, the power of justification in action, and how that creates a new Time. Every time Man makes a decision on emotion, it's a new Time. (2:02) The half-time of the past is gone. A new lifetime starts, a new cycle of Time starts. A decision based on the emotion brings a new Time, which with it usually brings maturity in long term, enlightenment in understanding. But Man has to recognize that. And then Man achieves what he always planned for. Listen to the past two minutes a hundred times and if you understand it, you have found your path in your life. If not, it's just sentences. We decide, we change, we make move, and others move, an intention, does not affect our position, it's us who change brings that change. You're in love, stick to what you love. And nourish the love through the true emotion. Don't get punished by being loved. And we do that to ourselves. We know half of the story, but we ignore the truth of the story. Because it's better for us not to do. And this is the cornerstone of a lot of actions we take. In every action we take, a new time starts. Collection of new times, makes a Time which decides half-life of time of the Man.

(2:04) And if Man understand this, Man has moved, matured to move on, into the next level of understanding. It's you who has to decide, nobody else, nobody can tell you what to do. I made Man in the image of Myself, never been a slave, so is for the Man (?? not to be a slave). Any other question? Q: ... Could you please explain what is the horizontal and vertical physicality as mentioned in the Intro with Dean? R: I don't know if I can get that, I could get that back up I suppose. .. But I was wondering if you had any diagram you would like to show for today. K- No, it's just that it is there, but I think the Man is not ready for it. Yes. Our guy in the back has picked it

up. That light which is a light of the Creator is sits in one of the images matching right across. I think Man is not ready for it. I screenshot it, but it's better not to ?? show. R: Okay, so do we pass on that for now? K- Pass on that for now.

(2:06) Q: ... Can the gift of totality be touched by our emotion? Is life a tragedy or comedy? Is the emotion of freedom embracing the love for everything? And is the gift... is that the gift waiting us? K- A bit of all. I've said this before if you understand the joke of it. Our life, we think is in our hand, but is actually decided by others and other positions. The life of a Man is like a man on the seat of a hairdresser. The head is yours, you sit on the chair. But you have no say where that scissors falls on the guy decides. And you have no say in which hair is going to be cut where and how it's going to look. And that's how life is. We think we have control, is our head connected to us, is our hair, what is in the hand of the ?? man with the scissors, a man, his emotions, and if he had a fight with his wife in the morning or not, you're going to walk out with the style you are happy with, but you have no choice because it's ?? cut for you. And this is literally the story of the Man's life. The Soul is ours, we carry with this body, but the others affect it.

(2:08) If you... it's a funny way to put it, but it's the only way I usually put to children. You take every hair on your body, on your head. And that hair on the other end is connected to another Soul. Literally, that's what it is. And even you lost your hair, you're bald, the roots of it there where it was, still connects to where it was connected before. In a way, we put iron dust on the paper and we shake a magnet on the things, we see the fields floating, the hair of the Man is the same. So, every hair is connected somewhere, and everyone has an emotion of ?? one ?? .. collective outcome of all their emotion is where you are, that's the position of your magnet. It's your Soul. Then you understand how complicated the life is, in how

many places, how many things decide the destiny of the Man to be in a Place, Position and Time. And it's use ?? ?? because we remember, what was, where it was and how it was, and how it felt. And does it feel now what it felt, and is it right or am I sacrificing mine, for the sake of a past? Is it respect or does not matter what? Just because I had a good memory with a car, do I still have to drive that car, because it's lost its brake and it can kill me with it (I can be killed by it). But it's time to change, to move on. But you still carry the memory. (2:10) And this is part of the work. And we have to understand this, once we have it do that, we find changes in life. Because we create a new Time. Any other question? Q: ... Recently some scientists in Japan managed to use CRISPR gene editing technology to eliminate Down's syndrome. It's an exciting scientific breakthrough. What does Mr. Keshe think about it? K- .. I have not heard of this, I don't know. But if it is, it's a fantastic move. We've done a lot of research on this, we've done a lot of work on Down's syndrome. Limited success. You have to understand the reason behind it. It has to be handled in the womb of the mother. I am... I have a meeting, actually going out with genetic scientists in the next couple of days. And there is a big discussion in how we can affect the environment to change the gene.

(2:12) Most probably there will be a research on it very soon, and to understanding the change. It's very interesting, very interesting how things take shape. If we change the environment of, would it create that position of the Amino Acid? You have to understand every DNA is a plasma of the Amino Acid structure. So, with the knowledge we have, we can touch that plasma. R: ... I was going to mention, I see there is a science headline here, maybe I can just show it briefly, about that specific thing. Spare a minute here, while I... Okay, here we go. So, the title is, "CRISPR Snips Away Extra Chromosomes, Offering New Hope for Down Syndrome

Treatment." And CRISPR would be that gene editing program that scientists and researchers use so much now to do detailed changes to on that level. K- There's a lot of things if we go in the dynamic of the genes, by changing the environment, we can change the genes. That's for sure. It's just ?? learning ... R: Like you were saying in the womb, (2:14) would that be possible to do in the womb? K- Yes, 100%. R: And possible once the child is born as well then? K- There is a lot. I think at the moment we recognize, or we discover if the child is Down's Syndrome two months down the line. The way to do it in the future, hopefully. I see a way to it, we hope we will be part of a research to actually do this. At the moment, let's say, for you not to get measles, you have a vaccination of it. That there is enough energy of it, that the body doesn't react to it, when it comes, and the rest of it. Once the knowledge of Man reaches a point that we understand the total energy of a correct energy, without any defects of a egg and a sperm, we can pass the eggs and the sperms through what you call it, an environment that till that... sorry about that... that every egg and the sperm has to go through this.

(2:16) This process that they all reach that field strength. That at that point there is no misalignment of what they call, genes. That let's say all the eggs have to reach energy of let's say 10 Tesla. And it cannot be 9.9 because one of the genes is in the wrong position. We give it enough fields, that it becomes and then that egg or that sperm is ready for the next step. This is not a dream. This is at the moment we've done a lot of work on this. And it's feasibly possible. But you have to understand the system of, what you call it, ethics and ethical committees, which half of these will are paid to block new technologies, new knowledge, is part of the problem in this process. But, I see, maybe decades away, when understanding the plasma technology, but our plasma technology is not complete itself,

to carry the whole package of the spectrum of the fields, that when you put an egg in it, it goes to perfection. And then you can put an egg in sperm, in a way that it becomes what is perfect. Does that perfection will stay perfect for rest of its life? No. Because there's a factor of emotion which comes into it.

(2:18) Then, whatever you create as a perfect, now emotion changes it. And it's like, as I said, when you fall in love, if you remember the first time, or you ever fell in love with the first sight, and it changes your life, it's the same thing. Has to be the right strength, correct. But what does falling in love will do with you? You leave all your education, you leave your life. Whatever you work for, it doesn't matter anymore, because now you're, you're dangling at the end of the carrot. And you change all. And then in the future, long run, it changes everything in your life. Because you made a move. You started a new Time. It's the same. We create a perfect egg. We create a perfect sperm on the match to the point of birth. After the point of birth, we have no control, because the emotion comes in. Child abuse, mother abuse, and everything else. We can't change the mother, because mother abuses ... puts a child in the microwave every day and balance it. There is certain amount can be done, but in general, genetically, we can control. The knowledge is there. But then it comes the emotion. How much the mother suffers during the pregnancy. Abusive father, abusive environment. Lack of finances and a lot of things which cannot be taken, because it was taken and the rest of it. Then, doesn't matter what perfect egg and sperm you put together, the new emotion creates new condition. These are a lot of things, a lot of factors in these things, even in this moment with the, where the science sits.

(2:20) But perfect egg can be produced, but the environment changes. Watch the children which are born, and watch the skin of the children after two years. Rashes, skin damage,

nothing to do with the child's egg or sperm. It's the environment, emotion. But again, proximity of the birth to the sign tells you the state of the mother during the pregnancy. What emotion ?? it was ?? Because the skin of that child is from the skin of the mother. This comes from the emotion and Neuro system of the mother's energies. Any other question?

Q: ... Several years ago I purchased the Pain Pad, pain pad or health belt from the Keshe Foundation. The Pain Pad emits plasma fields that penetrate up to 3 centimeters beneath the skin, helping restore balance to the body. If I wrap this Pain Pad around a bottle of drinking water, will it still receive the fields? Can I then drink the water charged with the Pain Pad?

(2:22) K- Yes, but make sure you have, if you made any Gans's, you have some Amino Acid that it matches up to your, to the body. It's very important. One of the ways that you can match and saves a lot of you a lot of problems in the future and you Knowledge Seekers don't understand, this baffles me a lot. You can use your own body to produce Gans's which matches your body. And if you understand how to do it, you don't take your blood a lot of people do, their blood made the Gans for their own blood. ?? Something is wrong. You have to understand which, what you need it for, what it is about, and then make a Gans for it out of your own. And then use this as a way, tool, as a way of connection between the world of matter and the life of Man's Soul. And then you'll see, this is the difference, this is what the difference is, when you use technologies and you understand how to use it. And how you can bring it and what's the will behind it. It all matters if you know how to make your emotion with the water. What you want from that water? Or just to see I drink something, I put a belt around it. What's the expectation? What do you want to reach? Where do you want to reach?

(2:24) What's the purpose? Is it for a pain in the kidney? Or is it the cancer you're looking for? Then you have to set up the

water according to that. A lot of people tell me, "Oh Mr. Keshe, you know everything, why you let this happen to you?"

Because I know I'll interfere and things can change and I'm not allowed to. When it's needed, I do, but till it's not needed, it's something else on the shelf. Try to understand the knowledge. Do not try to copy them. 99.9% of you are photocopying machines. Why do you want that water? What does it do to you? What's the purpose of it? It took me years of research to build the Pain Pads. Years of research. Tested on so many cases to find the best way to do what. But that was a knowledge, now it's in the hand of people, they don't even know how to cut. What do you want that water for? My wish is my command. Any other question? Shall we call it a day? Q: Mr. Keshe, can I please ask one more question? K- Yeah. Q: Okay, you know in the past you said,

(2:26) "Before you have a children, pray for them." Why do you say that? K- Because you pray for yourself. You put your own emotion, your own energy, is the right way. That child is born out of that energy, it doesn't come from the ?? air. When you pray, you concentrate to do good things, to do with the right, then you create the right energy, for the egg or a sperm from you has the right composition of emotion. In a way you do it for yourself, but you have to understand why. There's a tradition in the Universe, Man has not ever learned. The one who wants, asks twice. The one who has asked twice, has to ask once. First question gives you the emotion of thoughts. Second time asking brings you the conformity of, "Have you understood?" And the third time from the opposite side question, it brings you, "Do you know what you asked?" And if both agree, you'll have a perfect life because we're both in it on equal measure. And if you do that, you understand and no relationship ever goes wrong.

(2:28) Q: ... Can this be... this I think is referring to the Unit we see on the screen here, can this be used as a voting

system? K- No. These are especially locked up to our system, we don't use it, that we do not use as a computer, do not do anything with it, you interfere, you'll be zip-zapping it. Please make sure, that it stays as it is, and purpose for what it is. We still need a lot of these to be paid for, to start going out, to get to what we need, to start our process. Q: ... To make our own Gans, do we have to use our own saliva or urine, or we can use our intentions and thoughts, to make our Gans? K- You have a guess. I think I gave you the answer two minutes ago. You have a guess. Man is made of three levels of Creation. And Man has to satisfy all three to live a perfect life. Earth, Wind and Fire.

(2:30) Shall we call it a day? R: Yes. Thank you Mr. Keshe. K- Thank you very much for being here today. Wish you a very good 7,000 years beginning, those of you who understand what it means. And God help those who don't understand. Sometimes ignorance is a ?? blessing. So we are blessed with blessing. Thank you very much. And please, we still need huge number of these Units to go out and to be done. And it's there to help the others, as much as it brings in the process of bringing the world peace, independence of the currencies and all the games they play with each other. And the way we have structured it, hopefully, in a short time to come, no child will go hungry. And no one will be poor. Finding a poor Man will be very difficult when they receive something. A good friend of mine said, he used to be a farmer in Northwick, in North of England. He said, "How do you make a millionaire out of a farmer?" He said, "You start with a billion and they lose so much and they become millionaires." So, it's the success of the Man, we take from ourselves. Thank you very much and see you next time. R: All right, very good. Thank you Mr. Keshe. K- I wish our world leaders do not do what ?? others are trying to do with us. Thank you very much. See you next time.

(2:32) R: ... I am reminded in the Youtube Chat actually that the numbers for September is 09, 18, and 2025 add up to 9-9-9. That's an interesting number for today. ... And speaking of the Universal Council, we have one last thing to share here, from the Universal Council, which is an announcement, that I'll read. The Universal Council invites the Keshe family and the Universal family, in unifying at the Soul level every time and every day at 9 PM, Central European Summer time, to elevate the Soul of the leaders, to achieve the permanent and lasting peace. 608 KSW – September 18, 2025 End
